BHEL commissions 14 Pumping Units of Kaleshwaram Lift Irrigation Scheme in Telangana in a record period of six months

New Delhi, November 18: Bharat Heavy Electricals Limited (BHEL) has commissioned two more pumping units each at Package-6 (7x116 MW) and Package-8 (7x139 MW) of Kaleshwaram Lift Irrigation Scheme (LIS).

Notably, with this, BHEL has successfully commissioned all 14 pumping units of these packages within a record period of six months and well within the scheduled time. These are very large size pump sets with each pump designed to lift 89 cusecs of water against a head of 100 to 125 metres.

Kaleshwaram is a greenfield irrigation project and is being developed by the Irrigation & CAD (I&CAD) department of the Government of Telangana. While, Package 6 is located in Peddapalli district, Package 8 is located in Karimnagar district of Telangana.

In LIS Package 6, water shall be lifted from Sripada Yellampalli reservoir to Medaram reservoir and in Package 8, water shall be lifted from discharge of Package 7 (near Ragampet Village) to Mid Manair reservoir.

BHEL’s scope in the project comprises Electrical & Mechanical (E&M) works, including design, manufacture, supply and supervision of erection & commissioning of these Vertical Pump-Motor sets along with associated auxiliaries in each package. The equipment has been supplied from BHEL’s manufacturing units at Bhopal, Rudrapur, Bengaluru and Jhansi, while the supervision of erection and commissioning at the site was carried out by the company’s Power Sector Southern Region division, Chennai.

In Telangana, BHEL has so far commissioned 39 Pump-Motor sets of various ratings aggregating to 2,306 MW. In addition, BHEL is presently executing another 26 Pump-Motor sets totaling to 3,572 MW for various Lift Irrigation Schemes viz. Kaleshwaram LIS Package 10 & 11 and Palamuru Rangareddy LIS Package 5 & 8. Besides Lift Irrigation projects, BHEL has made significant contribution to the hydro sector of Telangana and has commissioned 1,073 MW of hydro power projects in the state so far.

BHEL is presently executing hydroelectric projects of more than 6,000 MW, which includes 2,910 MW of projects within the country and 3,184 MW abroad. In addition, BHEL is also carrying out comprehensive Renovation and Modernization of more than 684 MW hydro projects across the country. Significantly, more than 500 hydroelectric generating sets of various ratings have been ordered on BHEL with a cumulative capacity of more than 30,000 MW, including 6,680 MW for overseas projects. BHEL’s hydro plants are successfully performing in India and across the world, including countries such as Afghanistan, Azerbaijan, Bhutan, Malaysia, Taiwan, Tajikistan, Rwanda, Thailand, New Zealand, Nepal and Vietnam.
