

Dear Sir/Madam,

An interactive workshop (**BHEL SAMVAAD**) is planned with Indigenous suppliers to show cause the BHEL requirements for Seamless Pipes & Tubes to meet our full size range and specification for Super Critical Boilers and Nuclear Steam Generators. In this regard workshop is being organized with all Indigenous suppliers to deliberate on the requirements and fulfill the Aatma Nirbhar Bharat Initiative.

The discussions with the suppliers will focus on:

- Indigenization of the Larger Diameter & Thickness Pipes by enhancing the existing facilities.
- Indigenization of Higher Specification Tubes of Grades SA213T23, SA213T91, SA213T92 & SA213UNS S30432 (Super304H) with Shot Peening.
- Indigenization of Incoloy Tubes for Nuclear Steam Generators.
- Development of new entrepreneurs to invest in the manufacturing of Pipes & Tubes.
- Development plan and tentative schedule for indigenization.

**The Workshop is planned 08.06.2022 (Wednesday) from 11.00 AM to 1.00 PM.**

Kindly make your presence available along with your Technical team for the workshop.

The details of the program and VC link will be provided shortly.

For any further details kindly contact Shri. K. Udayakumar, Dy. Manager/Purchase, Raw Materials, BHEL-Trichy, PH – 91-431-2577030, Mobile – 9092821199.

Thanking You.
