BHEL signs MoUs with Indonesian Companies

Consolidating its position in overseas markets, Bharat Heavy Electricals Limited (**BHEL**) has signed a Memorandum of Understanding (MOU) with PT Star Vyobros, Indonesia for setting up a 200 MW Coal fired power plant in the Sulawesi region in Indonesia. The MoU was signed in a ceremony held in Jakarta, Indonesia by Mr. P. K. Uppal Executive Director, (International Operations) **BHEL** and Mr. Edi Yosfi, President Director, PT Star Vyobros in the presence of Ambassador of India to Indonesia, ASEAN and Timor Leste, H.E. Mr. Gurjit Singh. **BHEL** has earlier signed one more MoU with PT APAC INTI, Indonesia for setting up a 25 MW – 30 MW Solar Photovoltaic based power plant in the Java region in Indonesia. In Indonesia, **BHEL** is presently executing a coal-fired power plant for PT CKP, besides having commissioned two more coal-fired power plants in recent years. The signing of these MoUs reinforces **BHEL**’s commitment to provide reliable EPC solutions to the power requirements of South East Asian countries. More than \$3 billion worth of export projects in 20 countries are presently being executed by **BHEL** and about 10,000 MW of power generation capacity has been set-up by the company in different parts of the world.
