

## Message

I am happy to note that Vigilance Awareness Week-2022 is being observed from 31<sup>st</sup> October to 6<sup>th</sup> November, 2022 with the theme “भ्रष्टाचार मुक्त भारत - विकसित भारत (Corruption Free India for a developed Nation)”.

BHEL is operating in a highly competitive and dynamic business environment which requires speedy decision making and agility in execution. Fair, honest and transparent decision making, in accordance with the laid down policies and rules will assist in timely, cost effective and high quality delivery which will be the key to success of our company.

I believe that our country can develop much faster in a corruption free environment and each one of us has an important role to play in freeing India from this evil. Vigilance Awareness sensitizes all of us regarding the areas that are prone to errors as well as the consequent costs due to erroneous decision making and helps us in making quick and correct decisions which will further aid in our aspiration for becoming a corruption free and fast developing nation.

I am happy that Vigilance Department is taking-up multiple activities to generate awareness and to motivate employees and all stakeholders towards this cause. Let us pledge to maintain the highest standards of conduct and integrity in our day to day functioning and discharge our duties and responsibilities with dedication and sincerity to achieve our goal of timely, cost effective and high quality delivery.

(Dr. Nalin Shinghal)

Chairman & Managing Director
