ERECTION SERVICES DEPARTMENT

SPECIAL INSTRUCTIONS TO BIDDERS

Page 01 of 02

1. This Booklet consists of the scope and bill of quantities of the entire work etc.
2. The Bidders are requested to go through the instructions contained in the documents attached and quote in the Rate Schedule attached.
3. The Bidders are advised to go through the General conditions of contract, Special conditions of contract, Tender specifications and all parts of this tender document and fully understand the scope of work before quoting. Any doubt in the documents should be got clarified from Erection Services Department of BHEL, Ranipet before submitting their offer.
4. Bidders shall note that all consumables, tools & tackles and all the required Mobile Cranes, Trucks / Trailers / Tractors, Hoists, Derricks with winches, cutting and welding machines, etc. are to be provided by the contractor.
5. **Power and Water for construction and other purposes shall not be provided by BHEL.** The same have to be arranged by the bidder at their cost.
6. The Tender Documents should be submitted duly signed and stamped in all the pages of the Tender Specification, General conditions of contract, special conditions of contract, Annexure etc. by the Bidder.
7. Offer of the Bidder with all the required documents should be submitted so as to reach the specified addressee as per schedule given in the Notice Inviting Tender.

8. ADDRESS FOR SUBMISSION / POSTING OF BID DOCUMENTS

**THE OFFICE OF MANAGER ,
CIVIL TOWNSHIP,
(NEAR MUKUNDARAYAPURAM RAILWAY STATION)
BHARAT HEAVY ELECTRICALS LIMITED,
BOILER AUXILIARIES PLANT,
RANIPET – 632 406.
Phone No.:04172 - 284883**

9. Address for communication, clarifications etc.

**THE DY. GENERAL MANAGER,
ERECTION SERVICES,
BHARAT HEAVY ELECTRICALS LIMITED,
BOILER AUXILIARIES PLANT,
RANIPET – 632 406.
Phone No.:04172 - 241171 / 284973 / 284554
Fax : 04172 - 242011
E- mail : mohankumar@bhelrpt.co.in
vramesh@bhelrpt.co.in**

10. **No advance payment towards mobilization of site operation** or for any other purpose will be made by BHEL. The payment for work will be made strictly as per payment terms in the tender specification.
 11. The bidders shall submit the duly filled in **Formats** given in this Tender document, along with the offer.
 12. Bidders are requested to carefully study and understand the sequence and schedule of activities as the Erection time is the essence of the contract and all the resources required for completion of work in the stipulated time period has to be mobilized well in advance before the starting of the erection of Raw water treatment plant (**RWTP**) .
 13. BHEL is not bound to accept the lowest or any bid and will have the right to reject any or all the bids without assigning any reason whatsoever. It is to be noted that a two-part evaluation system will be used for this tender. Please read the relevant portions of the tender / NIT. Hence it is essential that the Bidder submits a comprehensive technical proposal in their bid.
 14. No Special tools are envisaged to be provided by BHEL. Equipment and consumables for hydrotest of pipes, NDT test of welds etc. shall be arranged by the bidder at their own cost.
 15. Approval, if any, required from statutory authorities like Labour Commissioner, Electricity Board, etc., should be obtained by the bidder at his own cost and risk.
 16. The bidder should mobilize maximum labour force from the local area of work.
 17. These Tender Documents are not transferable.

BHARAT HEAVY ELECTRICALS LIMITED

BOILER AUXILIARIES PLANT, RANIPET- 632406.

ERECTION SERVICES DEPARTMENT

NOTICE INVITING TENDER

Sealed offers in TWO PARTS are invited from experienced bidders meeting the requisite Qualifying Requirements (QR) for the work mentioned below. Points relevant to the tender are mentioned below and are to be complied with.

1. TENDER SPECIFICATION NO. : BAP : ERN : OPAL : RWTP: MECH : C : 241

DATED: 27.02.2014

2. **NAME OF THE WORK :**

ERECTION AND COMMISSIONING WORKS (MECHANICAL) OF RAW WATER TREATMENT PLANT (RWTP), INVOLVING HANDLING MATERIALS AT SITE STORES / STORAGE YARD, TRANSPORTATION TO SITE OF WORK, ERECTION, TESTING AND COMMISSIONING OF MECHANICAL COMPONENTS OF RWTP AT OPAL, DAHEJ, BHARUCH, USING CONTRACTOR'S OWN TOOLS AND PLANTS, CRANES , CONSUMABLES, MANPOWER ETC.

3. **EARNEST MONEY DEPOSIT** : **Rs. 60,000/-** (Rupees Sixty Thousand only)

3.1 **EARNEST MONEY DEPOSIT (EMD)** : The offer submitted must be accompanied by the prescribed amount of EARNEST MONEY DEPOSIT. EMD shall be remitted along with the tender in the form of pay order or DEMAND DRAFT only drawn in favour of BHARAT HEAVY ELECTRICALS LIMITED payable at RANIPET. EMD in the form of bank guarantee / fixed deposit receipt or in any other form **will not be accepted.**

3.2 One Time EMD remitted at any other BHEL Unit / Power Sector **will not** be considered. **EMD amount remitted at BHEL/ Ranipet against this tender will only be considered.**

3.3 **An offer / bid that is not accompanied by the requisite EMD amount is liable to be summarily rejected.**

4. **TENDER SCHEDULE :**

a.	SALE OF TENDER DOCUMENTS	01. 03. 2014 To 14. 03. 2014
b.	DATE & TIME OF PRE- BID MEETING	NA
c.	START DATE & TIME FOR BID SUBMISSION	10.03.2014 at 10.00 Hrs.
d.	DUE DATE & TIME FOR BID SUBMISSION	15.03.2014 at 14.30 Hrs.
e.	DATE & TIME OF OPENING OF TECHNICAL BID	15.03.2014 at 15.00 Hrs.

Note : ***Please obtain updated information from the BHEL website about the latest applicable dates.)***

5. **PRE BID MEETING : NA**

NOTICE INVITING TENDER

6. **OPENING OF TENDER:** Technical bids will be opened on the mentioned date at the office of THE MANAGER, CIVIL TOWNSHIP, NEAR MUKUNDARAYAPURAM RAILWAY STATION, BHEL, Ranipet.
- 6.1 In case the opening of the tender is a non-working day then the opening will be done on the next working day as per the time schedule.
7. Tender specification documents with complete details are hosted in web page (www.bhel.com). Bidders can directly download the same and use for submission of offer. Tender document charges shall be paid to BHEL along with or before submission of offer.
8. Interested bidders may alternately collect hard copy of tender specification documents from Erection Services Dept / BHEL / Ranipet on all working days (between 10.00 to 14.00 hrs) within the sale period on payment of tender document charges.
9. **Tender specification document charges (Non-refundable) :** Charges for Tender Specification document @ Rs.2000/- per Tender Specification shall be paid through Account Payee Demand Draft in favour of “Bharat Heavy Electricals” payable at Ranipet or in Cash at the cash counter of BAP/Ranipet. In the case of downloading of Tender Specification documents etc. from the web page, the bidder shall remit the tender document charges (Rs.2000/-) positively along with or before submission of offer. In the case of request by the bidder for dispatch of Tender Specification documents through Courier/Post, extra charges shall be paid @ Rs.500/- per Tender Specification. The tender documents are not transferable.
10. BHEL will not take any responsibility for delay/loss of documents or correspondence sent by courier/post.
11. All corrigenda, addenda, amendments, clarifications etc. to tender specification will be hosted in the web page (www.bhel.com > **Tender notifications** > **view corrigendum**) only and not in the news paper. Bidders shall keep themselves updated with all such developments.
12. **QUALIFYING REQUIREMENTS (QR) :**
Bidders shall essentially meet all the qualifying requirements in (a) & (b) as under:
 - a. Bidder must have successfully executed Erection of mechanical components in Power plant / Petrochemical plant / Refineries /Water treatment plant etc, involving Erection of pipe / piping system and Rotating machines, in the last seven years as on 31.01.2014 as follows.
 - (ii) One work of atleast Rs.17.00 lakhs in a single work order.
 - (iii) Two works of atleast Rs.10.00 Lakhs each..
 - (iv) Three works of atleast Rs.8.00 Lakhs each.

(AND)

- b. The contractor must have achieved minimum average annual financial turn over of **Rs.6.00 Lakhs** during the last three financial years (FY) ending on 31/03//2013 or 31/03/2012, if the account for the FY 12-13 is not audited.

Fulfillment of QUALIFYING REQUIREMENTS: A bidder must satisfy all the qualifying requirements enumerated as in (a) & (b) above concurrently in order to qualify to participate in this tender.

13. **Supporting documents for QR:**
Bidder shall submit documents in support of possessing qualifying requirements as under, duly self certified and stamped by the authorized signatory.

NOTICE INVITING TENDER

- (i) List of jobs done with the name of the project, Owner of the project, Name of the customer, Work order reference No and date, brief details of jobs, executed value, date of start, date of completion.
- (ii) Certified Photocopies of work orders issued by the Customer containing details of bill of quantities/schedule of rates and certificates for proof of satisfactory completion of work.
- (iii) Certified Photo copies of Audited profit and loss account accompanied by relevant schedules for turn over figures.

14. Acceptance of any bid shall be subject to the approval by BHEL's Customer/ Client.

15. Seeking clarification on Tender Specification: Clarifications, if any shall be sought through written communication only, indicating the specific clauses in the Tender Document, so as to reach the specified office at least seven days before the last date for bid submission. BHEL shall not be responsible for receipt of queries after the due date for seeking of clarification due to postal delay. Any clarification / query received after the last date for seeking the same may not be normally entertained by BHEL and no time extension will be given.

16. BHEL may decide holding pre-bid meeting (**PBM**) with any /all intending bidders. On such communication from BHEL, the bidder shall ensure participation in the same at the appointed time, date and place as may be decided by BHEL. **Bidders are advised to visit the site and completely familiarize themselves with the site conditions for this Retrofit job.**

17. All the information as called for in the various clauses and annexure of tender specification should be furnished. Please refer to the check list. The details so furnished shall be complete in all respects and as per the formats prescribed in the Tender specification (Statutory requirement of Contract). The bidder may have to produce original documents for verification, if so desired by BHEL.

18. BHEL reserves the right to reject any offer on the basis of unsatisfactory performance of the bidder in any on going job or any similar job in the past.

19. BHEL will operate CPSE purchase preference policy as applicable.

20. Offers received with any deviation or without relevant information are liable to be rejected.

21. Price bids received in any form other than prescribed in Part-II (PRICE BID) are liable to be rejected.

22. BHEL reserves the right to accept or reject any or all the bids without assigning any reasons whatsoever.

23. REVERSE AUCTION (RA): BHEL reserves the right to go for Reverse Auction (English Reverse (No Ties) – ON LINE BIDDING on INTERNET) instead of opening the sealed envelope price bid, submitted by the bidder. This will be decided after techno-commercial evaluation. All bidders to give acceptance to participate in RA. Non-acceptance to participate in RA may result in non-consideration of their bids, in case BHEL decides to go for RA.

In case BHEL decides to go for reverse auction, only those bidders who have given their acceptance to participate in RA will be allowed to participate in the reverse auction. Those bidders who have given their acceptance to participate in reverse auction will have to necessarily submit online sealed bid in the reverse auction. Non-submission of online sealed

bid by the bidder will be considered as tampering of the tender process and will invite action by BHEL as per extant guidelines in vogue. For details refer to the **General Terms and Conditions of reverse auction** in SECTION-VII.

24. If the reverse auction is unsuccessful as defined in the RA rules / procedure, or for whatsoever reason, the sealed Price Bids may be opened for deciding the successful bidder.
25. **VALIDITY OF OFFER** : The validity of the offer shall be 180 days from the date of bid opening (including extensions , if any). No unsolicited revision in the tender offer shall be entertained after opening of tenders and till expiry of the validity period.
26. **LIQUIDATED DAMAGES**: BHEL will impose Liquidated Damages as per suitable clauses in the Tender Specifications on account of delay, violation of contract conditions and non-performance attributable to the contractor.
27. **BID EVALUATION** : The offer submitted by bidders who meet the requisite Qualifying Requirements will be evaluated in two stages, namely Technical- Bid Evaluation and Price Bid Evaluation.
28. Bidders whose technical bids are found acceptable to BHEL shall be intimated separately about the status of their offers. Date of price bid opening shall be intimated to the qualified bidders only.
29. **PRICE BID EVALUATION CRITERIA** : The successful bid shall be based only on the Total quoted value for the entire scope of work, in the sealed “Price bid” or RA, as applicable.
30. The offers of the bidders who are on the banned list as also the offer of the bidders, who engage the services of the banned firms, shall be rejected. The list of banned firms is available on BHEL web site “ www.bhel.com”.
31. **EPF registration**: Bidders should furnish the EPF code and registration details along with the bid. Bidders who have not registered and do not possess EPF code, if awarded the work, should immediately register and obtain the code.
32. **Benefits to Micro, Small & Medium Enterprises (MSE)** : Guidelines of the Govt. of India shall be followed to provide benefits to MSE. MSE suppliers can avail the intended benefits only if they submit along with offer, attested copies of either EM-II certificate having deemed validity (Two years from the date of issue of acknowledgement in EM-II) or valid NSIC certificate or EM-II certificate along with CA certificate (Format enclosed as per Appendix – IV) applicable for the year, certifying quantum of investment in plant and machinery within the permissible limit as per the act for relevant status (Micro or small) where the deemed validity of EM-II is over. Date to be reckoned for determining the deemed validity will be the last date of technical bid submission. Non submission of such documents will lead to consideration of their bids at par with other bidders and MSE status of such suppliers shall be shifted to Non MSE supplier till the supplier submits these documents
33. **ORDER OF PRECEDENCE** : In the event of any ambiguity or conflict between the clauses / statements in Tender Documents, the order of precedence shall be in the order below.
 - a. Amendments / clarifications / corrigenda / errata etc. issued.
 - b. Notice Inviting Tender (NIT)
 - c. Price Bid
 - d. Technical Specification & scope of work
 - e. Special Conditions of Contract
 - f. General Conditions of Contract
 - g. Forms & Procedures

NOTICE INVITING TENDER

34. In the event of any conflict between requirements of a clause/s of this specification /documents/drawings/data sheets etc. and different standards / codes specified, the same is to be brought to the notice of BHEL before submission of offer, else BHEL's interpretation shall prevail.
35. Typographical error/missing pages/other errors in the tender documents noticed, must be brought to the knowledge of BHEL in writing before pre-bid meeting / submission of offer, else BHEL's interpretation shall prevail.

ERECTION SERVICES DEPARTMENT

PROCEDURE FOR SUBMISSION OF SEALED TENDERS

- A. The bidders must submit their offer in two parts in separate sealed covers prominently superscribed as PART-I TECHNICAL BID and PART-II PRICE BID and also indicating on each of the covers the following details.
- a. TENDER SPECIFICATION NUMBER
 - b. NAME OF WORK and
 - c. DUE DATE AND TIME FOR SUBMISSION
- B. **PART-I (TECHNICAL BID) COVER-I :**
- a. Excepting Rate Schedule, all other schedules, data sheets, formats, drawings and other details called for in the NIT / specification shall be enclosed in Part-I “Technical Bid”.
 - b. Supporting documents / annexure etc. as required in line with Qualifying Requirement shall be enclosed. **The documents shall be indexed properly.**
 - c. Part – II : (UNPRICED) – without indicating rates / price, but mentioning ‘QUOTED’ / ‘UNQUOTED’ against each item. **The Rate of Tax applicable (in %) shall only be indicated in the appropriate columns / space provided.** (USE AN ADDITIONAL COPY OF PART-II FOR THIS PURPOSE)
- C. **PART-II (PRICE BID) COVER-II :**
- a. All indications of price shall be given in this PART-II “Price Bid” only. Discounts, if any shall be indicated only in the price bid.
- D. These two Covers - I & II (PART-I AND PART-II) shall together be enclosed in a **third envelope (COVER-III) along with requisite EMD** as mentioned in the Notice Inviting Tender and this SEALED COVER shall be superscribed and submitted to **THE MANAGER, CIVIL TOWNSHIP, BHEL, Ranipet** at the address given in “Special Instructions to Bidders ” on or before the due date.
-

TENDER SPECIFICATION NO. : BAP : ERN : OPAL : RWTP: MECH : C : 241**PROJECT INFORMATION**

1. Purchaser and Owner : M/s. ONGC Petro Additions Limited (OPAL) BHARUCH, DAHEJ, GUJARAT.
2. Location : RAW WATER TREATMENT PLANT
DAHEJ PETROCHEMICAL COMPLEX
BHARUCH, OPAL, DAHEJ, GUJARAT.
3. Nearest Railway station : BHARUCH
4. Air Quality : Normal Petrochemical Plant conditions

Before submitting his/her/their offer, the Bidder has to get thoroughly acquainted with the site conditions with reference to Operating procedures inside the plant, security rules for access and movements, HSE rules prevailing in the plant, site interference problems, movement of cranes / derricks etc. in the store yard / work site during material handling, erection, storage facilities available, constraints on access and movements, etc. No compensation or revision of rates will be entertained at a later date for not having proper knowledge of the site conditions.

TENDER SPECIFICATION

TENDER SPECIFICATION NO. BAP : ERN : OPAL : RWTP : MECH : C : 241

1.0 SCOPE OF WORK : The scope of work involves Erection , Testing and Commissioning of mechanical components of RWTP at Opal , Dahej , Bharuch , using contractor's own tools and plants, cranes , consumables, manpower etc.

1.1 Detailed scope of work : The scope of work consists of the following major parts.

- a. Erection of Raw Feed Pumps, Motor & Accessories (vertical centrifugal type).
- b. Erection of Supports for GRP pipes from Raw Water storage tank to UF plant.
- c. Erection of uPVC/HDPE Utility pipes, GI instrument air lines etc.
- d. Erection of pipe racks and supports.
- e. Erection of Clarified water transfer pumps, motors & accessories.

The detailed scope of work is explained herein under and further enumerated in the **Annexure – III** attached with this tender specification, Special Conditions of Contract and Schedule of Rates & Quantities attached along with this tender. Trial-run, testing & commissioning of the entire system within the contract time and to the entire satisfaction of the of M/s OPAL and BHEL forms part of the work.

1.2 Hiring of SUITABLE MOBILE CRANES is included in the contractors scope of work. The bidder has to visit site and ensure suitability of crane.

- 1.3 The number of the cranes proposed to be deployed and their details shall be submitted along with the offer.
- 1.4 Work includes handling of RWTP components at site stores / storage yards, transportation to site of erection, handling at site of erection, cleaning, preassembly etc. as per drawings of BHEL.
- 1.5 The distance of BHEL / Customer stores / storage yard within the plant to site of erection is in a radius of about 2.0 km.
- 1.6 Area illumination for enabling the execution of work shall be in the scope of contractor.
- 1.7 All the RWTP materials & components will be supplied by BHEL / Client on free issue basis and the contractor has to take receipt of them at the designated point, store them carefully, use them in the works as specified and required and finally account for them.
- 1.8 Fabrication and erection of temporary structures, platforms, supports etc. for erection of RWTP components forms part of the work. The temporary structures etc. erected shall be removed after completion of work at no extra cost.
- 1.9 Adequate quantity of winches, steel ropes, pulleys, scaffoldings etc shall be arranged by the contractor for safe erection.
- 1.10 After completion of the work, all the materials/equipment removed/shifted shall be re-installed/re-erected/placed back in their original locations or at locations as instructed by BHEL.
- 1.11 The contractor shall make suitable security arrangements including employment of security personnel (round the clock) to ensure the protection of all materials/equipments and works from theft, fire, pilferage and any other damage and loss at stores/storage yard/pre-assembly area/erection site, till the completion of work.
- 1.12 The scope of work includes arranging equipment and consumables for HYDRO TEST of pipe lines, NDT test of welds etc.
- 1.13 Trial-run, testing & commissioning of the entire system within the contract time and to the entire satisfaction of the customer and BHEL forms part of the work.

2.0 ROUND THE CLOCK WORK : The work is to be completed within the tight schedule to meet BHELs / Clients requirements. This will call for working with enhanced resources and round the clock. The contractor shall provide for suitable illumination, security, labour amenities, etc for such working. Necessary safety gadgets shall be provided and ensured for the manpower during late hours. The bidder shall consider all such contingencies in their offer.

3.0 TERMINAL POINTS : The terminal points for erection shall be as specified in drawings provided by BHEL.

4.0 SITE LOCATION : Please see project information sheet.

5.0 TOOLS & TACKLES : It may be noted that **BHEL will not provide** any cranes , trailers / trucks / tractors, tools and plants for execution of the work. All required resources including derricks, winches, wire ropes and tackles, etc are to be arranged by the contractor only. Higher capacity crane/s required for completion of work within the stipulated period shall be arranged by the contractor at no extra cost to BHEL. The quoted rate shall consider all the eventualities that may arise during such works.

6.0 CONSTRUCTION POWER & WATER : **BHEL will not provide Power and water** for construction (or other purposes) . The bidder shall arrange a suitable DG set for their power requirement. Also, necessary power cabling from the source to distribution boards etc. and distribution pipe lines to different locations of water point with taps, valves etc., shall be provided by the bidder at his cost..

7.0 HEALTH, ENVIRONMENT AND SAFETY : The contractor shall follow good safety practices at the site. All personnel shall be provided the required safety protective gear and contractor to ensure that they are used. Safety training to be provided to all personnel at the site. In addition, the prevailing rules and regulations pertaining to Health, Environment and Safety (HSE) procedures of M/s OPAL Dahej - RWTP, project site rules, prevailing labour laws enforced by local authorities, labour regulations, movement of labour / vehicles inside the plant area, time keeping systems etc., in force and other local political conditions shall be studied before submission of this budgetary offer. The bidder shall submit a write-up, along with the Technical-bid, on the HSE procedures to be adopted subject to modification and acceptance by BHEL, covering at minimum Personal Protective Equipment such as helmets, hard shoes, goggles, gloves, etc, safety training to staff and labour, daily safety pep talks & inspections, safety sign boards, housekeeping procedures, etc.

8.0 COMPLIANCE TO STATUTORY REQUIREMENTS: It is the responsibility of the contractor to obtain the required labour license from the appropriate authorities before commencement of work.

8.1 The contractor shall comply with all State/Central Laws, Statutory Rules, Regulations etc. inclusive of those regarding Labour and Industrial Laws which are applicable from time to time and shall comply with the provision of the same Labour Legislation, Rules and Regulations framed under the provision of Employees' Provident Fund and Miscellaneous Provision Act 1952, ESI registration, Labour License etc..

8.2 **ELECTRICAL CONTRACTORS LICENSE :** Not applicable.

9.0 APPROVAL FROM CIEG : Not Applicable

10.0 SITE MANAGEMENT :

- a. The contractor shall arrange to print all materials management forms, daily labour progress reports (**DPR**), and all other forms & reports etc., as indicated / instructed by BHEL and

customer's HSE plan and project site rules. The Contractor shall depute well experienced senior site manager who shall liaise with BHEL and clients, coordinate all resources and works and complete the job satisfactorily. The bidder shall submit in his Technical bid a resume of the proposed site manager. In addition, the Contractor shall mobilize adequate numbers of well experienced site technical supervisory staff as well as skilled and unskilled labour.

- b. Erection Progress Reports shall be accompanied by Photographs (both hard & soft copies) as directed by BHEL Engineer at site.

11.0 MOBILISATION ADVANCE : No advance payment towards mobilization of site operation or for any other purpose will be made by BHEL. The payment for work will be made strictly as per payment terms in the tender specification.

12.0 FIRM PRICE : The Contractor has to keep his quoted rates firm for the entire contractual period including total extended period, if any, and no claim for revision of rates or price escalation is allowed under any circumstances.

13.0 VARIATION IN QUANTUM OF WORK : The details of quantum of work are indicated in the rate schedule which is only approximate and is likely to vary to the extent of PLUS or MINUS 15% of the scheduled quantities

14.0 EARNEST MONEY DEPOSIT (EMD) : The EMD amount to be remitted along with the offer and the mode of remittance shall be as indicated in the "Notice Inviting Tender".

15.0 SECURITY DEPOSIT (SD) : The successful Bidder shall within the time specified in the letter of intent deposit the required amount of security deposit. The SD shall be as per clause 1.8 of General Conditions of Contract (GCC).

16.0 TAXES AND DUTIES : Refer Annexure–III for terms & conditions related to Taxes & Duties.

17.0 PAYMENT TERMS : All payments for the works completed shall be paid based on bills raised by the contractor as payment terms and certified by Engineer-in-Charge of BHEL. **Payment for works will be made within a period of 30 days from the date of submission of bills along with all the enclosures as called for by BHEL. Payment will be only through e-payment** (through electronic fund transfer (EFT) / RTGS) only after deducting Bank charges as per BHEL terms of payment.

17.1 DETAILS OF PAYMENT TERMS FOR ERECTION & COMMISSIONING: The payment terms shall be as per clause 3.1.22 of Special Conditions of Contract for Mechanical works (SCC - Section-III).

18.0 PERIOD OF CONTRACT / DURATION OF WORK : The time period of contract shall commence from date of award of work / Letter of Intent from BHEL. The Time period for erection activity are enumerated below and shall be strictly adhered to.

18.1 The entire scope of erection of mechanical components of RWTP shall be completed with in a period of 45 days from the date of commencement of work. The contractor shall mobilize the resources like manpower, cranes, consumables, tools and plants required to complete the entire work with in the schedule.

18.2 Further manpower supply assistance shall continue after commissioning .

18.3 Tentative Time period of work : Refer Annexure -I

18.4 The total duration for the tendered scope of work is 11 (Eleven) Months

19.0 LIST OF TOOLS & TACKLES : The list of Tools and tackles, cranes etc proposed to be deployed by the contractor shall be given along with the offer. In case of cranes, the range diagrams, test certificates, calibration certificates and load charts should be included for the models to be used for the job. Also, refer Annexure-IV .

20.0 G.A Drawing : Layout drawing is attached for reference. The drawings are for ‘Tender’ purposes only, even if indicated otherwise, which may undergo revisions / changes during construction /execution stage.

21.0 Accommodation for Contractors’ personnel : BHEL **shall not** provide any accommodation facilities for the contractors’ personnel. All the necessary arrangements have to be made by the contractor, outside the Plant premises, at no extra cost to BHEL.

22.0 LIQUIDATED DAMAGES : If the work completion gets delayed and the contract period gets extended due to reasons attributable to the bidder, liquidated damages as per provisions of contract (clause No.2.7.5 of General conditions of Contract for Works) shall apply. All decisions of BHEL in this regard will only be final and binding on the Bidder.

23.0 EXTRA CHARGES FOR MODIFICATION AND RECTIFICATION WORKS: Refer Section-V of the special conditions of contract.

24.0 OVER-RUN COMPENSATION (ORC): Refer Section-VI of the special conditions of contract.

25.0 The following documents enclosed shall also form part of the tender:

- a. Tentative Schedule of activities – (Annexure –I)
 - b. Taxes & Duties - (Annexure –II)
 - c. Technical Specification & scope of work – (Annexure- III)
 - d. List of Major Tools & tackles to be deployed - (Annexure- IV)
 - e. General terms and conditions of work (ES:F:010)
 - f. Special Conditions of Contract for RWTP works (BAP:ERN:SPN:MECH:RWTP:01–SECTION-III & IV)
 - g. Special Conditions of Contract – (Section –V and VI)
 - h. General Terms and Conditions for REVERSE AUCTION (SECTION-VII)
 - i. Statutory requirement of contract (ES:F:009)
 - j. Appendix-I, II and III.
 - k. Drawings for Tender purpose
 - i. Layout Drawing of RWTP.
 - ii. Typical Pipe support saddle for GRP pipe.
-

ANNEXURE – I**TENDER SPECIFICATION No. : BAP : ERN : OPAL : RWTP: MECH : C : 241****TENTATIVE SCHEDULE OF ACTIVITIES FOR ERECTION OF RWTP.**

The dates for each activity given below are only indicative and are likely to change depending on other related activities. The contractor shall ensure that the work is completed within the Time Period stipulated.

S.NO	Description of work	No. of Days	April 2014	May 2014	June 2014	July 2014
01.	Erection of Raw water feed pumps, motor & accessories(UF feed pump-vertical centrifugal type)	14 Days				
02.	Erection of supports for entire piping system – Raw Water Feed Pipe to UF system (GRP piping), UPVC/HDPE Piping etc. and Erection of all pipelines and testing.	28 Days				
03.	Erection of FRP Utility water tank	5 Days				
04.	Erection of Clarified water transfer pumps, Motor & Accessories.	15 Days				
05.	Preliminary & Final Acceptance Test	10 Days				
06.	Process Engineer for BHELs assistance.	Shall be for 06 months from commissioning.				

ANNEXURE – II**TAXES AND DUTIES**

Page 01 of 02

A. FOR ERECTION & COMMISSIONING :

1.0 Rates quoted shall include all royalties, taxes, terminal taxes, Octroi, duties, Sales Tax on Works Contract, Entry Tax, Licenses, Deposits, Royalty, Stamp Duty, Central or Provincial Excise Tax and other taxes (**except Service Tax**) leviable under the state and the central Government Rules. BHEL will not entertain any claim whatsoever in this respect. No reimbursement on account of increase in rate of existing levies shall be made.

1.1 SERVICE TAX

1.1.1 The Bidder shall not include Service Tax in their quoted rates; but the bidder has to separately indicate the Service Tax rate, amount and workings thereof in the Price bid schedule included in the bid documents.

1.1.2 If service tax amount is not indicated separately in the price bid schedule included in the Bid documents, it will be presumed that the quoted rate is inclusive of applicable service tax and bids will be evaluated accordingly.

1.1.3 The bidder shall furnish proof of service tax registration with Central Excise Department specifying the name of services covered under this contract. Registration Certificate should also bear the endorsement for the premises from where the billing shall be done by the bidder on BHEL for this project.

1.1.4 Section-I : Pure Service not involving any supply of materials by Contractor:

a) Bidders have to quote the applicable Service Tax payable in the Price bid format included in the Bid document which shall be considered for evaluation. The same shall be considered for reimbursement against valid documentary evidence to successful bidders i.e. Service Tax Registration Certificate, Original Invoice, Service Tax Payment Certificate and copy of Service Tax payment Challan.

1.2 VALUE ADDED TAX (VAT) FOR THE WORKS

1.2.1 **Price quoted shall be inclusive of VAT except service tax. :** Notwithstanding the fact that this is only an erection service contract not involving any transfer of materials whatsoever and not attracting VAT liability, being labour oriented job work, for the purpose of VAT the contractor has to maintain the complete data relating to the expenditure incurred towards wages etc. in respect of the staff/workers employed for this work as also details of purchase of materials like consumables, spares etc., inter alia indicating the name of the supplier, address and VAT Registration No. and VAT paid for the purchases, etc.

1.2.2 The bidder shall get registered with State VAT authorities and the registration certificate shall be forwarded to BHEL immediately after commencement of work. In case the bidder had already registered under respective State VAT, they must quote their registration Number and forward copy of Registration Certificate while submitting this tender.

1.2.3 The monthly/quarterly VAT return, duly incorporating the erection income from BHEL as turnover, should be submitted to BHEL at regular intervals with all annexure and details of payment of VAT (WCT).

Contd...

- 1.2.4 You have to obtain VAT Clearance Certificate from concerned authorities as per provisions of local VAT act, on completion of project and submit along with the final bill.

B. OTHER TERMS & CONDITIONS

- 1.0 **New Levies / Taxes :** 16.4.1 In case Government imposes any new levy / tax after award of the work during the tenure of the contract, BHEL shall reimburse the same at actual on submission of documentary proof of payment subject to the satisfaction of BHEL that such new levy / tax is applicable to this contract. However, this is applicable for contract delivery period only.
- 2.0 **Statutory variations :** Statutory variations are applicable only in the cases of changes in Value Added Tax and Service Tax, during the contract delivery period. The changes implemented by the Central / State Government in the VAT Act / Service Tax during the contract deliver period, viz. increase / decrease in the rate of taxes, applicability, etc. and its impact on upward revision / downward revision are to be suitably paid/ adjusted from the date of respective variation. The bidder shall give the benefit of downward revision in favour of BHEL. No other variations shall be allowed during the tenure of the contract.
- 3.0 **Direct Tax :** BHEL shall not be liable towards Income Tax of whatever nature including variations thereof arising out of this contract as well as tax liability of the bidder and their personnel. Deduction of tax at source at the prevailing rates shall be effected by BHEL before release of payment as a statutory obligation, unless exemption certificate is produced by the bidder. TDS certificate will be issued by BHEL as per the provisions of Income Tax Act.
-

ANNEXURE – III**TENDER SPECIFICATION No.: BAP : ERN : OPAL : RWTP: MECH : C : 241****TECHNICAL SPECIFICATION & SCOPE OF WORK****SECTION -1****1. INTRODUCTION**

1.1 BHEL is executing Raw Water Treatment Plant (RWTP) at OPAL Dahej, Bharutch, Gujarat, which comprises of UF system, ClO₂ generator system, Raw water feed system etc. The quantum of work in this tender shall be as per schedule of rates and quantities in Part-II..

2.0 SCOPE OF ERECTION OF RWTP.

2.1 The scope of erection for shall include, but not limited to, the following. The erection shall be carried out as per the drawings & specifications of BHEL and instructions of BHEL Engineer at site. Log sheets as per Field Quality Assurance Plans (FQP) shall be maintained.

01	Erection of pumps and Motors
	<p>a) Pump, Motor & coupling shall be assembled in a common base frame & to be erected. The supporting frame if any shall be erected. All accessories of pumps are to be fixed as per drg.</p> <p>b) Supporting frame & pump assembly to be fixed on the concrete platform and to be grouted with foundation bolts on raw water reservoir over RW outlet chamber.</p> <p>c) Pump & Motor to be aligned properly as per erection manual.</p> <p>d) Erection includes alignment, connecting / fastening / bolting with suction and discharge pipes / valves etc .</p> <p>e) Trail run and commissioning.</p>
02	Erection of Pipes and Piping system
	<p>a) All piping & fittings, valves etc., will be supplied as loose items.</p> <p>b) Piping & fittings to be welded and joined at site. Work includes edge preparation etc.</p> <p>d) Instrument air piping from the terminal point to various locations (both inside & outside UF shed). Piping will be of GI with screwed fittings and SS ball valves. Air Leak test for GI piping is to be carried out.</p> <p>e) uPVC / HDPE piping (Utility Piping) shall be from one common terminal point to the overhead storage tank & to the various utility points such as dosing systems. Supply of Solvent cement/solution (Tangit) for pipe joining shall be in the scope of bidder / contractor.</p> <p>f) Hydro testing of entire piping is to be done at site after completion of all the works. Test pressure shall be 1.5 times working of Pressure. The entire piping can be subjected to hydro test either completely or in partial Segments.</p>

	<p>g) All necessary tools and tackles, consumables, etc, required for the piping are to be arranged by the bidder / contractor.</p> <p>h) Necessary pipe supports and thrust blocks where required are to be provided as per instructions of BHEL.</p> <p>i) Necessary supports & thrust blocks shall be provided for piping & valves wherever necessary.</p> <p>j) Cleaning & flushing of piping system is to be carried out before testing.</p> <p>k) Hydro test of piping shall be as per instructions / specification of BHEL.</p>
03	Erection of Utility Water tank
	<p>A) The FRP tank is to be installed vertically over a concrete / structural platform or Floor as per installation procedure / erection drawing (sand bed & bituminous).</p> <p>b) Nozzle orientation shall be properly checked & aligned before grouting.</p> <p>c) Anchoring of the tank to the floor using the foundation bolts is to be done.</p>
04	Erection of Material handling arrangement
	<p>a) Erection and welding of monorail to the roof beam.</p> <p>b) Erection of electrical hoist with all accessories.</p>
05	Erection / Fabrication & erection of MS Supports, Platforms etc.
	<p>a) Erection of supports for all Headers/pipes, GRP pipes., Valves and fittings, Expansion bellows, GI piping of Instrument air line.</p> <p>b) Erection of pipe rack as per the issued drawing during erection.</p> <p>c) The work of Erection of pre-fabricated supports shall comprise of erection, alignment and welding of pre-fabricated components / members supplied by BHEL.</p> <p>d) The work of Fabrication & Erection of supports shall include fabrication of supports at site from raw materials supplied by BHEL, erection, alignment and welding as per drawings and specification.</p>
06	Supply & Application of Paint
	<p>a) Painting work shall be executed using experienced work force. The painting scheme shall be as herein under.</p> <p>b) Scope of work includes supply of paint. The paint shall be of BHEL approved brand / make.</p> <p>b) The work includes mechanical or power tool cleaning- removal of loose rust/loose mill scale / loose paint to degree specified by power tool chipping, de-scaling, wire brushing and grinding. After removal of dust, surface should have a pronounced metallic sheen. Applicable standard ISO 8501-1/SIS-055900---ST-3 / SSPC-SP, USA -SSPC-SP-3.</p> <p>c) Painting for structures in OFF SITE areas -</p> <p>(i) Surface preparation & pre-erection (sspc-sp-10)- One coat of Inorganic zinc silicate coating (A two pack air drying self curing solvent based inorganic zinc silicate coating with minimum 80 % zinc coated on dry film. The final cure of the dry</p>

	<p>film shall pass the MEK rub test.)</p> <p>(ii) Primer coat - One coat of chlorinated rubber zinc phosphate primer of 40 micron DFT/coat (single pack, air drying chlorinated rubber based medium plasticized with unsaponifiable plasticizer, pigmented with zinc phosphate) .</p> <p>(iii) Finish paint - Two coats of chlorinated rubber based finish paint of 40 micron DFT/coat (single pack plasticized chlorinated rubber based medium with chemical and weather resistant pigments. It shall contain pure chlorinated rubber, not modified).</p> <p>d) The detailed painting schedule for the various components shall be subject to revisions/ requirements at site.</p>
07	Pre-commissioning & commissioning activities & Manpower Supply
	<p>a) Providing required Tools and tackles.</p> <p>b) Required manpower shall be provided with all PPE for safety.</p> <p>c) For helper to handle chemicals the PPE shall include Apron, face shield, Rubber hand gloves, etc.,</p> <p>d) Compliance with statutory obligations as well as any other requirements / provisions with respect to manpower supplied and equipment including insurance, medical facilities, minimum wages, safety requirements, accommodations, conveyance etc., are the responsibility of the Contractor. The rates quoted shall be inclusive of all the above requirements.</p> <p>e) THE CONTRACTOR SHALL STRICTLY ABIDE BY THE STATE AND CENTRAL LAWS, STATUTORY RULES, REGULATIONS ETC. AS INDICATED IN THE GCC AND OTHER SECTIONS OF THE SPECIAL CONDITIONS OF CONTRACT. IN ADDITION THE CONTRACTOR SHALL HAVE TO COMPLY WITH PROFESSIONAL TAX / AND PF /ESI/ LABOUR LICENCE REGULATIONS FOR ALL HIS EMPLOYEES / WORKMAN AS PER THE LOCAL AUTHORITIES / GOVERNING BODIES INSTRUCTIONS.</p>

3.0 GENERAL ARRANGEMENT & LAYOUT

3.0 The Layout and general arrangement of RWTP are as per drawings attached with this Tender. These are for Tender reference purposes only and are subject to changes during execution / construction.

GENERAL INSTRUCTION FOR ERECTION OF RAW WATER TREATMENT PLANT (MECHANICAL EQUIPMENT)

- 1) Read the erection manual and erection drawings thoroughly and familiarize with the erection procedure, sequence and special instructions. Consult BHEL Erection engineer for further clarifications.
- 2) A complete schedule of sequential erection of all the equipment, method of erection, safety aspects etc., is to be prepared by the contractor, well ahead of the start of the erection and it should be submitted for BHEL's approval. Erection of all the equipments shall be subject to inspection and clearance by BHEL / Customer at every stage. Contractor should consult the BHEL engineers whenever any doubts arise on the method or sequence of erection. A log book shall be maintained for recording all the erection activities, procedures, checks and inspection details. This will bear the countersignature of BHEL /Customer's inspector at every stage. It is

the responsibility of the contractor to maintain necessary records for the stage inspection, critical checks, etc. to meet the protocol for review.

- 3) Inspect the foundation platform of all the equipments with the Foundation drawing. Any deviation noticed shall be informed to the Erection In-charge and such deviations should be corrected / rectified before the start of erection. All the foundation measurements shall be recorded in a separate check list (to be prepared by the contractor) and approved by BHEL. Check the level of Finish Floor Level (FFL) of the UF building with respect to surrounding graded level from the GA drawing.
- 4) All foundation pockets shall be thoroughly cleaned before the start of the erection. All the internal and external pipe trenches shall be thoroughly cleaned before the start of the erection. Loose & precision components shall be kept on the floor over a tarpaulin or LDPE sheet to avoid any possible damage during erection & assembly.
- 5) Contractor shall be responsible for the safe custody of all the equipments and materials supplied by BHEL during the course of handling and erection. Any damage caused to the equipment till the completion of erection shall be set right by the contractor at their cost.
- 6) Inspect all the equipments & materials at the time of withdrawal from the Stores through issue voucher. Special attention is to be given to the scope of supply, physical damage etc. A list of items applicable for each equipment shall be prepared and recorded.
- 7) All equipments and accessories, Valves, Pipes and fittings, supports etc., are to be thoroughly cleaned by the Contractor and inspected before the start of the erection.
- 8) Whenever the erection of any particular equipment is to be carried out under the supervision of the OEM, Contractor shall give advance intimation to BHEL for arranging the visit of the OEM personal.
- 9) Final grouting shall be carried out by the erection contractor after checking and ensuring all the dimensions given in the equipment and pipelines erection and layout drawings / after obtaining approval of relevant checklists as per erection manual and stage inspection clearance from BHEL.
- 10) cPVC/ uPVC pipes and fittings shall be joined strictly as per the procedure given in the drawing / Pipe supplier, under the supervision of BHEL. The dimensions given in the drawing for various UPVC, CPVC and HDPE pipes and pipe fittings are for reference only. Contractor should check up the end to end dimension at site for all pipe segments. Based on the end-to-end dimension available and considering the 'z' value of the relevant fittings, the length of the pipe is to be decided carefully. Special attention is required on this point by the Contractor to avoid wastages and rework of various pipe joints. Wherever cPVC/ UPVC unequal fittings are supplied with loose reducing bush, the same shall be joined using solvent cement as per the procedure under the supervision of BHEL before assembly.
- 11) **Contractor should take a special note of this requirement.**

Required Thrust blocks should be provided at all PVC joints wherever there is a change in direction of flow. Necessary materials for the fabrication of thrust blocks have been supplied in running meters. Location and type of thrust blocks will be decided as per the site condition and requirement; the same shall be decided jointly by the BHEL Engineer at site and the erection contractor. Contractor should arrange to fabricate the thrust block / supports at site and install them suitably.

- 12) **PVC welding:** For Flow meters (which are to be fitted onto the pipes) which are supplied with weld-on fittings, the fittings are to be welded to the pipe carefully with the special cPVC/ UPVC welding equipment. Location of welding of such fittings shall be carefully chosen in consultation with BHEL.

- 13) Entire piping is to be subjected to hydraulic test to 1.5 times the working pressure after the completion of all the installation and support works. Testing can be done for the complete piping or in segments to suit the site conditions. All necessary hydrotest pumps, connecting piping, dummy flanges, plugs, fasteners, etc., are to be arranged by the contractor to conduct the hydraulic test.

- 14) Tightening torque values for uPVC/ cPVC / HDPE pipeline bolts are given below.

Outside dia of PVC pipe MM	16	20	25	32	40	50	63	75	90	110
Torque in Newton metre	6	7	9	10	20	25	30	35	40	45

Outside dia of PVC Pipe MM	125	140	160	200	225	280	315
Torque in Newton metre	50	50	60	75	75	75	75

- 15) The socket depth and “Z” values of PVC pipe lines are given below:

Outside dia of PVC Pipe MM	20	25	32	40	50	63	75
Socket depth in mm	16	19	22	26	31	38	43.5
“Z “ value in mm	11	14	17	23	26	33.5	39.5

Outside dia of PVC Pipe MM	90	110	160	225	280	315	
Socket depth in mm	51	61	86	119	151	165	
“Z “ value in mm	46	55	80	114	147	167	

Note: Successful contractor will be provided with the detailed instruction for the PVC pipe jointing procedure, Erection and commissioning procedure.

- 16) **IMPORTANT INSTRUCTION FOR PIPE SUPPORT WELDING:**

Ensure that all insert plates are free from rust and the distance between the plates and alignment at each location are as per the drawing. All pipe supports inside the trench shall be tack welded to the side insert plates initially, maintaining the top elevation of the channels as per the drawing. Any adjustment required in the location or elevation of the supports shall be noted down. After the trial assembly of the UPVC pipes and fittings and inspection of all equipment, these pipes and fittings can be dismantled; any correction works, as noted down earlier, on the support channels shall be carried out and then these support channels can be fully welded.

- 17) Then the pipe supports are to be thoroughly cleaned using wire brushes and emery papers and painting shall be carried out as per the painting schedule / procedure.
- 18) No welding of support materials shall be done near the PVC pipes and fittings to avoid any possible damage due to the heat of welding and weld spatter.
- 19) Trial assembly for all the pipe lines shall be carried out and the position of the service saddle / Weld-on nipple shall be clearly marked as per drawing. Then, drilling on the PVC pipe for the service saddle shall be carried out as per the marking separately after dismantling the pipe from the assembly. Care shall be taken to de-burr the drilled holes and to remove all the drilling chips. Location of such drilling shall have the approval of BHEL in each case.

- 20) After completion of the erection the area shall be cleaned for all cut-bits, grouting mixtures, left out materials, consumables etc.,
- 21) Necessary rubber sheets must be inserted between the supporting arrangement and the equipment / pipeline / valves/ U Clamps etc., Rubber sheets of standard width and length will be supplied by BHEL.
- 22) Wherever torque values are specified for tightening the bolts, nuts and screws, the same has to be strictly followed and calibrated torque wrenches are to be used.
- 23) Correct spanners are to be used to avoid damage to nut, bolt/screw heads etc. Adjustable spanners shall not be used.
- 24) Suitable operating platform made of steel shall be fabricated using necessary step- tread, floor grill, hand rails, support etc at site and installed for equipment wherever necessary such as CC tank, dosing system, etc. Typical fabrication details will be provided during execution. All the steel materials will be supplied in running meters as loose item by BAP New Products. All these materials for structural fabrication (including piping & valves support) will be dispatched as loose with red-oxide painting. Necessary painting (intermittent & finish coat) shall be carried for these materials after structural fabrication by the erection contractor. The approximate area is indicated in the PART-2 BOQ.
- 25) Necessary cross over platforms shall be fabricated wherever required.
- 26) Contractor shall arrange to provide all the tools & tackles and consumables required for the smooth erection and commissioning of the plant. Consumables include first fill of lubricants for all pumps, blowers, motors, etc., cleaning cloth, Teflon tape, etc. shall also be provided.
- 27) BAP Erection service shall arrange to provide necessary chlorine free utility water for the initial preparation of chemicals for the dosing systems. Preparation of dosing chemicals shall be done strictly under the supervision of BHEL Engineers as per the given guidelines.
- 28) Rubber expansion bellows are to be provided at all pump suction and discharge as per the drawing to avoid transfer of pipe loading and surge loading to the pumps.
- 29) Necessary drains to be provided at the lowest point of pipe segment on the LP pipe line to facilitate easy drain of the pipe line whenever required.
- 30) Necessary air vent to be provided at the highest point of each pipe segment of the HP pipe line and LP pipe line to release the air entrapped in the piping system.
- 31) Contractor shall refer the equipment layout and Process flow drawing as given by BAP, New Products and they should adhere strictly.
- 32) It is the responsibility of the contractor to carry out all the required works for the erection and commissioning of the plant till PG test is over.
- 33) The contractor has to carry out the pre-commissioning activities like trial run of pump individually with and without load, leak test of pipe lines and other activities as per manual like commissioning of the plant, trial operation & PG test of the plant etc.

- 34) Plant is to be operated continuously. The contractor is expected to provide necessary man power for round the clock operation and consumables for continuous O&M of the plant during the trial operation period and performance test period and then O&M assistance for a minimum period of 6 months from the date of commissioning till handing over of the plant.
- 35) If required the plant needs to be operated beyond this period also and the contractor shall suitably take care of this requirement. Necessary quote for the skilled manpower supply on man day basis shall also be provided in their offer for this requirement.
- 36) All equipment are supplied with painting. However, final coat of painting shall be carried out by the contractor as per the BHEL specification for the equipment wherever required.
- 37) Unutilized material and cut bits material shall be returned to BHEL stores as per procedure.
- 38) The spares shall be tagged with OEM part number and applicable material code and shall be handed over to BHEL stores for retrieval of spares.

SECTION -2

1.0 Bidders Scope of Work

1.1 General

- 1.1.1 This specification covers the erection of pumps, piping system, utility water tanks, MS fabricated supports and equipment including receiving and taking delivery of fabricated structural steel materials, equipment and other materials arriving at site, and/or from Owner's site stores or stores yard, installing in position, painting etc., complete as per drawings, this specification and other provision of the contract. All the works shall in the scope of work shall be carried at bidders own cost.

1.1.2 Work to be provided by the contractor

1. The bidder shall provide all construction and transport equipment, tools, tackle, consumables, materials, labour and supervision required for unloading / loading, storing, dismantling and erection of structural steelwork and equipment. If necessary suitable temporary approach roads, culverts or slabs over trenches shall be built for transportation and positioning of cranes.
2. Checking centre lines, levels of all foundation blocks including checking line, level, position and plumb of all bolts and pockets. Any defect observed in the foundation shall be brought to the notice of the Engineer. The Contractor shall fully satisfy himself regarding the correctness of the foundations before installing the fabricated steel structures on the foundation blocks.
3. Aligning, plumbing, leveling, bolting, welding and securely fixing the fabricated steel structures and equipment in accordance with the drawings or as directed by the Engineer.
4. Painting as per specification / instructions of exposed surfaces of RWTP structure.
5. All minor modifications of the fabricated steel structures as directed by the Engineer including, but not limited, to the following:

- a. Removal of bends, kinks, twists etc. for parts damaged during transport and handling.
- b. Cutting, chipping, filling, grinding etc. if required for preparation and finishing of site connections.
- c. Reaming of holes for use of higher size bolt if required.
- d. Welding of connections in place of bolting for which holes are either not drilled at all or wrongly drilled during fabrication. Welding in place bolting will be permitted only at the discretion of the Engineer.
- e. Carry out tests in accordance with this Specification if directed.

2.0 DIMENSIONAL CHECK

- 2.1 Before taking possession and erecting the components. The Contractor shall verify that the dimensions of the components, the layout of the supporting structure, its elevations and the location of the anchor bolts are in accordance with the Drawings. All discrepancies discovered by the Contractor shall be brought immediately to the attention of the Engineer.
- 2.2 It is essential that the components be erected with utmost attention being given to positioning, alignment, and elevation.
- 2.3 The BHEL Engineer shall approve all proposed methods of jacking, loading, winching, etc. prior to the work being undertaken.
- 2.4 Unloading, loading, and erection shall be under the direction of a qualified erection Engineer of the contractor.

3.0 TEMPORARY STRESSES

- 3.1 The Contractor shall assume full responsibility for ensuring that all component stresses are within permissible limits at all stages of the erection work. The Contractor shall provide all necessary additional bracing or other measures required to ensure that the erection procedures do not overstress any temporary or permanent member or component at any stage of the Work.
- 3.2 Temporary bracing : Unless adequate bracing is included as a part of the permanent framing, the erector during erection shall install, free of cost to BHEL, temporary guys and bracings where needed to secure the framing against loads such as wind or seismic forces comparable in intensity to that for which the structure has been designed, acting upon exposed framing as well as loads due to erection equipment and erection operations. If additional temporary guys are required to resist wind or seismic forces acting upon components of the finished structure installed by others during the course of the erection of the steel framing, arrangement for their installation by the contractor shall be made free of cost to BHEL
- 3.3 The responsibility of the Contractor in respect of temporary bracings and guys shall cease when the structural steel is once located, leveled, aligned and welded within the tolerances permitted under the specification and guyed and braced to the satisfaction of the Engineer.

4.0 SETTING OUT

Positioning and leveling of all steelwork, plumbing of columns and placing of every component of RWTP structure with accuracy shall be in accordance with the approved drawings and to the satisfaction of the Engineer. Concrete foundations, foundation bolts and grouting where required, shall be made by other agencies. The Contractor shall check the positions and levels of the foundation bolts, etc. Before concreting and get them properly secured against disturbance during pouring operations. Contractor shall remain responsible for correct positioning. No extra payment shall be made for this. Each tier of column shall be plumbed and maintained in a true vertical position subject to the limits of tolerance allowable as per drawing / FQP. No permanent field connections by bolting or welding shall be carried out until proper alignment and plumbing has been attained.

5.0 WELDING

- 5.1 All field assembly and welding shall be carried out in accordance with the requirements of the specification and drawings applicable to the project. Where the fabricated structural steel members have been delivered painted, the paint shall be removed before field welding for a distance of at least 50 mm on either side of the joints. IBR weld procedure to be adopted for steam lines, where required.
- 5.2 Welder's Qualification : For the welding work in contractor's scope of work and for the various type of welding works of erection, repair etc. only tested welder as approved by the Inspection Engineer or Engineer (after a test) shall be engaged. Only qualified welders are accepted for testing. Each welder must satisfy the job requirements in welding work or applicable code/standard. The welder may be allowed to work in other jobs of similar nature. The Inspection Engineer/Engineer has the power to disqualify any welder at any time without assigning any reasons whatsoever and this shall be binding on the contractor.
- 5.3 Welder qualification certificate issued to the welder shall be valid for one year subject to further renewal by Engineer. In case, welder is found to be idle for a continuous period of 3 months or more, he may be asked by Engineer for re-appearance of welder qualification test.
- 5.4 Before conducting welder test, the welder shall produce his past experience details and if found suitable, he may be considered for qualification test. A welder shall be qualified only for the material and position and other conditions under which he performs the test. However, he may be allowed to work on other position also as permitted in the codes / standard.
- 6.0 **HOLES, CUTTING AND FITTING** : No cutting of sections, flanges, webs, cleats, rivets, bolts, welds etc., shall be done unless specifically approved and/or instructed by the Engineer. The erector shall not cut, drill or otherwise alter the work of other trades, or his own work to accommodate other trades, unless such work is clearly specified in the Contract or directed by the Engineer. Wherever such work is specified the Contractor shall obtain complete information as to size, location and number of alterations prior to carrying out any work. The Contractor shall not be entitled for any payment on account of any such work.

7.0 PAINTING AFTER ERECTION

- 7.1 Field painting by the erection contractor shall only be done after the structure is erected, leveled, plumbed, aligned and grouted in its final position, tested and accepted by the Engineer. However, touch up painting, making good any damaged shop painting and completing shall be carried out by the erection Contractor free of cost to the Owner. The materials and specification for such painting in the field shall be in accordance with the requirements for the project.
- 7.2 Painting shall not be done in frosty or foggy weather or when humidity is such as to cause condensation on the surfaces to be painted. Before painting of steel is commenced, all surfaces to be painted shall be dried and thoroughly cleaned from all loose scale and rust.
- 7.3 Bolts and fabricated steel members which are galvanized or otherwise treated and steel members to be encased in concrete shall not be painted.
- 7.4 The specification of paint, number of coats and the shades to be used shall be as specified or as directed by the BHEL Engineer at site.
- 8.0 **FINAL CLEANING UP** : Upon completion of erection and before final acceptance of the work by the Engineer, the Contractor shall remove free of cost all false work, rubbish and all Temporary Works resulting in connection with the performance of his work.
- 9.0 **SAFETY MEASURES DURING ERECTION** : The contractor and their employees shall observe all fire & safety regulations of M/s OPAL and shall so organize their work as not to interfere with other works / working of the plant in any manner whatsoever. Before starting any work, contractor shall apply one day ahead for fire & safety permit for excavation, electrical, gas/arc welding and cutting work to Engineer of work/works who in turn will arrange for such permits. The contractor shall make all the precautions given in the permit

before starting of the work to the full satisfaction of the Engineer. On account of operational problem it is possible that the clearance and permit may get delayed for which the contractor shall not demand idle labour charges and no such claim will be entertained by BHEL. The safety measures to workmen and supervisors during all types dismantling and erection work (e.g., use of lifting appliances, slinging, welding, gas cutting, etc.) should be taken as per IS:7205. When any statutory provisions exist, the same shall be complied with in addition to the provisions contained in the above code. Safety barricade wherever necessary are to be put up at his own cost.

10.0 PROJECT MANAGEMENT

The successful completion of any job depends on precise planning and execution. The contractor shall plan and sequence activities such that the project is completed on or ahead of schedule. The contractor shall develop a detailed schedule for the same.

11.0 SITE PREPARATORY WORKS:

The site preparatory works shall involve, but not limited to, the following:

2. Mobilisation of labour, P&M and materials
3. Establishment of site office, labour camp, open storage yards, closed storage yards, local labour rest area and other amenities.
4. Obtaining local / statutory permits and licenses
5. Receipt of BHEL materials, documenting, storing and securing

12.0 SCHEDULE OF WORK

A detailed network schedule shall be developed by the contractor considering all scope of work within 15 days from the award of work and get approved from the Engineer. The schedule shall clearly indicate the Site preparatory works. Based on the agreed schedule, the contractor shall submit his Schedule of plant & equipment, Schedule of project staff and Schedule of lab our within 10 days from the submission of network schedule.

GENERAL CONDITIONS OF CONTRACT FOR WORKS IN ERECTION SERVICES DEPARTMENT OF
BHARAT HEAVY ELECTRICALS LIMITED (RANIPET)**

SECTION -I

1. GENERAL INSTRUCTIONS TO BIDDERS

1.1. DESPATCH INSTRUCTIONS:

- 1.1.1.** This tender specification as a whole, duly furnishing all the details required and other documents as required in the following pages, shall be duly signed and sent in a sealed cover duly super scribing the name of work as given in the tender notice.
- 1.1.2.** The tender shall be addressed to Officer inviting tender as indicated in the tender notice.
- 1.1.3.** Tenders submitted by post shall be sent by “REGISTERED POST WITH ACKNOWLEDGEMENT DUE “and shall be posted with the due allowance for any postal delay. The tenders received after the due date and time of opening is liable to be rejected. Telegraphic offers and offers received by telex may not be considered.
- 1.1.4.** Tenders shall be opened by authorized officer of BHEL at his office at the time and date as specified in the tender notice in the presence of such of those bidders or their authorized representatives who may be present.
- 1.1.5.** The Tenders shall closely pursue all the clauses, specifications and drawings indicated in the tender documents before quoting. Should the bidder have any doubt in the meanings of any portion of the tender specification or find discrepancies or omission in the drawings or the tender documents issued are in complete or shall require clarification on any of the technical aspect, scope of work etc., he shall at once contact the authority inviting the tender for clarification before the submission of the tender.
- 1.1.6.** Before tendering, the bidders are advised to inspect the site of work and the environments and be well acquainted with the actual working and other prevalent conditions, facilities available, position of material and labour. No claim will be entertained later, on the ground of lack of knowledge.
- 1.1.7.** Bidder must fill up all the schedules and furnish all the required information as per the instructions given in various sections of the tender specification. Each and every page of the Tender Specification must be signed and submitted along with the offers by the bidder in token of complete acceptance thereof. The information furnished shall be complete by itself.
- 1.1.8.** The bidders shall quote the rates in English language and international numerals. These rates shall be entered in figures as well as in words.
- 1.1.9. Discrepancy in Quoted Rates :**
 - a. If, in the price structure quoted, there is a discrepancy between the Unit rate quoted and the Total Price (which is obtained by multiplying the unit price by the quantity) due to arithmetical errors, the Unit rate quoted will be considered valid and the Total price will be corrected accordingly, unless in the opinion of BHEL there is an obvious misplacement of decimal point in the unit price. In which case the total price as quoted shall govern and the unit price corrected accordingly.
 - b. If there is an error in total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected.
 - c. If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

- d. If there is such discrepancy in an offer, the same shall be conveyed to the bidder with target date before which the bidder has to send their acceptance on the above lines. If the bidder does not agree to the decision of BHEL, the bid is liable to be ignored.

1.1.10. For the purpose of the tender, the metric system of units shall be used.

1.1.11. All entries in the tender shall either be typed or be written in ink. Erasers and overwriting are not permitted and may render such tenders liable to summary rejection. All cancellations and insertions shall be duly attested by the bidder.

1.2. QUALIFICATION OF BIDDERS:

Only bidders who have previous experience in the work of this nature and description detailed in this tender specification are expected to quote for this work duly submitting details of experience along with the offer. Offers from bidders who do not have proven and established experience in the field are not likely to be considered.

1.3. DATA TO BE ENCLOSED:

Full information shall be given by the bidder in respect of the following. Non-submission of these information may lead to rejection of the offer.

1.3.1. FINANCIAL STATUS:

A certificate from Scheduled Bank to prove his financial capacity to undertake the work duly indicating financial limits the bidder enjoys or solvency certificate from the concerned Government authority. Informations required in Annexure A, shall be furnished by the bidder along with the offer.

1.3.2. INCOME TAX CERTIFICATE:

A certificate of Income Tax clearance from the appropriate authority in the forms prescribed there for indicating annual turnover and the Sales Tax clearance certificate from the appropriate authorities as prescribed by the concerned state government, if any. These certificates shall be valid for one year from the date of issue or for the period prescribed therein for all tenders submitted during the period.

1.3.3. PREVIOUS EXPERIENCE:

A statement giving particulars duly supported by documentary evidence of the various services rendered for each similar work by the bidder indicating the particulars, value of each work, the site location, the duration, date of completion, a list of site locations and particulars and value of various services that are under progress. Information required in Annexure –BI & BII shall be furnished by the bidders along with the offer.

1.3.4. ORGANISATION CHART:

The Organization pattern that is presently available with the bidder and that will be employed by the bidder for this work shall be furnished.

1.3.5. An attested copy of the Power of Attorney, in case the tender is signed by an individual other than the sole proprietor, shall also be attached. (If it is a Company or Firm, etc., Director/Managing Partner as the case may be is required to sign)

1.3.6. IN CASE OF AN INDIVIDUAL:

His full name, address and place and nature of business shall be indicated.

1.3.7. IN CASE OF PARTNERSHIP FIRMS:

The names of all the partners and their addresses be furnished along with a copy of the partnership deed/instrument of partnership duly certified by Notary Public shall be enclosed.

1.3.8. IN CASE OF COMPANIES:

Date and place of registration including date of commencement certificate in case of public companies (certified copies of Memorandum and Articles of Association are also to be furnished) are to be furnished.

1.3.9. Nature of business carried on by the Company and the provisions of the Memorandum relating there of shall be furnished.

1.3.10 Names and particulars including addresses of the Directors and their previous experiences shall be furnished.

1.3.11 A list of tools and tackles that the bidder is having and those that will be used on this job shall be furnished.

1.3.12 In addition to the above, the particulars required in various annexure shall also be furnished.

1.4. EARNEST MONEY DEPOSIT:

1.4.1. Every tender must be accompanied by the prescribed amount of Earnest Money Deposit in any one of the following forms.

1.4.1.1.EMD shall be deposited in cash (as permissible under income tax act), Payorder or Demand Draft (payable at Ranipet in favour of “Bharat Heavy Electricals Ltd.,”) only. No other form of EMD remittance shall be acceptable to BHEL.

1.4.1.2.In case of payment of EMD in the form of Cash, the amount should be remitted by the bidder to the Cash Office of Bharat Heavy Electricals Limited, BAP,Ranipet-632 406 during it's working hours and cash receipt issued shall be enclosed along with the tender.

1.4.2. Tenders received without Earnest Money in full in the manner prescribed above are liable to be rejected.

1.4.3. The Earnest Money Deposit of the successful tenders may be retained towards part of Security Deposit.

1.4.4. In the case of unsuccessful bidders, the Earnest Money will be refunded to them within a reasonable time after finalisation of the tender.

1.4.5. Earnest Money Deposit by the bidder will be forfeited as per tender documents if the bidder:

1.4.5.1.Fails to communicate unqualified acceptance of Letter of Intent within 15 days of date of Letter of Intent.

1.4.5.2.Does not commence the work within the period as per LOI/Contract. In case the LOI/Contract is silent in this regard then within fifteen days after award of contract.

1.4.5.3.After opening of Tender, revokes/withdraws his tender within the validity period or revises/alters his earlier quoted rates/conditions.

1.4.5.4.Fails to submit SD as indicated in the Letter of Intent.

1.4.6. Earnest Money deposit shall not carry any interest.

1.5. AUTHORISATION AND ATTESTATION:

1.5.1. Tenders shall be signed by persons duly authorized /empowered to do so. Certified copies of such authority and relevant documents shall be submitted along with the tenders.

1.6. VALIDITY OF OFFER:

The rates in the Tender shall be kept open for acceptance for a minimum period of six months from the date of opening of tenders. In case the Bharat Heavy Electricals Limited calls for negotiations such negotiations shall not amount to cancellation or withdrawal of the original offer , which shall be binding on the bidders.

1.7. EXECUTION OF CONTRACT:

The successful bidder's responsibility under this contract commences from the date of issue of the Letter of Intent by Bharat Heavy Electricals Limited. The successful bidder shall be required to execute an agreement in the prescribed form (Annexure-D) with BHEL within a reasonable time after the acceptance of his tender and in any case before submitting the first bill for payment. The expenses for completion, stamping and registration of the agreement with prescribed authority, if necessary, shall be borne by the Contractor.

1.8. SECURITY DEPOSIT:

1.8.1. Upon acceptance of tender, the successful bidder within the time specified in the letter of intent must deposit the required amount of Security Deposit for satisfactory execution of work and shall not commence work under this contract before remitting security deposit except as directed by BHEL.

1.8.2. The total amount of Security Deposit shall be as follows:

1.8.2.1. In the case of work costing up to Rs.10 lakhs – 10% of the quoted value.

1.8.2.2. In the case of work costing Rs.10 lakhs to Rs.50 lakhs – Rs.1 lakh plus 7.5% of the amount exceeding Rs.10 Lakhs.

1.8.2.3. In the case of work costing more than Rs.50 Lakhs – Rs.4 lakhs plus 5% of the amount exceeding Rs.50 Lakhs.

1.8.3. The Security Deposit may be furnished in any one of the following forms:-

1.8.3.1. Cash (as permissible under the income tax act).

1.8.3.2. Payorder , Demand Draft in favour of BHEL.

1.8.3.3. Local cheques of Scheduled Banks, subject to realization.

1.8.3.4. Securities available from Post Offices such as National saving Certificates, Kisan Vikas Patras etc. (Certificates should be held in the name of contractor furnishing the security and duly pledged in favour of BHEL and discharged on the back).

1.8.3.5. Bank Guarantee from Scheduled Banks / Public Financial Institutions as defined in the companies act. The Bank Guarantee format should have the approval of BHEL (Annexure-E). The Bank Guarantee furnished towards Security Deposit should be kept valid by proper renewal till the expiry of 6 Months after the said work is actually completed.

1.8.3.6. Fixed Deposit Receipt issued by Scheduled Banks / Public Financial Institutions as defined in the companies act. The FDR should be in the name of the contractor, account BHEL, duly discharged on the back.

1.8.3.7. Security deposit can also be recovered at the rate of 10% from the running bills. However in such cases atleast 50% of the security deposit (as Bank Guarantee or Demand Draft) should be remitted before start of the work and balance 50% may be recovered from the running bills till the full Security Deposit is made up.

1.8.3.8. EMD of the successful bidder may be converted and adjusted against the security deposit on specific request by the contractor.

1.8.3.9. Acceptance of security deposit as per clause 1.8.3.4 and 1.8.3.6 above will be subject to hypothecation or endorsement on the documents in favour of BHEL. However, BHEL will not be liable or responsible in any manner for the collection of interest or renewal of the documents or in any other matter connected therewith.

1.8.4. If the value of the work done at any time exceeds the accepted agreement value, the security Deposit shall be correspondingly enhanced and the extra Security Deposit shall be immediately deposited by the Contractor or recovered from payments due to him.

1.8.5 Failure to deposit the Security Deposit within the stipulated time, may lead to forfeiture of Earnest Money and cancellation of the award of work.

- 1.8.6** If any part of Security Deposit of the Contractor is held in the form of approved securities it shall be kept transferred in the name of Bharat Heavy Electricals Limited, Ranipet, in such a manner that the same can be realized fully without referring to the Contractor, BHEL shall not be responsible for any depreciation in the value of the Security while in BHEL's custody or for any loss of interest thereon.
- 1.8.7** BHEL reserves the right to forfeiture of Security Deposit in addition to the other claims and penalties in the event of the Contractor's failure to fulfill any of the Contractual obligation including liquidation or bankruptcy of the contractor, non-payment of money payable by means of arbitration award in favour of BHEL or in the event of termination of Contract as per terms and conditions of Contract. BHEL reserves the right to set off the Security Deposit, against any claims of any other contracts with BHEL.

1.8.8 RETURN OF SECURITY DEPOSIT:

If the Contractor performs and completes the work in all respects to the entire satisfaction of BHEL and presents an absolute "No Demand Certificate" in the prescribed form (Annexure-F) and returns properties belonging to BHEL handed over, lent or hired by him for carrying out the said works, Security Deposit will be released to the Contractor after deducting all cost of expenses or other amounts that are to be paid to BHEL under this or other contracts entered into with the Contractor. **It may be noted that in no case the Security Deposit shall be refunded/released prior to passing of final bill.**

1.9. REJECTION OF TENDER AND OTHER CONDITIONS

- 1.9.1.** The acceptance of Tender will rest solely with BHEL which does not bind itself to accept the lowest tender or any tender and reserves to itself full rights for the following without assigning any reasons whatsoever.
- 1.9.1.1.** To reject any or all of the bidders.
- 1.9.1.2.** To split up the work amongst two or more Bidders.
- 1.9.1.3.** To award the work in part.
- 1.9.1.4.** Either of the contingencies stated in (1.9.1.2) and (1.9.1.3) above to modify the time for completion suitably.
- 1.9.2.** Conditional and Unwitnessed tenders, tenders containing absurd or unworkable rates and amounts and tenders which are incomplete and otherwise considered defective and tenders not in accordance with the tender conditions, specifications, etc., are liable to be rejected.
- 1.9.3.** If a bidder expires after the submission of his/her tender or after the acceptance of his/her tender, BHEL may at their discretion cancel such tender. If a partner of a firm expires the submission of the tender or after the acceptance of the tender, BHEL may cancel such tender at their discretion unless the firm retains its character.
- 1.9.4.** BHEL will not be bound by any power of Attorney granted by the bidder or by changes in the composition of the firm made subsequent to the execution of the Contract. They may, however recognize such power of Attorney and changes after obtaining proper legal advice, the cost of which will be chargeable to the contractor concerned.
- 1.9.5.** If the bidder deliberately gives wrong information in his tender, BHEL reserves the right to reject such tender at any stage or cancel the contract, if awarded. The Earnest Money/Security Deposit /any other money due shall also be forfeited.
- 1.9.6.** Canvassing in any form in connection with the tender is strictly prohibited and the tenders submitted by the contractors who resort to canvassing in any form are liable to rejection.
- 1.9.7.** Should a bidder or contractor or in the case of a firm or company of contractors one or more of its partners/share holders/Directors have a relation or relations employed in BHEL, the

authority inviting tender shall be informed of the fact along with the offer, failing this BHEL may, at its sole discretion reject the tender or cancel the contract and forfeit the Earnest Money/Security Deposit.

- 1.9.8.** The successful bidder should not sub-contract the part or complete work detailed in the tender specification undertaken by him without written permission of BHEL. The bidder is solely responsible to BHEL for the work awarded to him.
- 1.9.9.** No deviation from the tender specification shall be acceptable to BHEL. Bidders shall confirm their unqualified acceptance of the terms and conditions by giving an undertaking to this effect in a separate letter as specified by BHEL.
- 1.10. NO INTEREST shall be payable by BHEL on Earnest Money or Security Deposit, if applicable, or any money due to the Contractor by BHEL.**

SECTION –II

2.1. DEFINITION:

The following terms shall have the meaning hereby assigned to them except where the context otherwise requires.

- 2.1.1. BHEL or (B.H.E.L Ltd)** shall mean Bharat Heavy Electricals Limited a Company registered under Indian Companies Act 1956, with its Registered Office at BHEL House, Siri fort, New Delhi 110 049 or its Authorised Officers or its Resident Engineer or other employees authorized to deal with any matters with which these persons are concerned on its behalf.

- 2.1.5. “CLIENTS OF BHEL” or “CUSTOMER”** shall mean the project authorities to whom BHEL is supplying the equipments.
- 2.1.6. “CONTRACTOR”** shall mean the individual, firm or company who enters in to this contract with BHEL and shall include their executors, administrators, successor and permitted assignees.
- 2.1.7. “CONTRACT” or “CONTRACT DOCUMENT”** shall mean/and include the agreement or work order, the accepted appendices of rates, schedules, quantities, if any and general conditions of contract, the special conditions of contract, instructions to the bidders, the drawings, the technical specifications, the special specifications, if any, the tender documents and the Letter of Intent/Acceptance Letter issued by BHEL. Any conditions or terms stipulated by the contractor in the tender document or subsequent letters shall not form part of the contract unless specially accepted in writing by BHEL, in the Letter of intent and incorporated in the agreement.
- 2.1.8. “GENERAL AND SPECIAL CONDITIONS OF CONTRACT”** shall mean the “Instructions to Bidders and General and Special Conditions of Contract” pertaining to the work for which the bidders are called for.
- 2.1.9. “TENDER SPECIFICATIONS”** shall mean the “SPECIFIC CONDITIONS, Technical specifications, appendices, site informations and drawings” pertaining to the work in which the bidders are required to submit their offer, Individual specification number will be assigned to each tender specification..
- 2.1.10. “TENDER DOCUMENTS”** shall mean the General and Special Conditions of Contract(2.1.8) and tender specification(2.1.9).
- 2.1.11. “LETTER OF INTENT”** shall mean the intimation by a letter to the bidder that the tender has been accepted in accordance with provisions contained in that letter. The responsibility of the contractor commences from the date of issue of this letter and all the terms and conditions of contract are applicable from this date.
- 2.1.12. “COMPLETION TIME”** Shall mean the period by date specified in the acceptance of tender or date mutually agreed upon for handing over of the erected equipment/plant which are found acceptable by the Engineer being of required standard and conforming to the specifications of the contract.

- 2.1.13. “PLANT”** shall mean and cannot be the entire assembly of the plant and equipments covered by the contract.
- 2.1.14. “EQUIPMENT”** shall mean all equipments, machinery, materials, structurals, electricals and other components of the plant covered by the contract.
- 2.1.15. “TESTS”** shall mean and include such test or tests to be carried out on the part of the contractor as are prescribed in the contract or considered necessary by BHEL in order to ascertain the quality, workmanship, performance and efficiency of the contract work or part thereof.
- 2.1.16. “APPROVED” “DIRECTED” or “INSTRUCTED”** shall mean approved, directed or instructed by BHEL.
- 2.1.17. “WORK OR CONTRACT WORK”** shall mean and include supply of all categories of labour specified consumables, tools and tackles required for complete and satisfactory site transportation handling, stocking, storing, erecting, testing, and commissioning of the equipments to the entire satisfaction of BHEL.
- 2.1.18. “SINGULAR AND PLURAL ETC”** works carrying singular number shall also include plural and vice versa, where the context so required. Words importing the masculine gender shall be taken to include the feminine gender and words imparting persons shall include any company or association or body of individuals, whether incorporated or not.
- 2.1.19. “HEADINGS”**
The headings in these general conditions are solely for the purpose of facilitating reference and shall not be deemed to be part thereof or be taken into consideration in the interpretation or construction thereof or of the contract.
- 2.1.20. “MONTH”** shall mean calendar month, unless specified otherwise in the tender.
- 2.1.21. “WRITING”** shall include any manuscript typewritten or printed statement under the signature of BHEL.

2.2. LAW GOVERNING THE CONTRACT AND COURT JURISDICTION

The contract shall be governed by the Law for the time being in force in the Republic of India, and shall be subject to the Jurisdiction of the courts having Jurisdiction over RANIPET (VELLORE Dist, Tamil Nadu).

2.3. ISSUE OF NOTICE:

The Contractor shall furnish to the BHEL ENGINEER the name, designation and address of his authorized agent and all complaints, notices, communication and reference shall be deemed to have been duly given to the contractor or his authorized agent or left or posted to the address of either the contractor or of his representative and shall be deemed to have been so given in the case of posting on the day on which they would have reached such address in the ordinary course of post or on which they were so delivered of / or left.

2.4. USE OF LAND:

No land belonging to BHEL or their customer under temporary possession of BHEL shall be occupied by the Contractor without the written permission of BHEL.

2.5. COMMENCEMENT OF WORKS:

- 2.5.1.** The Contractor shall commence the works within the time indicated in the Letter of Intent from BHEL and shall proceed with the same with due expedition without delay.
- 2.5.2.** If the successful bidder fails to start the work within the stipulated time, BHEL, at his sole discretion will have the right to cancel the contract. His earnest money and/or Security Deposit with BHEL will stand forfeited without any further reference to him without prejudice to any and all of BHEL's other rights and remedies in this regard.

- 2.5.3.** All the works shall be carried out under the direction and to the satisfaction of BHEL.
- 2.5.4.** The erected/constructed plant or work performed under this contract shall be taken over when it has been completed in all respects and/or satisfactorily put in to operation at site.
- 2.6. MODE OF PAYMENT AND MEASUREMENT OF THE WORK COMPLETED:**
- 2.6.1.** All payments due to the contract shall be paid through E-PAYMENT (EFT / RTGS) only. The contractor has to furnish acceptance for e-payment, duly indicating the bank account details in the prescribed format.
- 2.6.2.** For Progress running bill payment:
The contractor shall present detailed measurement working sheets, in quadruplicate, duly indicating all relevant details based on technical documents and connected drawings for work done during the month/period under various categories in line with terms of payment as per letter of intent. The basis of arriving at the quantities/weight shall be the relevant documents and drawings released by BHEL.
- 2.6.3.** These measurement working sheets will be checked and vetted by BHEL Engineers and quantities and percentage eligible for payment under various groups shall be decided by BHEL engineers. The abstract of quantities and percentage so arrived based on the terms of payment shall be entered in Measurement Book and signed by both the parties.
- 2.6.4.** Based on the above quantity, contractor shall prepare the bills in prescribed proforma and work out the financial value. These will be entered in Measurement Book and signed by both the parties and paid duly effecting recoveries due.
- 2.6.5.** All recoveries due from the contractor for the month/period shall be effected in full from the corresponding running bills unless specific approval from the competent authorities is obtained otherwise.
- 2.6.6.** Measurement shall be restricted to that for which it is required to ascertain the financial liability of BHEL under this contract.
- 2.6.7.** The measurement shall be taken jointly by persons duly authorized on the part of BHEL and by the contractor.
- 2.6.8.** The contractor shall bear the expenditure involved, if any, in making the measurement. The contractor shall, without extra charges provide all the assistance with appliances and other things necessary for measurement.
- 2.6.9.** If, at any time due to any reason, whatsoever, it becomes necessary to re-measure the work done in full or in part, the expenses towards such re-measurements shall be borne by the contractor.
- 2.6.10.** Passing of measurement as per bills does not amount to acceptance of the completion of the work mentioned. Any left out work has to be completed if pointed out at a later date by BHEL.
- 2.6.11.** Final measurement bill shall be prepared in the final bill proforma prescribed for the purpose based on the certificate issued by BHEL Engineer that entire work as stipulated in the tender specification has been completed in all respects to the entire satisfaction of BHEL. Contractors shall give unqualified 'No Due' and 'No Demand' certificate. All the tools and tackles loaned to them should be returned in condition satisfactory to BHEL. Quantities/Weight erected shall be prepared and paid, within a reasonable time after completion of work. After payment of final bill, only guarantee obligation percentage shall remain unpaid which shall be released in accordance with clause 2.13. The final bill quantities and financial value shall also be entered in Measurement Book and signed by both the parties to the contract.

2.7 RIGHTS OF BHEL

BHEL reserves the following rights in respect of this contract without entitling the contractor for any compensation.

- 2.7.1.** To get the work done through other agency at the risk and cost of the Contractor, in the event of Contractor's poor progress, or inability to progress the work, persistent disregard in instruction of BHEL, assignment transfer, subletting of the contract without permission of BHEL, non fulfillment of any contractual obligation etc., and to recover compensation for such losses from the contractor including BHEL's supervision charges and overheads from Security Deposit / other dues.
- 2.7.2.** To withdraw any portion of work and/or to restrict/alter quantum of work as indicated and get it done through other agency and/or with departmental labour to suit BHEL's commitment to its customer or in case BHEL decides to advance the date of completion due to other emergency reasons/BHEL's obligation to its customer.
- 2.7.3.** To terminate the contract after due notice to cause forfeiting of Security Deposit and recover the loss sustained in getting the balance work done through other agencies in addition to liquidated damages in the event of :
 - 2.7.3.1.** Contractor's continued poor progress.
 - 2.7.3.2.** Withdrawal from or abandonment of the work before completion of the work.
 - 2.7.3.3.** Corrupt act of contractor.
 - 2.7.3.4.** Insolvency of the contractor.
 - 2.7.3.5.** Persistent disregards to the instructions of BHEL.
 - 2.7.3.6.** Assignment transfer, sub-letting of the contract without BHEL's permission.
 - 2.7.3.7.** Non-fulfillment of any contractual obligations.
- 2.7.4.** To recover any money due from the contractor from any money due to the contractor under this contract or any other contract or from the Security Deposit.
- 2.7.5.** To claim compensation for losses sustained including BHEL's supervision charges and overheads for completion on termination of contract and to impose penalty for delay in completion of the work at the rate of ½% of the contract value per week of delay or part thereof subject to a ceiling of 10% of contract value.
- 2.7.6.** To terminate the contract or to restrict the quantum of work and pay for the portion of work executed in case BHEL's contracts with their customers are terminated for any reason.
- 2.7.7.** To effect recovery from any amount due to the contractor under this or any other contractor in any other form the moneys BHEL is forced to pay to anybody, due to contractor's failure to fulfill any of his obligation.
- 2.7.8.** To restrict or increase the quantity and nature of work to suit the site requirements since the tender specification is based on preliminary documents and quantities furnished there in are indicative and approximate and the rates quoted shall not be subject to revision.
- 2.7.9.** To deploy BHEL's fitters, welders, operators and technicians in case of emergency/poor progress/deficiency in skill on the part of employees of contractor and to recover the expenditure on account of the same from contractor's bills.
- 2.7.10.** While every endeavor will be made by BHEL they cannot guarantee un-interrupted work to the contractor due to conditions beyond their control. Contractor will not be entitled for any compensation extra payment on his account.
- 2.7.11.** In the event of any dispute of any nature, the decision of BHEL shall be final and binding on the contractor.

2.7.12. Cancellation of contract in part or full for contractor's default:

If the contractor:

- a) makes default in commencing the work within a reasonable time from the date of handing over of the site and continue in that state after a reasonable notice from Engineer-in-charge.

OR

- b) in the opinion of the Engineer-in-charge at any time whether before or after the date / extended date for completion, make default in proceeding with the work, with due diligence and continue in that state after a notice of seven days from Engineer-in-charge

OR

- c) fails to comply with any of the terms and conditions of the contract or after 7 days notice in writing with orders properly issued there under

OR

- d) fails to complete the work order and items of work as per individual dates for completion and clear the site on or before the date of completion or fails to achieve the progress set out in accordance with the provisions of contract.

The Accepting Officer may, without prejudice to any other right or remedy which shall have accrued or shall accrue to BHEL, cancel the contract as a whole or in part thereof or only such work order items of work in default from the contract. Whenever the Accepting officer exercises his authority to cancel the contract as a whole or in part under this condition he may complete the work at the contractor's risk and cost, provided always that in the event of the cost of completion (as certified by Engineer-in-charge, which is final and conclusive) being less than the contract cost the advantage shall accrue to the BHEL. If the cost of completion exceeds, the money due to the contractor under this contract the contractor shall either pay the excess amount ordered by General Manager or the same shall be recovered from the contractor by other means. Engineer-in-charge will have power to take possession of site and materials, constructional plant, implements, stores etc there on.

In case BHEL completes the work or any part thereof under the provisions of the contract conditions, then such completion is to be taken in to account in determining the excess cost to be charged to the contractor under this condition and shall consist of the cost of materials purchased and / or labour provided by BHEL, with an addition of such percentage to cover superintendence and establishment charges as may be decided by the General Manager, whose decision shall be final and conclusive.

- 2.7.13.** If the contractor fails to pay the excess sum within a period of 30 days the Engineer-in-charge shall have the right to sell any or of the contractor's unused materials, construction plant, implements, temporary buildings etc., and apply the proceeds of sale thereof towards the satisfaction of any sum due from the contractor under the contract and if there after be any balance out standing from the contractor, it shall be recovered in accordance with the provisions of the contract.

- 2.7.14. BHEL shall have the right to recover any money due from the contractor from any money due to the contractor under this contract or any other contract or from the Security Deposit.**

2.8. RESPONSIBILITIES OF THE CONTRACTOR IN RESPECT OF LOCAL LAWS, EMPLOYMENT OF WORKERS Etc.

The following are the responsibilities of the Contractor in respect of observation of local laws, employment of personnel, payment of taxes etc.

- 2.8.1.** As far as possible unskilled workers shall be engaged from the local areas in which the work is being executed.

- 2.8.2. The contractor at all times during the continuance of this contract shall, in all his dealings with local labour for the time being employed on or in connection with the work, have due regard to all local festivals, religious and other customs.
- 2.8.3. The contractor shall comply with all state and Central Laws, Statutory Rules, Regulations etc., inclusive of those regarding labour and industrial laws which are applicable from time to time and they shall comply with the provisions of the said labour legislations, rules and regulations framed under the provisions of Employees Provident Fund and Miscellaneous Provisions Act 1952 shall be strictly followed.
- 2.8.4. The contractor shall pay all taxes, including sales Tax on works contract if any fees, license, charges, deposits duties, tool royalty commissions or other charges which may be leviable on account of any of his operations in execution of the contract in case BHEL is forced to pay any of such taxes. BHEL shall have the right to recover the same from the contractor either from his bills or other wise as deemed fit.
- 2.8.5. While BHEL would pay the inspection fees, of the Boiler Inspectorate, all other arrangements for the visits periodically by Boiler Inspector to site, Inspection Certificate etc., will have to be made by the contractor. However BHEL will not make any payment to Boiler Inspector in connection with contractor's welders qualification/requalification tests etc.
- 2.8.6. The contractor shall be responsible for provision of health and sanitary arrangements (more particularly described in Contract Labour Regulation & Abolition Act) safety precautions etc., as may be required for safe and satisfactory execution of the contract.
- 2.8.7. The contractor shall be responsible for providing proper accommodation including adequate medical facilities for the personnel employed by him.
- 2.8.8. The contractor shall be responsible for the proper behavior and observance of all regulations by the staff employed by him.
- 2.8.9. The contractor shall ensure that no damage is caused to any person/property of other parties working at site. If any such damage is caused it is the responsibility of the contractor to make good the losses or compensate for the same.
- 2.8.10. All the properties/equipments/components of BHEL their client loaned with or without deposit to the contractor in connection with contract shall remain the properties of BHEL/their client. The contractor shall use such properties for purpose of execution of this contract, all such properties/equipments/components shall be deemed to be in good condition when received by the Contractors unless he notifies within 48 hours to the contrary. The Contractor shall return them in good condition as and when required by BHEL/their client. In case of non-return, loss, damage, repairs etc, the cost thereof, as may be fixed by the site Engineer, will be recovered from the Contractor.
- 2.8.11. It is not obligatory on the part of BHEL to supply any tools and tackles or other materials other than those specifically agreed to do so by BHEL. However, depending upon the availability/possibility BHEL's customer's handing equipment and other plants may be made available to the contractor on payment of the hire charges/free of charges, as fixed subject to the conditions laid down by BHEL/Customer from time to time. Unless paid in advance such hire charges if applicable shall be recovered from contractors bills/security deposit in one installment.
- 2.8.12. The Contractor shall fully indemnify BHEL against all claims of whatsoever nature arising during the course of erection/construction/performing work under the contract.
- 2.8.13. In case the Contractor is required to undertake any work outside the scope of this contract the rate payable shall be those mutually agreed upon.
- 2.8.14. Any delay in completion of works/non-achievement of periodical targets, due to reasons attributable to the contractor, the same will have to be compensated by the Contractor either by increasing manpower and resources or by working extra hours and/or by working more than one shift. All these are to be carried out by the contractor at no extra cost.

- 2.8.15.** The contractor shall arrange and co-ordinate his work in such a manner as to cause no hindrance to other agencies working in the same premises.
- 2.8.16.** All safety rules and codes applied by the client/BHEL at site shall be observed by the contractor without exception. The contractor shall be responsible for the safety of the equipment/material and works to be performed by him and shall maintain all light, fencing guards signs etc, or other protection necessary for the purpose. Contractor shall also take such additional precautions as may be indicated from time to time by the Engineer with a view prevent pilferage, accidents, fire hazards and due precautions shall be taken against fire hazards and atmospheric conditions. Suitable number of clerical staff, watch and ward, store keepers to take care of equipment, materials and construction tools and tackles shall be posted at site by the contractor till the completion of the work under this contract. The contractor shall arrange for such safety devices as are necessary for such type of work and carry out the requisite site tests of handling equipments, lifting tools, tackles, etc., as per prescribed standards and practices.
- 2.8.17.** The contractor will be directly responsible for payment of wages to his workmen. A pay roll sheet giving all the type payments given to the workers and duly signed by the contractor's representative should be furnished to BHEL Site office on or before 15th of every succeeding month.
- 2.8.18.** In case of any class of work for which there is no such specification as laid down in the contract, such work shall be carried out in accordance with the instructions and requirements of the Engineer.
- 2.8.19.** No levy of payment or charge made or imposed shall be impeached by reason of any clerical error or by reason of any mistake in the amount levied or demanded or charged.
- 2.8.20.** Also no idle labour charges will be admissible in the event of any stoppage caused in the work resulting contractor's labour being rendered idle due to any cause at any time.
- 2.8.21.** The contractor shall take all reasonable care to protect the materials and work till such time the plant/equipment has been taken over by BHEL/their client.
- 2.8.22.** Contractor shall not stop the work or abandon the site for whatsoever reason or dispute, excepting for force major conditions. All such problems/dispute, shall be separately discussed and settled without affecting the progress of work. Such stoppage or abandonment shall be treated as breach of contract and dealt with accordingly.

2.9. CONSEQUENCES OF CANCELLATION:

Whenever BHEL exercises its authority to terminate the contract/withdraw a portion of work under the clause 2.7 they may complete the work by any means. In the event of the cost of completion as certified by the site Engineer which is final and conclusive being less than the contract cost, the advantage shall accrue to BHEL and that if the cost of completion exceeds the moneys due to the contractor under the contract, the contractor shall either pay the excess amount ordered by BHEL or the same shall be recovered from the contractor by any other means. This will be in addition to the forfeiture of Security Deposit and recovery of liquidated damages as per the relevant clauses.

- 2.9.1.** In case BHEL completes the work under the provision of this condition, the cost of such completion to be taken into account in determining the excess cost to be charged to the contract under this condition, shall consist of materials purchased and/or labour provided by BHEL with an addition of such percentage to cover supervision and establishment charges as may be decided by BHEL.

2.10 INSURANCE:

- 2.10.1.** BHEL/their customer shall arrange for insuring the materials/properties of BHEL / customer covering the risks during transit, storage, erection and commissioning.

- 2.10.2.** It is sole responsibility of the contractor to insure his workmen against accidents and injury while at work as required by relevant Rules and to pay compensation, if any, to workmen as per workmen's Compensation Act. The work will be carried out in a protected area and all the rules and regulations of the client/BHEL in the area of project which are in force from time to time will have to be followed by contractor.
- 2.10.3.** If due to negligence and/or non-observance of safety and other precautions, any accident/injury occurs to any other persons/public, the contractor shall have to pay necessary compensation and other expenses if so decided by the appropriate authorities.
- 2.10.4.** If due to contractor's carelessness's, negligence of non-observance of safety precautions damage to BHEL's /customer's property and personnel should occur and if BHEL is unable to recover in full cost from the insurance company, the same will be recovered from the contractor.
- 2.10.5.** It shall be the responsibility of the contractor to provide security arrangement for the equipment/ materials belonging to BHEL and handed over to the contractor for erection/transportation till the same are taken over by BHEL after erection/returned to BHEL stores.

2.11. STRIKES & LOCKOUTS:

- 2.11.1.** The contractor will be fully responsible for the entire dispute and other issues connected with his labour. In the event of the contract labour resorting to strike or the contract resorting to lock-out and if the strike or lock-out declared is not settled within a period of one month, BHEL, shall have the right to get the erection work executed employing its own labour or through any agencies or both and the cost so incurred by BHEL be deducted from the contractor's bills.
- 2.11.2.** For any purpose whatsoever the employees of the contractor shall not be deemed to be in the employment of BHEL.

2.12. FORCE MAJEURE:

- 2.12.1** The following shall amount to FORCE MAJEURE:

Act of God or of any Government, War, Sabotage, Riots, Civil commotion, Police action revolution, Flood, Fire, Cyclones, Earth quake and epidemic and other similar causes over which the contractor has no control.

- 2.12.2** If the contractor suffers delay in the due execution of the contractual obligation due to delays caused by FORCE MAJEURE as defined above, the agreed time of completion of the job covered by this contract or the obligation of contractor shall be extended by a period of time equal to the period of delay provided that on the occurrence of any such contingency the contractor immediately reports to BHEL in writing the causes of delay and the contractor shall not be eligible for any compensation.

2.13 GUARANTEE:

Even though the work will be carried out under the supervision of BHEL Engineers the contractor will be responsible for the quality of the workmanship and shall guarantee the work done for a period of twelve months from the date of completion of work as certified by the Engineer for good workmanship and shall rectify free of cost all defects due to faulty erection, detected during the guarantee period starting from the date of the completion of rectification. In the event of the contractor failing to repair the defective works within the time specified by the Engineer, BHEL may proceed to undertake the repairs of such defective works at the contractor's risk and cost, without prejudice to any other rights and recover the same from Security Deposit/other dues or by other legal means.

2.14 ARBITRATION:

Except where otherwise provided for in the contract all questions and disputes relating to the meaning of the specifications, designs, drawings and instructions herein before mentioned and

as to the quality of workmanship or materials used on the work or as to any other question, claim, right, matter or thing whatsoever in anyway arising out of or relating to the contract, designs, drawings, specifications, estimates, instructions, orders or these conditions or otherwise concerning the work or failure to execute the same whether arising during the progress of the work or after the completion or abandonment thereof shall be referred to the sole arbitration of the General Manager of BHEL and if General Manager is unable or unwilling to act, to the sole arbitration of some other person appointed by the General Manager, willing to act as such arbitrator.

The cases referred to arbitration shall be other than those for which the decision of the Accepting Officer, or Engineer-in-charge as the case may be is expressed in the contract to be final and conclusive. There will be no objection if the arbitrator so appointed is an employee of BHEL and that he had to deal with the matters to which the contract relates and that in the course of his duties as such he had expressed views on all or any of the matters in dispute or difference.

The arbitrator to whom the matter is originally referred being transferred or vacating his office or being unable to act for any reason, such General Manager as aforesaid at the time of such transfer, vacation of office or inability to act shall appoint another person to act as an arbitrator in accordance with the terms of the contract. Such person shall be entitled to proceed with the reference from the stage at which it was left by his predecessor.

Subject as aforesaid the provision of the Arbitration and Conciliation Act 1996 or any statutory modification or reenactment thereof and the rules made there under and for the time being in force shall apply to the arbitration proceeding under this clause.

It is a term of the contract that the party involving arbitration shall specify the dispute or dispute to be referred to arbitration under this clause together with the amount or amounts claimed in respect of each such dispute.

The arbitrator shall be deemed to have entered on the reference on the date he issues notice to both the parties fixing the date of first hearing.

The arbitrator shall give a separate award in respect of each dispute or difference referred to him.

The venue of arbitration shall be such place as may be fixed by the Arbitrator in his sole discretion. The award of the Arbitrator shall be final conclusive and binding on all parties to this contracts.

In the event of disputes or differences arising between one public sector and a Government Department or between two public sector enterprises the above stipulations shall not apply, the provisions of BPE Office memorandum No.BPE/CL/001/76 MAN/2(1.10)76-BPE(GM-1)dated 1st January 1976 or its amendments for arbitration shall be applied.

ANNEXURE 'E'

PROFORMA FOR SECURITY DEPOSIT

THIS DEED OF GUARANTEE made this day of _____ by Messrs. _____ (hereinafter called the Bank) in favour of Messrs. **BHARAT HEAVY ELECTRICALS LIMITED, RANIPET** having its Registered Office at New Delhi (hereinafter called the Principal)

WHEREAS Messrs. _____ (hereinafter called the Contractor) has entered in to a Contract with Bharat Heavy Electricals Ltd., Ranipet arising out of Letter of Intent No. _____ Dt. _____ addressed by the Principal to the Contractor (hereinafter called the said agreement) for

AND WHEREAS the said Agreement provides that the contractor shall pay a sum of Rs. _____ (Rupees _____ only) towards 50% of full Security Deposit to be made in the form and manner therein specified.

AND WHEREAS the Contractor have approached the Bank and at their request and in consideration of the agreement arrived at between the said contractor and the Bank, the Bank has agreed to give such guarantee as hereinafter mentioned to the Principal.

NOW, therefore, these present witness that we the Bank by the hand Mr. _____ its lawfully and duly constituted attorney, do hereby undertake to pay to the principal a sum of Rs. _____ (Rupees _____ only) without demur on demand being made by the principal and to keep the principal indemnified to the extent of Rs. _____ by virtue of this guarantee against any loss or damage caused to or suffered by the principal by reason of any breach by the aforesaid contract of any of the terms and or conditions, stipulations or undertakings of any one of them contained in the said Agreement and the tender documents attached thereto and for the payment of any money or moneys payable by the said contractor to the principal under the terms and conditions of the said Agreements (the decisions regarding the breach, loss damage or payment due being solely in the discretion of the Principal).

We further undertake to pay without demur the aforesaid amount in a lump sum on demand or such part thereof as the Principal may demand from time to time irrespective of the fact whether the said contractor admits or denies such claim or questions its correctness in any Court Tribunal or Arbitration Proceedings or before any authority. The aforesaid guarantee will remain in force and we shall be liable under the same irrespective of any concession or time being granted by the principal, to the Contractor in or fulfilling the said agreement between contractor and the principal and the guarantee will remain in full force irrespective of any change of terms, conditions or stipulation or any variation in the terms of the said agreement irrespective of whether notice of such change or/variation is given to us or not and claim to receive such notice of any change/and or variation of the terms and or variation of the terms and or/conditions of the said agreement is hereby specifically waived by us. Further we shall not be release from this guarantee by any forbearance of the exercise or non-exercise of any of the powers or rights under the said agreement by the principal against the contractor irrespective of whether notice of such forbearance enforcement or non-enforcement of any powers or rights, modifications or change made in the said agreement or concessions shown to contractor by the principal is given to us or not.

The guarantee herein contained shall not be determined or affected by the liquidation or winding up or insolvency of or change in the constitution of the contractor but shall in all respects and for all purposes be binding and operative until all payments of all moneys due or that may hereafter become due to the principal in respect of any liability or obligations of the contractor under the said agreement.

We, the Bank further agree that the guarantee herein contained shall remain in full force and effect during the period that would be taken for the performance of the said agreement and that it shall continue to be enforceable till all the dues of the principal under or by virtue of the said agreement have been fully paid and its claims satisfied or discharged or till the principal certifies that the terms and conditions of the said Agreement have been fully and properly carried out by the said contractor and accordingly discharges the guarantee subject to however that the principal shall have no rights under this guarantee after the expiry of six months from the date of completion of the contract (the date of completion shall be as certified by the Principal) unless this guarantee is extended by agreement.

Any claim or dispute arising under the terms of this contract shall only be enforced or settled in the Court having jurisdiction over RANIPET (VELLORE Dist, Tamil Nadu)

And lastly the Bank undertakes not to revoke this guarantee during its currency except with the previous consent of the principal in writing.

The bank hereby declares that it has power to issue this guarantee under that Bank's Memorandum and Articles of Association and the undersigned has power to do so on its behalf under the power of Attorney granted to him by the proper Authorities of the Bank.

SECTION –III

SPECIAL CONDITIONS OF CONTRACT FOR ERECTION

3.1 SPECIAL CONDITIONS FOR RWTP

The special conditions for RWTP shall be comprising of but not limited to the following:

- 3.1.1** Any fixtures, concrete block supports, steel structures, required for temporary supporting for pre-assembly, checking, welding, lifting and handling during pre-assembly and erection shall be arranged by contractor, at his cost. It shall be the Contractor's responsibility to check the various foundations for their correctness with respect to level orientation, dimensions etc., and ascertained dimensions shall be measured and submitted to BHEL for approval before erection. Also minor chipping and dressing of foundations up to 40mm, for obtaining of proper face for packer plates/shims, enlarging of the pockets in foundation etc., as may be required for the erection of the equipment/plants will have to be carried out by the Contractor without extra cost.
- 3.1.2** The scope of equipments to be erected under this contract are detailed in tender specification, Technical Description etc. The schedule of weights given are approximate and are meant only to give a general idea to the Tenderer about the magnitude of the work involved.
- 3.1.3** All works such as cleaning, leveling, blue-matching, aligning, assembling for temporary erection and alignment, dismantling of certain equipments for checking/cleaning, surface preparation, fabrication of tubes and pipes as per general engineering practice at site. Cutting, grinding, straightening, chamfering, filing, chipping, drilling, reaming, scraping, shaping, fitting up etc., as may be applicable in such erection work are to treated as incidental to erection and necessary to complete the work satisfactorily, shall be carried out by the Contractor, as part of the work.
- 3.1.4** It shall be the responsibility of the contractor to provide ladders on columns for initial work till such time stairways are completed. For this, the ladder should not be welded on the column and should be pre-fabricated clamping type ladders. Temporary welding on any structural member is permitted under special circumstances only with the approval of BHEL.
- 3.1.5** No member of the structure/platform should be cut without specific approval of BHEL.
- 3.1.6** Welding of necessary instrumentation tapping points, will also be the responsibility of the Contractor and will be done as per the instructions of BHEL Engineer. The welding of all the above items will be Contractor's responsibility even if the
 - 1) Product groups under which these items are not specifically indicated in the technical Specifications.
 - 2) Items are supplied by an agency other than BHEL.
- 3.1.7** All welded joints should be painted with anti-corrosive paint. Daily welding reports in the proforma suggested by BHEL should be submitted the next day morning without fail.
- 3.1.8** All rotating machineries and equipment shall be cleaned, lubricated, checked for their smooth rotation if necessary by dismantling and refitting before erection. If in the opinion of BHEL Engineer, the equipment is to be checked for clearance at any stage of work or during commissioning period, all such works are to be carried out by Contractor at his cost.

- 3.1.9** Contractor shall carry out chipping and blue matching of foundation concrete with the packer plates. The packer plates shall be supplied by BHEL. Necessary machining and blue matching of packer plates shall be carried out by the contractor with in the quoted rates.
- 3.1.10** The contractor shall take all reasonable care to protect the materials and equipments during stacking and erection. Preservative painting required to be done on any equipment or part during the course of stacking and erection will have to be done by the Contractor at no extra cost to BHEL. Paints and all other materials shall be arranged by the contractor.
- 3.1.11** Complete erection, alignment, testing, pre-commissioning etc. of drive motors of Raw water feed pump, Clarified water transfer pumps is in the scope of work.
- 3.1.12** Additional platforms of permanent nature for approaching different equipments, as per site requirements which may not be indicated in drawings, shall be installed by the contractor. The materials required for platforms will be supplied by BHEL in running meters at free of cost.
- 3.1.13** All welders shall be tested and approved by BHEL Engineer / client of BHEL before they are actually engaged on work. BHEL reserve the right to reject any welder without assigning any reason.
- 3.1.14** In case of any class of work for which there is no such specifications as laid down in the contract, such work shall be carried out in accordance with the instructions and requirements of BHEL Engineer at the quoted rates only.
- 3.1.15** BHEL Engineer is entitled to stop any welder from his work if found unsatisfactory for any technical reason or there is a high percentage of rejection the work welded by him which, in the opinion of BHEL Engineers, which adversely affect the quality of welding, though the welder has earlier passed the tests.
- 3.1.16** All charges for testing of welders including destructive and non-destructive tests shall have to be borne by the contractor.
- 3.1.17** All welded joints shall be subject to acceptance by BHEL Engineer/client.
- 3.1.18** The contractor shall make suitable security arrangements including employment of security personnel (round the clock) to ensure the protection of all materials/equipments and works from theft, fire, pilferage and any other damage and loss at stores/storage yard/pre-assembly area/erection site, till the contract is getting over.
- 3.1.19 APPLICATION OF PAINT:**
1. The scope of final painting work includes supply of finishing paint should confirm to specification in the rate schedule..
 2. The above paint should be purchased from any one of the brands approved by BHEL.
 3. Before application of paint, the surface to be painted should be thoroughly cleaned with wire brush to remove dirt, dust, rust, grease etc.
 4. The painting work should be carried out with contractor's own scaffolding materials, wire brushes, painting brushes, cleaning materials etc.
 5. Finishing paint is to be applied in exposed areas of RWTP.

6. Paint of approved shade and quality is only to be applied. Approved paint tins/packs/containers will be inspected by BHEL Engineer before opening of the seal at work site.
7. A separate register is to be maintained for painting works and for taking signature of BHEL'S Engineer during stage inspection.
8. After application of each coat of paint BHEL Engineer will clear application of next coat by affixing the signature in the protocol register.

3.1.20 TESTS

1. The contractor shall supply manpower and consumables to carry out the required tests on the equipments such as performance Guarantee test etc., to be specified by the Resident Engineer, BHEL at free of cost. Contractor's quoted rate shall include all contingencies such as checking of coupling alignments, various clearances between stator and rotor components, bearing clearing, trial runs etc.
2. All the above tests should be repeated till all the equipments satisfy the requirement/obligation of BHEL to their customer.

3. PRE-COMMISSIONING TEST AND COMMISSIONING OF THE UNITS:

- i. Commissioning of the equipments will involve trial runs of all the equipments erected, and any other works incidental to commissioning. Contractor shall supply labour for all these without any extra cost under this contract.
- ii. In case any defect is detected during tests, trial runs such as loose components, undue noise or vibration, strain on connected equipment etc., the Contractor shall immediately attend to these defects and take necessary corrective measures. If any re-adjustment and re-alignment are necessary, the same shall be done as per BHEL Engineer's instructions. If any part of the equipment needs repair, rectifications or replacement, the same shall be done by the Contractor at his cost. The parts to be replaced shall be provided by BHEL.
- iii. During this period, though the BHEL's/Client's staff will also be associated in the work, the Contractor's responsibility will be to arrange for the complete labour requirement for the successful trial run of equipment till it is handed over to customer.
- iv. It shall be specifically noted that the above employees of Contractor may have to work round the clock along with the BHEL Commissioning Engineers and hence any overtime payment so involved, the Contractor's quoted rates shall be inclusive of all these factors also.
- v. During commissioning, re-aligning of rotating and other equipment, attending to leakages and minor adjustment of erected equipment may arise. The quoted rate of Contractor shall be inclusive of all such works.
- vi. In case any rework is required because of Contractor's faulty erection which is noticed during commissioning the same has to be rectified by the contractor at his cost. If, during commissioning, any improvement or rectification due to design requirements is involved the same shall be paid at man-hour rates quoted. For this purpose, daily labour report indicating there in, nature of work carried out, consumables used etc., shall be maintained by contractors and for signed by BHEL Engineers every day.

3.1.21 PROGRESS OF ERECTION WORK:

1. During the course of Erection, if the progress is found unsatisfactory, or if the target dates are to be advanced, or in the opinion of BHEL if it is found that the welders employed are not sufficient, BHEL will induct on work their own welders, in addition to Contractor's welders working and recover from the Contractor's bills the charges incurred for engaging the welders with the overheads. This is binding on the Contractor.
2. In case the Contractor's progress is found unsatisfactory, BHEL may deploy unskilled, semi-skilled, skilled operators, Technicians and other required manpower and will assist in improving the progress. All the expenses incurred for, will be recovered from Contractor's bills with overheads.
3. It is obligatory on the part of the Contractor to give daily feed back on progress of erection.

3.1.22 PAYMENTS FOR WORK COMPLETED:

- 1.The Tenderer shall quote separate rates per metric tonne for each of the categories of work in the rate schedule appended. No eraser should be used and no overwriting is acceptable.
- 2.The Contractor shall submit his running bills for erection work. The Contractor shall submit his running bills once in a month before end of each month.
- 3.Subject to any deduction which BHEL may be authorized to make under the contract, the Contractor shall on the certificate of the Engineer at site, be entitled for payment as explained in the payment terms.
- 4.FOR MECHANICAL ERECTION (includes fabrication) :
 - i. 35% of contract rate on prorata basis on completion of erection.
 - ii. 50% of the contract rate on prorata basis after alignment / fastening / welding / grouting along with supports are completed.
- 5.PAINTING WORK & MANPOWER SUPPLY::

95% of contract rate on prorata basis progressively when the work is completed as per BHEL's instructions.
- 6.Further 10% of payment for items 4 shall be released as indicated below:
 - a. Further 5% of the contract rate shall be paid on completion of mechanical erection of all the items put together and after completion of air-in leakage test, air-gas tightness test, trial runs of equipment including electrical items and the Unit is ready for commissioning and painting.
 - b. Further 5% of the contract rate shall be paid when the entire equipment is commissioned and Gas Distribution test is conducted to the satisfaction of BHEL and their client.
7. The balance 5% of the contract value for items 4 and 5 shall be paid after the guarantee period of 12 months. The guarantee period will commence from the date of handing over of unit to customer or six months after the date of successful completion of trial run, whichever is earlier, provided all erection, testing and commissioning works are completed in all respects.

However this 5% amount can be released against bank guarantee valid for 12 months as aforesaid in the prescribed proforma of BHEL.

8. The balance 5% of the contract value for item 6 shall be paid on completion of entire painting work.

3.2 SPECIAL REQUIREMENTS

- 3.2.1** The entire work of erection testing and commissioning of the RWTP shall be completed within the time specified in the time schedule.
- 3.2.2** The contractor has to indicate their ability in completing the contract in all respects shorter than the period mentioned in the time schedule.
- 3.2.3** As time is the essence of this contract, the contractor shall be able to mobilize his manpower round the clock for the entire period to complete the work within the stipulated time.
- 3.2.4** The contractor should be able to mobilize all the tools, plants and consumables necessary for three shifts operation to meet the requirements.

3.3 IMPORTANT GENERAL & SPECIAL CONDITIONS OF CONTRACT :

3.3.1 RETURN OF SECURITY DEPOSIT:

If the contractor fully performs and completes the work in all respects to the entire satisfaction of BHEL and their client and presents an absolute “No Demand Certificate” in the prescribed form and returns properties belonging to BHEL, handed over / lent to them for carrying out the said works, security deposit will be released to the contractor after deducting all the cost of expenses, if any, under other contracts entered in to with the contractor. It may be noted that in no case the security deposit shall be refunded /released prior to passing of the final bill.

3.3.2 IDLE LABOUR

If the contractor suffers delay in the due execution of the contractual obligation due to delays caused by FORCE MAJEURE conditions, the agreed time of completion of the contract shall be extended by a period of time equal to the period of delay provided that on the occurrence of any such contingency, the contractor immediately reports to BHEL in writing about the causes of delay. The contractor shall not be eligible for any other compensation.

3.4 RIGHTS OF BHEL IN CASE OF POOR PROGRESS OF WORK:

To get the work done through other agencies at the risk and cost of the contractor, in the event of contractor's poor progress or inability to execute work, persistent disregard to instructions of BHEL, assignment transfer, subletting of contract without the permission of BHEL, non-fulfillment of any contractual obligation etc., and to recover compensation for such losses from the contractor including BHEL's supervision charges and overheads from the security deposit / other dues.

SECTION - IV

4.1 Scope of Contract

The intent of this specification is to provide services for execution of projects according to most modern and proven techniques and codes. The omission of specific reference to any method, equipment or material necessary for the proper and efficient services towards the work allotted shall not relieve the contractor of the responsibility of providing such services/facilities to complete the project or portion of project awarded to him. The quoted rate shall deem to be inclusive of all such contingencies.

- 4.1.2 The contractor shall carry out the work in accordance with instructions/drawings/specification standard practices supplied by BHEL from time to time.
- 4.1.3 Provision of all types of labour, supervisors, Stores staff, watch and ward as required, tools and tackles, consumables as specified under various clauses of Tender Specification for unloading, erection, testing and commissioning and dismantling of existing structures.
- 4.1.4 Proper out turn as per BHEL plan and commitment.
- 4.1.5 Completion of work in time.
- 4.1.6 Good quality and accurate workmanship for proper performance of equipment.
- 4.1.7 Repair and rectification.
- 4.1.8 Re-conservation/preservation of all components.
- 4.1.9 Comprehensive Reporting on the progress of the Work on daily basis, attending review meetings with BHEL to monitor and speed up the work and taking steps as directed to speed up the work/ improve the Quality and Safety of the Work.

4.2 FACILITIES TO BE PROVIDED AND DEVELOPED BY THE TENDERER AT HIS COST

- 4.2.1 It shall be the responsibility of the contractor to construct his own office shed, stores shed, labour tenements, with all facilities like electricity, water supply, sanitary arrangements in the area allotted to him for the purpose.
- 4.2.2 Distribution of water for construction purposes and as well as drinking purpose ~~from the single point provided by BHEL~~ to various works fronts shall be the Contractor's responsibility and at his cost.
- 4.2.3 ~~Necessary meters for recording consumption of water and power for cost analysis purpose and maintenance of the same during execution period shall be Contractor's responsibility.~~
- 4.2.4 Distribution of electrical power from the contractors DG set to the required places with proper distribution boards, approved cable laying, including supply of all materials like cables, switch boards, pipes, etc., observing the safety rules laid down by the Electricity Authority of the State/BHEL/their customer shall be the responsibility of the tenderer /contractor.
- 4.2.5 ~~As there are bound to be interruptions in regular power supply, power cut/load shedding in any construction site due to inherent power shortage in State on this account, suitable extension of time only be given and contractor is not entitled for any compensation. Such interruptions should be intimated to BHEL by the contractor timely~~ It shall be the responsibility of the

contractor to have at least a few diesel operated welding generator sets to get urgent and important work done with out interruption.

- 4.2.6** Adequate lighting facilities such as flood lamps, 24V Safety lamps and area flood lighting shall be arranged by the Contractor at the site of constructions, pre-assembly area, Contractor's material storage area and at access roads etc., at his cost.
- 4.2.7** For the purpose of Planning, Contractor shall furnish along with tender, the estimated requirement of power (month wise) for execution of work in terms of maximum KW demand.
- 4.2.8** On completion of work, all the temporary buildings, structures, pipelines, cables etc. shall be dismantled and leveled and debris shall be removed as per instruction of BHEL by the contractor at his cost. In the event of his failure to do so, the same will be arranged to be removed and expenditure therefore will be recovered from the Contractor. The decision of BHEL Engineer in this regard is final.
- 4.2.9** The Contractor shall provide all materials required for scaffolding, form work and centering wherever necessary for erection should arrange at his cost.
- 4.2.10** Depending upon the nature of work and availability of facilities locally, Contractor may have to arrange for a temporary work-shop for facilitating uninterrupted progress of work.
- 4.2.11** The contractor shall secure and maintain comprehensive including third party insurance for appropriate amount to protect your and our interest against all risk and claims to the men/women or for labour force. If failure in securing the insurance policies in this regard shall not absolve you from reimbursing to us for any loss / damages / injuries or death to any person.
- 4.2.12** The contractor shall be fully responsible for obtaining labour licence/approval if any, from State/Central/Local authorities at his own cost and risk.
- 4.2.13** It is the responsibility of contractor to obtain approval from statutory authorities like pollution control board, Factory Inspectorate etc., if necessary.

4.3 GASES

- 4.3.1** All required gases like oxygen / Acetylene / LPG for the work shall be supplied by the Contractor at his cost. It shall be the responsibility of the Contractor to plan the activities and store sufficient quantity of these gases Non-availability of gases cannot be considered as reason for not attending the required progress.
- 4.3.2** In case of improper arrangement of above gases, BHEL reserves the right to procure the same from any source and recover the cost from the Contractor's bill at market value plus BHEL departmental charges as may be fixed from time to time and postponement of recoveries is not permissible. The decision of BHEL Engineer in this regard is final and binding on the Contractor.
- 4.3.3** BHEL reserves the right to reject the use of any gas in case the required purity is not maintained.
- 4.3.4** The Contractor shall submit Weekly / fortnightly / monthly statements / reports regarding consumption of above gases for cost analysis programme.
- 4.3.1** The Contractor shall ensure safekeeping of the inflammable cylinders at separate place away from normal habit with proper security etc.

4.4 WELDING ELECTRODES

- 4.4.1** All the electrodes required shall be arranged by Contractor at his cost. It shall be the responsibility of the Contractor to obtain prior approval of BHEL before procurement, regarding suppliers, type of electrodes etc. On receipt of the electrodes at site, it shall be subjected to inspection and approval of BHEL. The Contractor shall inform BHEL, the details regarding type of electrode, batch number, date of expiry etc.
- 4.4.2** Storage of electrode shall be done in an air-conditioned / controlled humidity room as per requirement.
- 4.4.3** Shortage of any of the electrodes for the equipment suggested by BHEL shall not be quoted as reason for deficiency in progress or for additional rate.
- 4.4.4** BHEL reserves the right to reject the use of any electrodes at any stage, if found defective because of bad quality, improper storage, quality, date of expiry, unapproved type of electrodes etc. It shall be the responsibility of the Contractor to replace at his cost with out loss of time.
- 4.4.5** All electrodes shall be dried in the electrodes drying oven to the temperature and period specified by BHEL Engineer before they are used for erection work. Electrode drying ovens shall be provided by the contractor.
- 4.4.6** In case of improper arrangement for procurement of above electrodes, BHEL reserves the right to procure the same from any source and recover the cost from the Contractor's first subsequent bills at market value plus the departmental charges of BHEL communicated from time to time. Postponement of such recovery is not permitted.
- 4.4.7** Contractor shall submit weekly / fortnightly / monthly statement / reports regarding consumption of electrodes of all types for cost analysis purpose.

4.5 CRANE AND OTHER TOOLS AND TACKLES

- 4.5.1** All the T&P including Cranes, trucks, Lorries, tractors, trailers etc required for the satisfactory execution of work shall be arranged by the Contractor. BHEL will not arrange any Tools and Plants.
- 4.5.2** All the T&P arranged by the Contractor including electrical connection wherein required shall be reliable / proven tested with necessary test certificate.
- 4.5.3** All the T&P, lifting tackles including wire ropes, slings, shackles and electrically operated equipments arranged by Contractor shall be got approved by BHEL Engineer before they are actually put on use.
- 4.5.4** Civil works required for safe and efficient operation of tools and tackles shall be the Contractor's responsibility.
- 4.5.5** Contractor shall take into consideration the above clauses and quote the rates as called for in the rare Schedule.

4.6 SUPERVISORY STAFF AND WORKMEN

- 4.6.1** The Contractor shall supply all skilled workmen like welders, gas cutters, riggers, erectors, carpenters, fitters, electricians etc., in addition to other skilled, semi-skilled, unskilled workmen required for all the works of receipt, material handling, transportation, erection, testing and commissioning & dismantling contemplated under this specification. Only fully trained and competent men with previous experience in the job shall be employed. They shall

hold certificates wherever necessary. BHEL reserves the right to decide on the suitability of the workers and other personnel who will be employed by the contractor. BHEL reserves the right to insist or removal of any employee of the Contractor shall for with remove him.

- 4.6.2** The supervisory staff employed by the Contractor shall ensure proper out-turn of work and discipline on the part of the labour put on the job by Contractor and in general see that the works are carried out in a safe and proper manner and in co-ordination with other labour and staff employed directly by BHEL or other contractors of BHEL or BHEL'S client.
- 4.6.3** The contractor shall also furnish daily labour report showing by classification the number of employees engaged in various categories of work and a progress report of work as required by BHEL Engineer.
- 4.6.4** The work shall be executed under the usual conditions affecting major power plant constructions and in conjunction with numerous other operations at site. The Contractor and his personnel shall co-operate with other personnel and proceed in a manner that shall not delay or hinder the progress of work as a whole.
- 4.6.5** The Contractor's supervisory staff shall execute the work in the most substantial and work man like manner in the stipulated time Accuracy of work and aesthetic finish are essential part of this contract. The contractor shall be responsible to ensure that assembly and workmanship confirm to the dimensions and tolerances given in the drawings/instructions given by BHEL Engineers, from time to time.
- 4.6.6** The Contractor shall employ necessary number of qualified and approved full time electricians at his cost to maintain his temporary electrical installation till the completion of work.
- 4.6.7** It is the responsibility of the Contractor to engage his workmen in shifts or on over time basis for achieving the target set by BHEL and also during the period of commissioning and testing The Contractor's quoted rate shall include all these contingencies.
- 4.6.8** In case Contractor's progress is found unsatisfactory BHEL may deploy fitters, welders, operators and technicians on BHEL rates and will assist in improving the progress. All expenses incurred for will be recovered from Contractor's bill.
- 4.6.9** If the Contractor or his workmen or employees shall break, deface, injure or destroy any part of building, road kerb, fence, enclosure, water pipes, cables, drains, electric or telephone posts or wires, trees or any other property or to any part of erected components etc., the Contractor shall make the same good at his own expense or in default, BHEL may cause the same to be made good by other workmen or by other means and deduct the expenses (of which BHEL'S decision is final) from any money due from the Contractor.

4.7 CIVIL WORKS

- 4.7.1** Column foundation and foundation for other plants, control room building and necessary civil works shall be provided by BHEL. The dimensions of the foundation and anchor bolt pitches shall be checked by the Contractor for their correctness as per drawings. (Further, top elevation of foundations shall be checked with respect to benchmark, etc. All minor adjustments of foundation level, dressing and chipping of foundation, up to 40mm surfaces, enlarging the pockets in foundations etc., as may be required for the erection of equipment/plants shall be carried out by the Contractor. All materials like cement, steel etc., shall also be arranged by the Contractor.

- 4.7.2 Any civil works required for safe and efficient operation of tools and tackles issued by BHEL like grouting/excavation casting of foundation for anchor points for derricks, winches etc., and any other temporary supports shall be the Contractor's responsibility.
- 4.7.3 The Contractor shall ensure perfect matching of packer plates with foundation by dressing the foundation and between the packer plates and the base plates of structural column/equipment to the satisfaction of BHEL Engineer.
- 4.7.4 Grouting of column base plates/equipments foundation box and base plates shall be carried out by BHEL.
- 4.7.5 The contractor shall satisfy himself regarding the correctness of the civil works, foundation, etc., so that the equipment erected by him shall not suffer due to any defects in the above. For this purpose, he should also visit site during the progress of civil construction works, if necessary, to ensure that the civil work is carried out as per his requirements.

4.8 Scope of material handling

- 4.8.1 While BHEL will endeavor to store/stack/identify materials properly in their open/closed storage yard/shed, it shall be Contractor's responsibility to assist BHEL in identifying materials well in time for erection, taking delivery of the same, following the procedure indicated by BHEL and transport the materials safely to pre-assembly yard, erection site in time, according to programme.
- 4.8.2 The Contractor shall identify necessary supervisor/labour for the above work in sufficient quantity as may be needed by BHEL for areas covering their scope.
- 4.8.3 It shall be the Contractor's responsibility to arrange for necessary crane/tractor/trailor or trucks/slings/tools and tackles /labour/including operators for loading from storage yard on to transport equipment, move it to erection site/pre-assembly yard and unload the same at pre-assembly yard/erection site and to erect the RWTP and the quoted rate shall include the same. Tenderers may please note that the storage yards are at an approximate distance of 5.0.km from erection site.
- 4.8.4 All equipments so used by Contractor shall be of proven quality and safe in operation as approved by BHEL Site Engineer's from time to time.
- 4.8.5 Any loss/damage to materials issued to Contractor shall be made good by him or BHEL will arrange for replacement at cost recovery basis and decision of BHEL shall be final.
- 4.8.6 The Contractor shall take delivery of components and equipment and special consumables from storage area after getting the approval of BHEL Engineer on standard indent forms.
- 4.8.7 In the event of Contractor's inability to arrange in time any of the above equipment/T&P etc., if possible BHEL shall provide the same on specific written request from the Contractor subject to the availability of equipment on the normal hire charges of BHEL, applicable from time to time and recoverable from Contractor's subsequent month's running bills.
- 4.8.8 All surplus, damaged unused materials, package materials/containers, special transporting frames, gunny bags etc. supplied by BHEL shall be returned to BHEL Stores by Contractor.
- 4.8.9 The Contractor shall have total responsibility for all equipment and materials in his custody, stores, loose, semi-assembled, assembled or erected by him at Site.

- 4.8.10 The Contractor shall make suitable security arrangements (round the clock) including employment of security personnel to ensure the protection of all materials/equipments and works from theft fire, pilferage and any other damage and loss at Site.
- 4.8.11 The Contractor shall ensure that all the packing materials and protection devices used for the various equipments during transit and storage are removed before these equipments are installed.
- 4.8.12 All equipments shall be handled very carefully to prevent any damage or loss. No bars, wire ropes, slings etc., shall be used for unloading and/or handling of the equipments without the specific written permission of the Engineer. The equipment from the storage yard shall be moved to the actual site of erection/location at the appropriate time as per the direction of BHEL Engineer so as to avoid damage for such equipment at Site.
- 4.8.13 The Contractor shall take all reasonable care to protect the materials and work till such time the erected equipment has been taken-over by BHEL/their client. Whenever necessary suitable temporary fencing and lighting shall have to be provided by the Contractor as a safety measure against accident and damage of property of BHEL, suitable caution notices shall be displayed where access to any part may be deemed to be unsafe and hazardous.
- 4.8.14 The Contractor shall be responsible for taking all safety precautions during the constructions and leaving the site safe at the end of each working day and at all times. When the work is temporarily suspended, he shall protect all construction materials, equipments and facilities from causing damage to existing property interfering with the operation of the station when it goes into service. The contractor shall comply with all applicable provisions of the safety regulations, clean up programme and other precautionary measures, which the BHEL has in effect at the Site.
- 4.8.15 All lifting tackles including wire ropes, slings, shackles etc., used by the Contractor shall be got approved by BHEL Engineer at Site before they are actually put on the work.
- 4.8.16 The Contractor shall take delivery of equipment from storage yard/stores/sheds. He shall also make arrangements for verification of equipment, scrupulously maintain records and keep safe custody, watch and ward of equipment after it has been handed over to him till these are fully erected and tested and commissioned and taken over by BHEL's client. The stolen/lost/damaged good shall have to be made good by the contractor at his own cost.

4.9 Preservation of Components

- 4.9.1** In order to maintain the surfaces of various components from rusting etc., frequent painting/re-painting of material at storage yard has to be carried out. While BHEL will arrange for supply of paint/thinner etc., it shall be responsibility of Tenderer/Contractor to provide sufficient number of unskilled category of labour for carrying out the preservative painting. The number of labour to be supplied will depend on the quantum of work awarded.
- 4.9.2** The above-referred labour will be given by the Contractor right through the contract period without fail and any failure on their part will entail in reduction of value of their running bills.
- 4.9.3** It shall be the responsibility of the Contractor to apply preservative painting on equipments erected by him till such time of final painting. All paints and thinner will be supplied by CONTRACTOR and it shall be Contractor's responsibility to arrange for required labour, scaffolding materials, providing of scaffoldings, supply of cleaning materials like wire brush, emery sheets, etc., cleaning of surface and provide one coat of preservative painting from time to time as decided by BHEL Engineer. The quoted rate shall include this work also. It is to be noted that such painting may have to be done twice a year till such time the final painting is carried out.

4.9.4 The Contractor shall effectively protect the finished work from action of weather and from damage or defacement and shall cover the finished parts then and there for their protection.

4.9.5 Any failure on the part of Contractor to carry out works according to above clauses will entail BHEL c\to carry out the job from any other party and recover the cost from the Contractor.

4.10 DRAWING AND DOCUMENTS:

4.10.1 The detailed drawings, specifications, available with BHEL Engineers will form part of this Tender Specification These documents will be made available to the Contractor during execution of work at site.

4.10.2 One set of necessary drawings to carry out the erection work will be furnished to the Contractor by BHEL on loan, which shall be returned to BHEL Engineer at Site after completion of work. Contractor's personnel shall take care of these documents given to them.

4.10.3 Should any error ambiguity be found in the specification or information, the Contractor shall for with bring the same to the notice of BHEL before commencement of work BHEL's interpretation in such cases shall be final and binding on the Contractor.

4.10.4 The data furnished in various appendices and the drawings enclosed with this tender specification describes the equipment to be installed, tested and commissioned under this specification briefly. However, the changes in the design and in the quality may be expected to occur as is usual in any such large scales of work.

4.10.5 Deviation from design dimensions should not exceed permissible limit. The Contractor shall not correct or alter any dimension/details, without specific approval of BHEL.

4.11 SITE CLEANLINESS AND SAFETY REQUIREMENTS:

4.11.1 During the course of construction, alternation or repairs, scrap lumber with protruding nails, sharp edges etc., and all other debris shall be kept cleared from working areas, passageways and stairs in and around Site. Proper house keeping is the responsibility of the Contractor.

4.11.2 Combustible scrap and debris shall be removed at regular intervals during the course of construction. Safe means shall be provided by the Contractor to facilitate such removal. If this is not done regularly, BHEL will get the job done and debit the cost to Contractor.

4.11.3 Rigging equipments for material handling shall be inspected prior to use of each shift and as necessary during its use to ensure that it is safe. Defective rigging equipment shall be removed from service. Necessary test certificates have to be provided by the Contractor for the rigging and handling equipments brought by them. Otherwise this will be got to be done by BHEL and the cost will be debited to Contractor.

4.11.4 Rigging equipment shall not be loaded in excess of its recommended safe working load.

4.11.5 Rigging equipment when not in use shall be removed from the immediate work area so as not to present a hazard to employees.

4.11.6 The Contractor will notify the Engineer his intention to bring on to site any equipment or any container with liquid or gaseous fuel or other substance which may create a hazard. The Engineer shall have the right to prescribe the conditions under which such equipment or container may be handled and used during the performance of the works and the Contractor shall strictly adhere to such instructions. BHEL Engineers shall have the right to inspect any

construction plant and to forbid its use, if in his opinion it is unsafe. No claim due to such prohibition shall be entertained.

- 4.11.7** Where it necessary to provide and/or store petroleum products or petroleum mixture and explosives, the Contractor shall be responsible for carrying out such provision and/or storage in accordance with the rules and regulations laid down in the relevant petroleum Act., Explosive Act and Petroleum and Carbide of Calcium Manual, published by the Chief Inspectorate of Explosives of India. All such storage shall have prior approvals of BHEL Engineer. In case any approvals are necessary from the Chief Inspector of Explosives of any other statutory Authorities, the Contractor shall be responsible for obtaining the same.
- 4.11.8** Valve protection caps shall be in place and secured.
- 4.11.9** Cylinders shall be moved by tilting and rolling them on their bottom edges. They shall not be intentionally dropped, struck or permitted to strike each other violently.
- 4.11.10** When cylinders are transported by powered vehicles, they shall be secured in vertical position.
- 4.11.11** All the hand lamps used by the contractors workmen shall be of 24V only. Adequate step down transformers should be installed at site to cater to the complete requirement. (230V hand lamps should not be used).
- 4.11.12** All workmen of the Contractor working in construction areas shall wear safety shoes, safety helmets, & safety belt (with double harness - when working at heights). Contractor shall insure his workmen against all accidents, and the policy shall be presented to BHEL. In case of failure to do so BHEL will arrange the same and the expenditure towards this will be debited to the Contractor including BHEL overheads. In case the Contractor fails to provide necessary safety equipments to workmen, BHEL will provide the same to the workers and recover the cost of equipment along with BHEL overheads.
- 4.11.13** All the above safety conditions are not exhaustive but gives an idea for the Contractor and the Contractor shall adhere to all the safety precautions given by the BHEL Engineer at Site. Such of those workmen who do not follow safety precautions shall be turned out from Site. They will not be allowed to work until they fulfill safety regulations.
- 4.11.14** Contractor shall arrange at his cost suitable flood lighting arrangement at various levels for safe and proper working operations during night hours at the work spot as well as at the pre-assembly area.
- 4.11.15** The Contractor shall be responsible for provision of all the safety notices and safety equipments as enjoined on him by the application of relevant statutory regulations/provisions and/or as called upon by the BHEL Engineer and their client from time to time.
- 4.11.16** The Contractor shall provide temporary fencing wherever required as a safety measure against accident and damage to properties. Suitable caution notices shall be displayed where access to any part is found to be unsafe and hazardous.
- 4.11.17** The Contractor shall ensure the safety of all the workmen, material and equipments either belonging to him or to others working at site.
- 4.11.18** It will be the responsibility of the Contractor to ensure safe lifting of the equipments, taking due precaution to avoid any accidents and damages to other equipments and personnel.
- 4.11.19** The Contractor shall provide necessary first aid facilities for all his employees, representatives and workmen working at Site.

- 4.11.20** All the Contractor's Supervisory personnel and sufficient number of workers shall be trained for fire fighting and shall be assigned specific fire protection duties. Enough number of such trained personnel must be available during the tenure of the Contract. Contractor should nominate one of his supervisors to co-ordinate and for implementation of safety measure.
- 4.11.21** Contractor shall provide enough fire fighting equipment of the types and numbers at his office, temporary structures, labour colony area etc. Access to such fire fighting equipment shall be easy and kept open at all times. Compliance of the above requirement under fire protection shall in no way relieve the Contractor of any of his responsibilities and liabilities to fire accident occurring.
- 4.11.22** The Contractor shall at his cost remove from the vicinity of work, all scrap packing materials rubbish unused and other materials and deposit them in places specified by BHEL engineer to keep the work Site clean and tidy.
- 4.11.23** For this purpose the mechanical completion of erection work shall be deemed to be completed in all respects only when the trial runs of motors and gas tightness tests are completed and certified so by BHEL Engineer. The decision of BHEL in this respect shall be final and binding on the contractor.
- 4.11.24** The commissioning of the unit shall be deemed to be completed in all respects only when all the equipments are tested and commissioned and the Unit is ready for commercial operation.

4.12 PRICE ESCALATION:

- 4.12.1** The Contractor has to keep his quoted rates firm for the entire contractual period including total extended period, if any, and no claim for revision of rates is allowed under any circumstances.
- 4.12.2** However, the Contractor shall maintain sufficient work force and other resources required for completion of the job expeditiously for the entire contractual period including total extended period.
- 4.12.3** In case due to unforeseen circumstances and due to reasons not attributable to the Contractor, the work gets delayed and completion time gets extended as per Bar Chart from the date of actual start of work at Site, the Contractor shall not be entitled for any over run compensation for a period of first 3 months after the Contractual completion date. However, the contractor shall be paid over run charges for extension in the completion period beyond 3 months as stated above and for reasons not attributable to the Contractor. This shall be mutually discussed and settled at that time.

SPECIAL CONDITIONS OF CONTRACT SECTION - V

5.0 EXTRA CHARGES FOR MODIFICATION AND RECTIFICATION WORKS:

- 5.1 BHEL may consider payment for extra works on man-hour basis for such of those works which require major modification of the supplied components which is totally unusual to normal revamping / erection / commissioning work and which are not due to contractor's faulty erection.
- 5.2 The decision of BHEL in this regard shall be final and binding on the contractor. The contractor may submit his work claim bills (specifically agreed by BHEL Engineer) along with the labour sheets duly certified by BHEL Engineer at site. But BHEL may opt to get those work done through other agencies if they so desire.
- 5.3 All the extra works, if any, carried out should be done by a separate gang which should be identified prior to start of work for certification of man-hours. Daily labour sheets should be maintained and should be signed by the contractor's representative and BHEL Engineer. Signing of labour sheets does not necessarily mean the acceptance of extra works. Only those works which are identified as not usual to normal revamping / erection and certified so by the Site-in-Charge of BHEL and accepted by designers/supplier's competent authority only will be considered for payment. The decision of BHEL in this regard shall be final and binding on the contractor.
- 5.4 Average single manhour rate including overtime if any, supervision, use of tools and tackles and other site expenses and incidentals, **including consumables, if any required**, for carrying out any rework / rectification that may arise during the course of revamping shall be **Rs. 60/- per man hour.**
- 5.5 Extra works are broadly defined as below:
- i) Design changes which will be intimated to the contractor after the start of the work which call for dismantling of the erected components, rectification, modification, etc.
 - ii) Repair / rectification of the components damaged during transit and intimated to BHEL before drawing the materials from BHEL stores.
 - iii) Modification, rectification of components wrongly manufactured/fabricated at works subject to acceptance of the approving authority. Any such modification work costing less than 48 Man Hours per work of a DU shall be considered as incidental to erection and shall not be considered for payment.
 - iv) Jobs which require major modification, major repair, major reworks etc. which will be identified as major and warrant extra payment, certified as such by the Site-in-Charge of BHEL and accepted by the designers/competent authority of BHEL. The decision of BHEL in this regard shall be final and binding on the contractor.
 - v) The composite labour man hour rate towards extra works shall remain firm and not subject to any variation during execution of work. Price variation compensation (PVC), if any will not be applicable for extra works. Rate revision, Over-run charges / compensation etc. will not be applicable due to extra works.

~~~~~

## SPECIAL CONDITIONS OF CONTRACT

### SECTION – VI

#### 6.0 **OVER-RUN COMPENSATION (ORC) :**

- 6.1 In case due to reasons not attributable to the contractor, the work gets delayed and the completion gets extended beyond the contract completion date by more than the grace period of 3 months, the contractor shall be paid Over Run Compensation for every month of extended period so determined by BHEL beyond the contract completion date (and the grace period) indicated in this specification.
- 6.2 ORC will be paid only at the end of the contract period, including extension/s of period if any, after ascertaining the actual period of eligibility of delay as aforesaid. For this purpose, the contractor shall submit details of factors with time estimates which accounted for the delay in work completion.
- 6.3 All decisions of BHEL in this regard shall be final and binding on the contractor. The period to be considered for ORC shall not include loss of time due to Force-majeure conditions explained in this tender.
- 6.4 The ORC shall be paid by BHEL only after completion of all works within the scope of the works awarded to the Bidder. Hence, it is obligatory on the part of the Bidder to complete the works during extended period also.
- 6.5 This supplements the clause 5.12 of Special conditions of Contract for Mechanical works - V enclosed along with this tender specification.
- 6.6 The rate of ORC payable per month shall be Rs.55,000/- only . It is mandatory on the part of the contractor to maintain a minimum of 06 workmen during the ORC period. The total Over-run compensation shall be limited to 5% of the executed contract value, as certified in the Final Bill. For this purpose executed contract value excludes Price variation compensation (PVC), ORC, Supplementary / Additional items and Extra works done on manday/hr rate basis. The total eligibility period will be determined by BHEL.

~~~~~

SPECIAL CONDITIONS OF CONTRACT

SECTION – VII

7.0 GENERAL TERMS AND CONDITIONS OF REVERSE AUCTION

- 7.1 For the proposed reverse auction, technically and commercially acceptable bidders only shall be eligible to participate.
- 7.2 Those bidders who have given their acceptance for reverse auction (quoted against this tender enquiry) will have to necessarily submit online sealed bid in the reverse auction. Non-submission of online sealed bid by the bidder for any of the eligible items for which techno-commercially qualified will be considered as tampering of the tender process and will invite action by BHEL as per extent guidelines in vogue.
- 7.3 **In case BHEL decides to go for reverse auction, the H1 bidder (which quote is highest in online sealed bid) may not be allowed to participate in further reverse auction process.**
- 7.4 BHEL will engage the services of a service provider who will provide all necessary training and assistance before commencement of on line bidding on Internet.
- 7.5 In case of reverse auction, BHEL will inform the bidders the details of service provider to enable them to contact and get trained.
- 7.6 Business rules like event date, time, start price, bid decrement, extensions, etc. also will be communicated through service provider for compliance.
- 7.7 Bidder have to fax the compliance form in the prescribed format (provided by service provider) before start of Reverse auction. Without this the bidder will not be eligible to participate in the event.
- 7.8 BHEL will provide the rate schedule (e.g. EXCEL sheet) for the vendor to enable them to fill-in the price and keep it ready for keying in during the auction. In the event of discrepancy in rate and amount against any item of work, the least of the two will be taken for bid price. In case of discrepancy between the total price indicated in price bid and the arithmetic sum arrived based on rate quoted, then also the least of the two will be taken for the bid price. The bids are compared on the total price quoted and NOT on individual ITEM of works.
- 7.9 Reverse auction will be conducted on scheduled date & time.
- 7.10 At the end of reverse auction event, the lowest bidder value will be known on the auction portal.
- 7.11 The lowest bidder has to fax or email the duly signed and filled-in prescribed format for price break-up including that of line items, if required, as provided on case-to-case basis to BHEL through Service provider within two working days of auction without fail.
- 7.12 Opening bid in reverse Auction: The opening bid (in the reverse Auction) of the bidders shall be same as that quoted in their final sealed price submitted to BHEL (along with Technical offer). The bidder shall confirm in writing to BHEL that their opening bid (in reverse auction) shall be same as that quoted in their final sealed price bids submitted to BHEL against this NIT along with Technical Bid (Patr-1). If any bidder offered a unsolicited discount or rebate, in separate cover etc. in any place other than the sealed price bid, then the opening price bid in reverse auction, by such a bidder in Reverse Auction, shall be the price offered in final sealed

price bid submitted (against this NIT) minus discount offered in any place other than the sealed price bid.

- 7.13 BHEL reserves the right to cancel Reverse Auction (RA) without assigning any reasons and resort to considering the sealed bids submitted by vendor for processing and finalizing the tender.
- 7.14 In case the process of reverse auction is found unsuccessful by BHEL, then BHEL at its discretion may decide to call the L1 bidder of reverse auction for further negotiation.
- 7.15 Any variation between the on-line bid value and signed document will be considered as sabotaging the tender process and will invite disqualification of vender to conduct business with BHEL as per prevailing procedure.
- 7.16 In case BHEL decides not to go for Reverse auction procedure for this tender enquiry, the Price Bids and price impacts, if any already submitted and available with BHEL shall be opened as per BHEL's standard practice.
- 7.17 The bidders shall be required to read the Terms & Conditions section of the auction site of service provider, using the login id and password given to them by the service provider before reverse auction event. Bidders should acquaint themselves of the business rules of the reverse auction, which will be communicated before the reverse auction.
- 7.18 If the bidder or any of his representatives are found to be involved in price manipulation / cartel formation of any kind, directly or indirectly by communicating with other bidders, action as per extant BHEL guidelines shall be initiated by BHEL and the result of the RA scraped / aborted.
- 7.19 The bidder shall not divulge either his / her bids or any other exclusive details of BHEL to any other party.
- 7.20 Only those vendors, who participate in the Online Initial Opening Bid, will be eligible to participate in the subsequent Online English Reverse Auction.
- 7.21 Price bids offered by the bidders during reverse auction process is considered as an offer to execute the work. Bids once made by a bidder cannot be cancelled/withdrawn and bidders shall be bound to execute the work at the final bid price. BHEL shall take appropriate action if the bidder fails to do so.

CHECK LIST

Bidders are required to fill in the following details:

- | | |
|---|-------------------|
| 1. a. Name of the Bidder | : |
| With address,
Phone No., Mobile No., Fax and e-mail. | |
| b. Nature of Firm | : |
| 2. Whether EMD submitted as per tender
Specification Terms and conditions | : YES / NO |
| 3. Validity of offer (offer shall be kept valid for
acceptance for a period of minimum 6 months) | : YES / NO |
| 4. Whether Bidder visited the erection Site and
acquainted with Site Conditions before quoting | : YES / NO |
| 5. Whether the following details are furnished. | |
| a. Previous Experience – Photocopies as in QR | : YES / NO |
| b. Present assignments | : YES / NO |
| c. Organization chart of the Company | : YES / NO |
| d. Financial status of the Company | : YES / NO |
| e. In case of Company, proof of
registration of the Company | : YES / NO |
| f. Memorandum and Articles of Association of
Company / copy of Partnership Deed. | : YES / NO |
| g. Profit and Loss Account For the last three Years | : YES / NO |
| h. Balance sheet for the last three years | : YES / NO |
| i. Income Tax clearance Certificates | : YES / NO |
| j. Solvency Certificate from a Nationalized Bank | : YES / NO |
| k. Power of Attorney of the person signing the tender
duly attested by a Notary Public | : YES / NO |

- l. Names and addresses of Directors, Partners their Experience and qualification : YES / NO**
- m. Manpower Organization chart and Tools list with deployment plan at Site for satisfactory completion of work under this specification : YES / NO**
- n. EPF registration No. (with a copy of certificate) : YES / NO**
- o. Service Tax registration No. (with a copy of certificate) : YES / NO**
- p. E- payment acceptance as per appendix. : YES / NO**
- q. Rate schedule as per the schedule appended : YES / NO**
- 6. Whether the Bidder is conversant with local labour laws and conditions : YES / NO**
- 7. Whether the Bidder is aware of all safety Rules and codes. : YES / NO**
- 8. Whether the declaration sheet (as per appendix enclosed) filled : YES / NO**
- 9. Whether the erection schedule (as per appendix enclosed) furnished : YES / NO**
- 10. Whether all the pages are read, understood and signed : YES / NO**

SIGNATURE OF BIDDER

NOTE : The Bidders are requested to peruse the Tender Specification terms and conditions carefully and furnish the above information also in detail as required.

OFFER OF THE BIDDER
(FORMAT - To be typed written in LETTER HEAD and submitted along with offer)

To

The Dy. General Manager
 Erection Services Dept,
 Bharat Heavy Electricals Limited,
 Boiler Auxiliaries Plant,
 Indira Gandhi Industrial Complex,
 RANIPET –632 406. (TAMIL NADU).

Sir,

I/We hereby offer to carry out the work detailed in the Tender Specification No. BAP : ERN : OPAL : RWTP: MECH : C : 241 issued by M/s. Bharat Heavy Electricals Limited, Boiler Auxiliaries Plant, Ranipet in accordance with the terms and conditions thereof:

I/ we have carefully pursued the following documents connected with the above work and agree to abide by the same. We herewith confirm that we have visited the site of work at NSPCL, Rourkela.

- a. General terms and conditions of work (ES: F:010)
- b. Statutory requirement of Contract (ES: F:009)
- c. Special conditions of Contract for Mechanical works (BAP:ERN:SPN:MECH:RWTP:01)
- d. Tender Specification no. : BAP: ERN : OPAL : RWTP: MECH : C : 241
- e. Special Instructions to Bidder
- f. General terms and conditions of Reverse Auction.
- h. Other sections, appendices, annexure, schedules and drawing.

I/We have deposited / forwarded herewith the Earnest Money Deposit in the form prescribed and as stipulated in Clause No.1.4. of the General Conditions of Contract for Works towards the Earnest Money Deposit for a sum of **Rs.60,000/- (Rupees Sixty Thousand only)** vide Pay Order No.....Dt..... 2014 / Demand Draft No.....dt..... 2014 which shall be refunded should our offer not be accepted. Should our offer be accepted, I/We further agree to deposit such additional sum, within the stipulated time as may be indicated by BHEL, which along with the sum of **Rs.60,000/-** mentioned above, shall make up the Security Deposit for the work as provided for in clause 1.8.2 of the General Conditions of Contract for Works.

I/We further agree to execute all the works referred to in the said documents upon the terms and conditions contained or referred to therein and as indicated in the Annexure enclosed thereto.

SCHEDULE TO BE FURNISHED BY THE TENDERER

1. Bidder shall submit the following technical proposal documents (a detailed write-up on his erection plan) along with the offer indicating the proposal to achieve the milestone dates, giving details of erection sequence, manpower deployment plan and T&P deployment plan for the various erection activities. The bidder shall submit histograms for Equipment, Staff and Labour to be deployed on the Work.
 - a. Method Statements along with appropriate drawings for pre-assembly works, dismantling works and erection works
 - b. Site establishment plan based on the RWTP layout drawing provided, showing the locations of site office, storage yard, tower crane location, mobile crane/ trailer movement to facilitate the pre-assembly works, dismantling works and the erection works
 - c. Cycle time calculations for critical activities
 - d. Rated Load chart, Range diagrams, Manual of the proposed tower crane
 - e. Rated Load chart, Range diagrams, Manual of the proposed mobile crane
2. **Bidders are required to submit details for the above. Bids received without above documentary proof are liable to be rejected.**

3. The Tenderer is required to submit the following schedule along with his offer.

Schedule A:

PERT / CPM Bar Chart showing Work Breakdown Structure, time schedule and Milestone dates

Schedule B:

Schedule of Plant, Equipment and Tools

Schedule C:

Schedule of Project Staff (identifying skill and work area)

Schedule D:

Schedule of Labour -Day wise deployment of skilled / semiskilled / unskilled and other categories of workers to suit the above programme.

Schedule E:

Schedule of Consumables (LPG, Oxygen, Welding Electrodes, etc.,)

Schedule F:

Day wise schedule of erection quantities

SCHEDULE 'G

Construction power / electricity required for / Office / stores / workshop sheds, etc. of the tenderer in the following format.

a) Construction power required

Average

Peak

Amp

KVA

b) Electricity required for Office & Storage sheds**Average****Peak****Amp****KVA**

4. Tender offers are liable to be rejected in the event of non-submission of above schedules along with the offer complete with all the details asked for.

Note: Contractor may also indicate their ability in completing the contract in a period shorter than that mentioned.

ANALYSIS OF UNIT RATE QUOTED (Only Percentages to be Quoted)

Sl. No.	Description	Percentage of the unit rate quoted	Remarks if any
01.	Site facilities viz. electricity, water, workshop and other infrastructure facilities		
02.	Salary & wages for staff and workers		
03.	Consumables		
	a) Gases		
	b) Electrodes		
	c) Steel materials		
	d) Others		
04.	Depreciation and maintenance for T&P, other items		
05.	Establishment and Administration expenses of sites		
06.	Retrenchment benefit		
07.	Overheads		
08.	Extra work incidental to erection		

NOTE: All Bidders are requested to take care that the rates quoted by them are not disclosed in any way while furnishing the above details.

40	DILUTION WATER TR.PUMP TO CHLORINE GENR.	2(1W+1S)	10 m ³ /hr

KEY PLAN

NOTES :

- ALL DIMENSIONS, CO-ORDINATES ARE IN METERS UNLESS OTHERWISE SPECIFIED.
- IN OPdL COMPLEX LEVEL 100.00 CORRESPONDS TO 7.50 M ABOVE MSL.
- UF SYSTEM AREA FGL IS 100.10, HPL IS 100.50 AND FFL IS 100.80.
- SIZE, LOCATION & ORIENTATION OF THE SYSTEM / TANKS ARE TENTATIVE AND WILL BE FINALIZED DURING DETAILED DESIGN.
- DETAILS OF RWPH, MCC BUILDING, SS-14, FWPH AND CENTRAL CONTROL ROOM ARE SHOWN IN KEY PLAN DRAWING.
- UTILITY WATER TANKS (EQPT.NO:38) HAVE BEEN KEPT ON THE ELEVATED STRUCTURAL PLATFORM.

ITEM-01

NOTES :

- ITEM NO. 01 SHALL BE ROLLED TO INNER RADIUS OF 525 MM.
- ITEM NO. 02, UN EQUAL ANGLE TO BE TRIMMED SUITABLY AT SITE. TO SUIT THE HEIGHT
- ITEM NO. 04, IS RELEASED IN RUNNING METER.AND TO BE CUT AT SITE SUITABLY.
- SUPPORT SPAN OF PIPE IS 3.0 M.
- WORKING WEIGHT OF PIPE IS APROX. 885 Kg./MTR.
