SPECIAL NOTE:

- A) Offer & documents submitted with the offer shall be signed and stamped in each page by authorised representative of the bidder. No overwriting/correction in tender documents by bidders shall be allowed. However, if correction is unavoidable, the same may be signed by authorized signatory.
- B) All documents / Annexures submitted with the offer shall be properly annexed and placed in respective places of the offer as per enclosure list mentioned in the covering letter. BHEL shall not be responsible for any missing documents.
- 5.0 No deviation with respect to tender clauses and no additional clauses/ suggestions/clarification in Techno-commercial bid/Price bid shall normally be considered by BHEL. Bidders are requested to positively comply with the same. Offers with deviation are liable for rejection.
- 6.0 BHEL reserves the right to accept or reject any or all offer without assigning any reasons thereof. BHEL also reserve the right to cancel the tender wholly or partly without assigning any reason thereof. BHEL also reserve the right to split/part award the job. Also, BHEL shall not entertain any correspondence from bidders in this matter (except for the refund of EMD)

- 7.0 Since the job shall be executed at site, the bidders must visit site/ work area and study the job content, facilities available, availability of materials, prevailing site conditions including Law and Order situation, applicable Wage structure, Wage rules, present condition of machines etc. before quoting for this tender. They may also consult this office before submitting their offers, for any clarifications regarding scope of work, facilities available at sites or on terms and conditions. No additional claim shall be entertained by BHEL in future, on account of non-acquaintance of site/machine conditions at the time of bidding.
- 8.0 For any clarification on the tender document, you may seek the same in writing or through e-procurement portal/platform as per specified format within the last date of seeking clarification as per tender. BHEL shall not be responsible for receipt of queries after due date of seeking clarification due to postal delay, and receipt of any query after due date shall not be entertained.
- 9.0 BHEL may decide holding Pre-bid Discussion [PBD] with all intending bidders. On such communication from BHEL, the bidder shall ensure participation for the same at the appointed time, date and place as may be decided by BHEL. Outcome of PBD (if any) shall also form part of tender.
- 10.0 In case of absence of any queries from bidder(s), their quoted price will be PRESUMED to be final and complete with reference to the tender documents (including Tender change notes (TCNs), clarifications, corrigendum issued by BHEL, if any). Bidders are requested to study the tender documents in detail and prepare their queries/clarifications accordingly. All such queries / clarifications shall be cleared/replied by BHEL. Such clarification letters, corrigendum and/or Tender change notes (TCNs), if issued by BHEL, shall form part of tender document.
- 11.0 In the event of any conflict between requirement of any clause of this specification/ documents /drawings /data sheets etc. or requirements of different codes/ standards specified/ contradictions between any two clauses of tender document, the same to be brought to the knowledge of BHEL by bidders in writing for clarification before due date of seeking clarification, otherwise, more stringent requirement as may be interpreted by BHEL shall prevail and shall be binding on you. Any typing error/missing pages/ other clerical errors in the tender documents, noticed by you must be pointed out before submission of offer, or else, BHEL's interpretation shall prevail & binding on you.
- 12.0 Unless specifically mentioned otherwise, bidder's quoted price shall deemed to be in compliance with tender including PBD.
- 13.0 Tender document containing above mentioned volumes shall be signed & stamped in all pages including this covering letter. Price bid shall be furnished in the specified format enclosed with the tender. Any additional copy, if required, may be taken by photocopying from the tender document given in the web.
- 14.0 **The Bidder has to satisfy the Pre-Qualifying Requirements stipulated for this Tender in order to be qualified. The Price Bids of only those bidders will be opened, who will qualify for the subject job on the basis of pre-qualification evaluation & Techno-Commercial bids etc. BHEL reserves the right to reject the bidders with unsatisfactory past performance in the execution of a contract. BHEL's decision in this regard shall be final & binding.**
- 15.0 While BHEL reserve the right to open the price bid of the offers in camera, the date & time to open the PRICE BID, tender opening shall be intimated to the bidders in case BHEL decides it to be 'Public opening' and in such a case, one authorised representative of the bidder shall be allowed to attend.
- 16.0 **Validity of the offer shall be for Six months from the due date of offer submission (including extension, if any) unless specified otherwise.**

- 17.0 Firm prices are to be quoted in whole rupees, in the place meant for price or on the price schedule enclosed as applicable for the full scope of work given in tender. The rates quoted must be in figures and words as well (Prices quoted must be workable too for the job involved). **Prices quoted by the bidders should be inclusive of all taxes and duties leviable by any Statutory Authority for this job as on the date of the tender opening (excluding GST & BOCW Cess).**
- 18.0 Price Bids shall be evaluated in the manner as prescribed in Price Schedule. However, Unit Rates shall also be furnished if applicable in the Price Schedule.
- 19.0 Overwriting or erasures should be avoided. If however, they exist they must be invariably attested.
- 20.0 Bidders are required to submit their BEST price as per tender Price Schedule format in e-procurement portal/platform in the form & manner as mentioned in tender.
- 21.0 *"BHEL reserves the right to go for Reverse Auction (RA) (Guidelines as available on www.bhel.com) instead of opening the sealed envelope price bid, submitted by the bidder. This will be decided after techno- commercial evaluation. Bidders to give their acceptance with the offer for participation in RA. Non- acceptance to participate in RA may result in non-consideration of their bids, in case BHEL decides to go for RA.*
- 22.0 *Those bidders who have given their acceptance to participate in Reverse Auction will have to necessarily submit 'Process compliance form' (to the designated service provider) as well as 'Online sealed bid' in the Reverse Auction. Non-submission of 'Process compliance form' or 'Online sealed bid' by the agreed bidder(s) will be considered as tampering of the tender process and will invite action by BHEL as per extant guidelines for suspension of business dealings with suppliers/ contractors (as available on www.bhel.com).*
- 23.0 *The bidders have to necessarily submit online sealed bid less than or equal to their envelope sealed price bid already submitted to BHEL along with the offer. The envelope sealed price bid of successful L1 bidder in RA, if conducted, shall also be opened after RA and the order will be placed on lower of the two bids (RA closing price & envelope sealed price) thus obtained. The bidder having submitted this offer specifically agrees to this condition and undertakes to execute the contract on thus awarded rates.*
- In case of enquiry through e-procurement portal/platform, the sealed electronic price bid (e-bid) is to be treated as sealed envelope bid.*
- 24.0 *If it is found that L1 bidder has quoted higher in online seal bid in comparison to envelope sealed bid for any item(s), the bidder will be issued a warning letter to this effect. However, if the same bidder again defaults on this count in any subsequent tender in the unit, it will be considered as fraud and will invite action by BHEL as per extant guidelines for suspension of business dealings with suppliers/ contractors (as available on www.bhel.com).*
- 25.0 *Reverse Auction is the type of auction typically conducted to buy goods / items over Internet in which the lowest price bidder wins. In case, the bidders are willing to know the details about the methodology, they may please contact HEAD/PURCHASE OR DY. ENGINEER /PURCHASE, BHEL, KOLKATA.*

- 26.0 **However, if Reverse Auction process is not adopted or Reverse Auction is unsuccessful as defined in the RA rules/procedures, or for whatsoever reason, then the 'PRICE BID' and price impacts (if any), already submitted in e-procurement portal/platform, submitted by the bidder shall be opened for deciding the successful bidder, as per BHEL's standard practice. BHEL's decision in this regard will be final and binding on bidder.**
- 27.0 *Bidders are requested to note that the accepted / agreed tender terms (technical, commercial or on Reverse Auction) in their original offer can not be altered / withdrawn by their own during the processing of tender.*
- 28.0 **The Bidder along with its associate/collaborators/sub-contractors/sub-vendors/consultants/service providers shall strictly adhere to BHEL Fraud Prevention Policy displayed on BHEL website <http://www.bhel.com> and shall immediately bring to the notice of BHEL management about any fraud or suspected fraud as soon as it comes to their notice.**
- 29.0 **The offers of the bidders who are on the banned list as also the offer of the bidders, who engages the services of the banned firms, shall be rejected. The list of banned firms is available on BHEL web site www.bhel.com.**
- 30.0 **The bidder shall submit documents in support of possession of 'Qualifying Requirements' duly self certified and stamped/ digitally signed (as applicable) by the authorized signatory, indexed and properly linked in the format for PQR. In case BHEL requires any other documents/proofs, these shall be submitted immediately.**
- 31.0 **The bidder may have to produce original document for verification if so decided by BHEL.**
- 32.0 **Suspension of Business dealings with Suppliers/ Contractors: BHEL reserves the right to take action against contractors who fail to perform or indulge in malpractices, by suspending business dealings with them as detailed in [Annexure-A](#).**
- 33.0 **Indian suppliers, falling under the purview of Public procurement (preference to make in India) order 2017 by Govt. of India, vide order no. P-45021/2/2017-B.E.-II dated 15th June-2017, & all subsequent clarifications can avail the intended benefits, as per provisions of the order subject to minimum local content shall be 50%, margin of Purchase preference shall be 20% & modality of preference to Make in India shall be as per aforesaid order.**
- Any Indian Bidder intending to avail the benefits as shall submit the requisite documents as per the aforesaid order.**
- 34.0 **"MSE suppliers can avail the intended benefits only if they submit along with the offer, attested copies of either EM II certificate having deemed validity (five years from the date of issue of acknowledgement in EM II) /Udyog Aadhar Memorandum(UAM) or valid NSIC certificate or EM II certificate along with attested copy of a CA certificate (Format enclosed at [Annexure-B](#) where deemed validity of EM II certificate of five years has expired) applicable for the relevant financial year (latest audited). Date to be reckoned for determining the deemed validity will be the date of bid opening (Part 1 in case of two part bid). Non submission of such documents will lead to consideration of their bid at par with other bidders. No benefit shall be applicable for this enquiry if any deficiency in the above required documents are not submitted before price bid opening. If the tender .is to be submitted through e-procurement portal, then the above required documents are to be uploaded on the portal. Documents should be notarized or attested by a Gazetted officer."**

Any Bidder falling under MSME category, shall furnish the following details & submit documentary evidence/Govt. Certificate etc. in support of the same along with their techno-commercial offer: -

Type under MSME	SC/ST owned	Others
Micro		
Small		
Medium		

Note: - If the bidder does not furnish the above, offer shall be processed construing that the bidder is not falling under MSME category.

35.0 Order of Precedence: In the event of any ambiguity or conflict between the Tender Documents, the order of precedence shall be in the order below:--

- i) Amendments/Clarifications/Corrigenda/Errata/Tender change notice (TCN) etc. issued in respect of the tender documents by BHEL
- ii) Notice Inviting Tender (NIT)
- iii) Price Schedule – (Annexure-VII)
- iv) Scope of work & other details - Annexure-I, Annexure-BOCW, Annexure-SAS-I, Annexure-II, Annexure-III, Annexure-S, Annexure for HSE & OHSAS and Special note to bidders.
- v) SPECIFIC TERMS AND CONDITIONS FOR SERVICES JOBS
- vi) GENERAL & SPECIAL CONDITIONS OF CONTRACT FOR SERVICES JOB

All the bidders are requested to note that all the errata / technical clarifications / corrigendum / extension etc. shall be published THROUGH E-PROCUREMENT PORTAL <https://bheleps.buyjunction.in> and in website www.jantermanter.com , www.bhel.com & <http://eprocure.gov.in> . As such, all the bidders are requested to be in continuous touch with these websites.

Particulars of Tender (Continued)

Facilities to be provided to contractors as described below:-

All T&P required / recommended for the work against this tender shall have to be mobilized by the contractor fully at their expense within the quoted price.

Any special T&P i.e. T&P made available by the manufacture of the equipment to the customer can be made available to the contractor free of charges subject to availability at site.

Any consumables required / recommended for the work against this tender shall have to be mobilized by the contractor fully at their expenses within the quoted price.

Regarding other facilities for the contractors the following table clarifies adequately. Vendors are expected to quote considering these without any deviations from the provisions of “Notice Inviting Tender”.

Deviated offers are liable for rejection of price bid opening

a)	Water	Free of Charges
b)	Power	Free of Charges
c)	Storage Space	Free of Charges
d)	Covered Space	Free of Charges
e)	Uncovered Space	Free of Charges
f)	E.O.T. Crane	Free of Charges
g)	Operators for the above	Cannot be provided
h)	Residential accommodation	Cannot be provided
i)	Compressed air	Free of Charges
j)	Work shop facilities	Free of Charges

k)	i) Mobile Crane/Hydra for material handling & lifting, if available	Cannot be provided
	ii) Operator for K (i)	Cannot be provided
	iii) Fuel charges for K (i)	Cannot be provided
l)	Other material handling equipment	Cannot be provided
m)	Trailor	Cannot be provided
n)	Sleepers	Cannot be provided
o)	Tarpulins	Cannot be provided
p)	Scaffolding materials	Cannot be provided

No advance is payable to the contractors for mobilizing the site. Any payment can be made only against running bills as per payment terms.

For & on behalf of
BHARAT HEAVY ELECTRICALS LIMITED

DGM (PURCHASE)

ANNEXURE-VI

DECLARATION OF THE BIDDERS

Job: "OVERHAULING OF BOILER & AUXILIARIES AT UNIT-8, 250 MW, DURGAPUR PROJECTS LIMITED (DPL), DURGAPUR, WEST BENGAL"

01. I,hereby certify that all the information and date furnished by me with regard to this **E-Tender No. PSER:PUR:DPL-S298:17 (ENQ:17:PP:0015:PUR:132) Date 26/12/2017** are true and complete to the best of my knowledge.
02. I have gone through the tender specifications, scope of work, terms and conditions mentioned in Annexure as well as General and Special conditions of contract and various stipulations in detail and agree to abide by them and comply with the requirements and intent of specifications.
03. I also certify that there have been no deviations from the tender requirements in the bid submitted against this tender.
04. I further certify that I am duly authorized representative of the under mentioned tenderer and hold a valid power of attorney to this effect, a copy of which is enclosed.

Tenderers Name and address

PART-D:
General Terms & Conditions of Reverse Auction

Against this enquiry for the subject item/ system with detailed scope of supply as per enquiry specifications, BHEL may resort to "REVERSE AUCTION PROCEDURE" i.e., ON LINE BIDDING (THROUGH A SERVICE PROVIDER). The philosophy followed for reverse auction shall be English Reverse (No ties).

1. For the proposed reverse auction, technically and commercially acceptable bidders only shall be eligible to participate.
2. Those bidders who have given their acceptance for Reverse Auction (quoted against this tender enquiry) will have to necessarily submit 'online sealed bid' in the Reverse Auction. Non-submission of 'online sealed bid' by the bidder for any of the eligible items for which techno-commercially qualified, will be considered as tampering of the tender process and will invite action by BHEL as per extant guidelines in vogue.
3. BHEL will engage the services of a service provider who will provide all necessary training and assistance before commencement of on line bidding on internet.
4. In case of reverse auction, BHEL will inform the bidders the details of Service Provider to enable them to contact & get trained.
5. Business rules like event date, time, bid decrement, extension etc. also will be communicated through service provider for compliance.
6. Bidders have to fax the Process Compliance form **(Annexure-III of Business Rule Document of Reverse Auction – shall be shared to bidders along with intimation of RA schedule)** before start of Reverse auction. Without this, the bidder will not be eligible to participate in the event.
7. In line with the NIT terms, BHEL will provide the calculation sheet (e.g., EXCEL sheet) which will help to arrive at "Total Cost to BHEL" like Packing & forwarding charges, Taxes and Duties, Freight charges, Insurance, GST and loading factors (for non-compliance to BHEL standard Commercial terms & conditions) for each of the bidder to enable them to fill-in the price and keep it ready for keying in during the Auction.
8. Reverse auction will be conducted on scheduled date & time.
9. At the end of Reverse Auction event, the lowest bidder value will be known on auction portal.
10. The lowest bidder has to fax/e-mail the duly signed and filled-in prescribed format for price breakup including that of line items, if required, **(as per Annexure-IV of Business Rule Document of Reverse Auction)** as provided on case-to-case basis to Service provider within two working days of Auction without fail.
11. In case BHEL decides not to go for Reverse Auction procedure for this tender enquiry, the Price bids and price impacts, if any, already submitted and available with BHEL shall be opened as per BHEL's standard practice.
12. Bidders shall be required to read the "Terms and Conditions" section of the auctions site of Service provider, using the Login IDs and passwords given to them by the service provider before reverse auction event. Bidders should acquaint themselves of the 'Business Rules of Reverse Auction', which will be communicated before the Reverse Auction.
13. If the Bidder or any of his representatives are found to be involved in Price manipulation/ cartel formation of any kind, directly or indirectly by communicating with other bidders, action as per extant BHEL guidelines, shall be initiated by BHEL and the results of the RA scrapped/ aborted.
14. The Bidder shall not divulge either his Bids or any other exclusive details of BHEL to any other party.
15. In case BHEL decides to go for reverse auction, the H1 bidder (whose quote is highest in online sealed bid) will not be allowed to participate in further RA process provided minimum three bidders are left after removal of H1 bidder. In case of tie for H1 bid (identical online sealed bids), 15 minutes' additional time shall be provided and all the participating bidders shall be informed by mail/message on bidding screen to enable bidders submit revised online sealed bids so as to break the tie.
16. In case H1 bidder happen to be MSE and was removed from further bidding but is within L1 + 15% band, then this bid shall also be considered and to be processed in line with 'Public Procurement Policy for Micro & Small Enterprises (MSEs) order, 2012'.

SCOPE OF WORK**“OVERHAULING OF BOILER & AUXILIARIES OF UNIT # 8, 250 MW AT DURGAPUR PROJECTS LIMITED (DPL), DURGAPUR, WEST BENGAL”****Job Duration: 30 days from the date of mobilisation to Boiler safety valve setting****MOBILISATION TIME: WITHIN THREE (3) DAYS FROM DATE OF INTIMATION BY BHEL**

The scope under this specification is not exhaustive but indicative only. However, any activity covered under the normal course of overhauling job shall be deemed to be within the scope. Time is the essence of this contract. Hence contractor must mobilize site with adequate manpower for round the clock 12 hours shifts work during the entire duration. Workmen will not be allowed to work more than 12hrs a day. Also adequate T&P, Consumables and inspection/measuring and monitoring devices are to be mobilized at site for two shift operations to avoid any hold up during execution of the work. Post overhauling, light up of the boiler and synchronization of the unit, observation for 72hrs at stable rated load and attending all works to rectify defects if any, is included within the scope of work. Prior to mobilization of site list of work men shift wise with the concerned work area supervisor shall be finalized in BHEL-PSER, HQ. **In case any part of the job is not required to be carried out, a deduction will be effected as per percentage shown against those items.**

	TOTAL	(100%)
Item No.01	CLEANING OF THE BOILER AND ITS SURROUNDING AREAS	(3.00%)
1.0	- All the electrical junction boxes, Field instrument enclosure, Valve actuator and Motors, Control Valves, SADC damper actuators etc. to be covered by plastic Sheet. - Removal of accumulated ash and debris from the followings areas: - - Pent house and its roof, Drum dead chamber. - Dog house and S-panel areas and buck stays. - All floors of main boiler including ground floor and areas between PA Fan#1A to 1B and power house wall to PA fan bay which will be affected due to cleaning of ash of the aforesaid areas and scraps and debris generated during the overhauling of the unit. - Ash debris and scraps generated during the overhauling in the areas between ID fans and ESP and surrounding ID fan area. - Existing temporary scaffolding, scraps, ash/coal dust from top of the air ducts and flue gas ducts (excluding the PA fan ducts area of milling plants, but common ducts of milling plants are included in vendor's scope), Pipes structural members etc. confined in the main boiler to be removed. - Water washing of outside of main boilers, diff. floors, APH area (outside), etc. has to be carried out.	1.50%
2.0	- The ash accumulated inside the ducts such as wind boxes, APH & its ducts, and flue gas ducts up to chimney and other ducts, all expansion joints of flue gas ducts, flue gas duct from eco-coil to APH, PA hot and cold air duct up to hot air and cold air gate etc. has to be cleaned. - Top of all ducts along with its surroundings has to be cleaned. - Ash and debris from the above mentioned areas are to be collected in gunny bags and to be disposed of from the areas as per instruction by DPL Engineer-in- charge (EIC). - Necessary work force, tools & tackles, scaffolding materials, plastic sheet, winch, hoses with fittings etc. required for the work to be arranged by successful bidder. - Transportation of Ash/debris etc. from worksite to disposal place shall be arranged by successful bidder. Ash should be disposed to a designated scrap yard within the premises of DPL as per direction of EIC, DPL. - The accumulated ash, debris, scraps in the ground floor due to removal from pent house and other areas has to be disposed to the designated scrap yard on daily basis to avoid nuisance in surrounding areas	1.50%

Item No. 02	ERECTION OF SCAFFOLDING IN 1 st PASS, DIV SH (CUPLOCK SYSTEM) & PLATEN SH, RH, II nd PASS UPTO ROOF	(20.00%)
1.0	- Erection of Cup-lock scaffolding with net in two elevations (one at below AB elevation and one at below platen coil) at inside furnace up to roof top, in SH, RH and 2nd pass area as required to cover all pressure parts area for cleaning, inspection, de-metering and tube/coil replacement and outside the boiler wherever required, with provision of platforms, railing supports and ladders or staircase for easy access to tubes / coils. At burner zone in AB, CD and EF elevation in every corner point must have an approach in same level and at the bottom of platen coil entire portion must be totally covered such that no materials should fall to the bottom hopper. Entire Cup-lock scaffolding materials with net (for two elevation), steel board planks (for 1st pass), wooden planks (for IInd pass), stairs, handrails etc. to be arranged by successful bidder. - The complete cup-lock scaffolding system including bracing, approach platforms, and all other erection activities, along with the staircase in the boiler first pass, is to be erected within 04 (four) days from the date of availability of work front. - Platforms & approaching ladders are to be provided at various locations like water wall platen coil soot blower elevations, each elevation of Burner block (oil/air/coal compartments) in all four corners, S-panel, water wall tubes in the burner zone, as well as other areas as per instruction of the EIC at any location within the Boiler furnace i.e. 1st pass, SH, RH & IInd Pass. Scaffolding for checking of roof tubes at the location where the coil tubes penetrate the roof tube. - All scaffolding erection work to be carried out strictly as per the standard safety norms. - Removal of scaffolding after completion of overhauling work: The expected date for start of scaffolding removal will be after completion of hydro test. The total scaffolding removal work will be completed within three (3) days from the starting date. - Erection of wooden platform from left wall to right wall at three elevations at the following places: - - Screen tubes. - Eco hanger tubes & LTSH terminal tubes. - SCW upto roof, if required. - SH screen Tubes - RH front and rear coil. - Final & Platen SH - Div. Panel	17.00%
2.0	- Arrangements for inspection of Pass-I & II roof tubes have to be made by the successful bidder. - Complete platform in the ECO Hopper area has to be made by the successful bidder for the inspection and other works in the area. - Arrangements for inspection & de-metering of all bends of steam cooled spacer tubes (this includes bends just below the radiant roof) to be made by successful bidder. - Arrangements for inspection/cleaning of trough seal & its wire net has to be made by successful bidder. - Erection of platform outside the boiler, as and where required. - Making of approach & platform for lifting & lowering of LTSH/ECO coils respectively as per requirement. - All the dismantled scaffolding material will be immediately shifted from Boiler area at various elevations to site stacking area as directed by EIC, so that no obstruction is created during boiler light up and to the personnel working in other areas for other O/H and commissioning activities.	3.00%
Item No.03	PRESSURE PARTS ACTIVITIES	(28.00%)
1.0	- Checking of pressure parts e.g. tubes / headers for bulging / erosion/ cracks or any other abnormality. - Cleaning of soot from Boiler tubes, wall etc. by jet cleaning. 01 no. High pressure water jet pump (to operate at a pressure of 150 Kg/Sq cm or higher) and accessories shall be arranged by successful bidder. - Random thickness survey of pressure parts tubes by D-metering (approx 10000 points).	8.00%

	Thickness survey will be carried out in the following erosion prone areas after removal of the tube shields (if any), removal of the cassette baffles (in case of coils that are lifted or lowered), cleaning the surface by wire brush / buffing wheel. Sufficient manpower for cleaning, buffing, assistance during thickness survey to be provided/arranged by vendor: - <table><tr><td>a)</td><td>Water Wall & Extended Water Wall</td><td>:</td><td>Burner Block tubes specially at the bends and at parting planes of Burner nozzles , S-panel lower and upper bends, goose neck bends, side wall bends near ring header, upper corner transition tubes, bends of peep holes, Bends around Wall Blower & soot blower holes & Manholes, WW Hanger tubes, rear arch wall tube bends etc.</td></tr><tr><td>b)</td><td>SH/ RH/ PLATEN coils</td><td>:</td><td>Tubes facing flue gas path & out of coil bands/pitch and their bends (D-metering to be done at three elevations).</td></tr><tr><td>c)</td><td>WW Screen Tube</td><td>:</td><td>Wherever shielding is dislocated & refractory is damaged and tubes exposed to flue gas (D-metering to be done at three elevations).</td></tr><tr><td>d)</td><td>SH Screen, Eco Hanger, LTSH Terminal Tubes & Bends</td><td>:</td><td>Tubes facing flue gas path (D-metering to be done at three elevations).</td></tr><tr><td>e)</td><td>Eco coils/ LTSH coils</td><td>:</td><td>Tubes facing flue gas & out of coil bands/pitch and their bends wherever protective shields are dislocated & tube/ bends are exposed to flue gas & the coils which will be lifted for inspection. D-metering is to be done on all the lifted coils.</td></tr><tr><td>f)</td><td>Steam Cooled Spacer Tubes</td><td>:</td><td>All bends & tubes in flue gas path.</td></tr><tr><td>g)</td><td>Steam Cooled Wall</td><td>:</td><td>Near upper and lower portion of ECO/ LTSH coils, manhole door bends & Soot Blower Bends</td></tr><tr><td>h)</td><td>Eco & LTSH hanger headers & 2nd pass ring headers</td><td>:</td><td>Stubs exposed to flue gas path and uncovered with refractory</td></tr><tr><td>i)</td><td>Furnace Roof tube and Second pass roof tube:</td><td>:</td><td>In the bend areas, areas where the refractory has been damaged, areas where vertical tubes/ coils originate, etc.</td></tr><tr><td>j)</td><td colspan="3">Any other area as indicated by DPL after initial inspection. Thickness survey/D-metering of pipe & bend line of i) All the Mal station valves drain line ii) Drain lines of CRH, HRH & APRDS iii) Bend line of the pipe going to the unit flash tank</td></tr></table> After carrying out the thickness survey of boiler tubes of the above areas, the stub/ tubes having lower thickness will be replaced and necessary heat treatment as per welding schedule has to be done. After replacement of tubes the same have to be guarded with protection shields, if required, to avoid erosion in future. The bare tubes which are in erosion prone area are to be covered by protective shield.	a)	Water Wall & Extended Water Wall	:	Burner Block tubes specially at the bends and at parting planes of Burner nozzles , S-panel lower and upper bends, goose neck bends, side wall bends near ring header, upper corner transition tubes, bends of peep holes, Bends around Wall Blower & soot blower holes & Manholes, WW Hanger tubes, rear arch wall tube bends etc.	b)	SH/ RH/ PLATEN coils	:	Tubes facing flue gas path & out of coil bands/pitch and their bends (D-metering to be done at three elevations).	c)	WW Screen Tube	:	Wherever shielding is dislocated & refractory is damaged and tubes exposed to flue gas (D-metering to be done at three elevations).	d)	SH Screen, Eco Hanger, LTSH Terminal Tubes & Bends	:	Tubes facing flue gas path (D-metering to be done at three elevations).	e)	Eco coils/ LTSH coils	:	Tubes facing flue gas & out of coil bands/pitch and their bends wherever protective shields are dislocated & tube/ bends are exposed to flue gas & the coils which will be lifted for inspection. D-metering is to be done on all the lifted coils.	f)	Steam Cooled Spacer Tubes	:	All bends & tubes in flue gas path.	g)	Steam Cooled Wall	:	Near upper and lower portion of ECO/ LTSH coils, manhole door bends & Soot Blower Bends	h)	Eco & LTSH hanger headers & 2nd pass ring headers	:	Stubs exposed to flue gas path and uncovered with refractory	i)	Furnace Roof tube and Second pass roof tube:	:	In the bend areas, areas where the refractory has been damaged, areas where vertical tubes/ coils originate, etc.	j)	Any other area as indicated by DPL after initial inspection. Thickness survey/D-metering of pipe & bend line of i) All the Mal station valves drain line ii) Drain lines of CRH, HRH & APRDS iii) Bend line of the pipe going to the unit flash tank			
a)	Water Wall & Extended Water Wall	:	Burner Block tubes specially at the bends and at parting planes of Burner nozzles , S-panel lower and upper bends, goose neck bends, side wall bends near ring header, upper corner transition tubes, bends of peep holes, Bends around Wall Blower & soot blower holes & Manholes, WW Hanger tubes, rear arch wall tube bends etc.																																							
b)	SH/ RH/ PLATEN coils	:	Tubes facing flue gas path & out of coil bands/pitch and their bends (D-metering to be done at three elevations).																																							
c)	WW Screen Tube	:	Wherever shielding is dislocated & refractory is damaged and tubes exposed to flue gas (D-metering to be done at three elevations).																																							
d)	SH Screen, Eco Hanger, LTSH Terminal Tubes & Bends	:	Tubes facing flue gas path (D-metering to be done at three elevations).																																							
e)	Eco coils/ LTSH coils	:	Tubes facing flue gas & out of coil bands/pitch and their bends wherever protective shields are dislocated & tube/ bends are exposed to flue gas & the coils which will be lifted for inspection. D-metering is to be done on all the lifted coils.																																							
f)	Steam Cooled Spacer Tubes	:	All bends & tubes in flue gas path.																																							
g)	Steam Cooled Wall	:	Near upper and lower portion of ECO/ LTSH coils, manhole door bends & Soot Blower Bends																																							
h)	Eco & LTSH hanger headers & 2nd pass ring headers	:	Stubs exposed to flue gas path and uncovered with refractory																																							
i)	Furnace Roof tube and Second pass roof tube:	:	In the bend areas, areas where the refractory has been damaged, areas where vertical tubes/ coils originate, etc.																																							
j)	Any other area as indicated by DPL after initial inspection. Thickness survey/D-metering of pipe & bend line of i) All the Mal station valves drain line ii) Drain lines of CRH, HRH & APRDS iii) Bend line of the pipe going to the unit flash tank																																									
2.0	1. Prior to shut down of the unit, successful bidder would perform Hot walk down survey of the Boiler & Auxiliaries and any abnormality in the system, leakages in the Water circuit & steam circuit, leakages in skin casing, peep holes, soot blower seal boxes etc., any problem in the buck stay like vibration etc., ID/FD fan bearing problem like vibration, hotness, abnormal sound etc, Duct leakages, damaged insulation of the Main Boiler, APH, FG Ducts etc. should be recorded & the same should be attended on priority wise during the overhauling period. 2. Random DP test for Platen (Limited to 20%), Div Platen & RH, LTSH & ECO inlet & outlet headers stubs including the stubs for all the header vents is included in the scope of work. Rectification/replacement of stubs, if case of crack, porosity or any 3. Checking of baffles, shields and shrouds for pressure parts and their rectification. Fabrication and erection of baffles and guards as per the instruction of BHEL Site Engineer	5.00%																																								

	in charge. - Rectification of misalignment of all the coils. Replacement of all the damaged cassette baffles of all the coils as per the instruction of the BHEL Site Engineer in Charge. - Rectification of misalignment of all male and female connector of SH & RH coils and proper positioning. - Checking of tube attachment like clamps, flexible connectors and vibration snubbers/spacers, in SH/ RH/SCW Hanger tubes/ Platen / LTSH/Eco coils and rectification to the extent possible as required. Bends to the extent possible will be fabricated by Successful bidder at site in case of non-availability. - Correction of Bowing / misalignment of tubes / coils in different areas of boiler by tube replacement and to the extent possible by mechanical method. - Checking of vibration snubbers in water wall screen tube and super heater hanger - Repair/redressing of insulation cladding of walls as & where bulged. - Repair of the boiler skin casing, refractory, insulation, etc., in the furnace goose neck and furnace rear wall area. - Cutting of ring header drain lines near ring header and flushing of ring header by water (to be done by filling water circuit through drum by running fill pump/ BFP) to clear any chokage in ring header. Normalization of ring header drain line. - Replacement of tubes based on inspection to be carried out. Replacement of tubes includes: - - Cutting edge preparation and fitting of tubes. - Welding of root by TIG and subsequent SMAW. - Tangent/ fins welding wherever applicable. 100% Radiography, repair if any and SR as per BHEL norms and procedures. Note: - - Welding of stainless steel / dissimilar metals is to be done. Electrode for dissimilar welding and stainless steel welding to be arranged by vendor. - All the tubes for thickness upto 4.5 mm are to be TIG welded unless otherwise instructed by BHEL Site Engineer in Charge. - Tangent/ Fins welding will be done by HP Welder only. - Failed welding joints of tubes/bends which have been carried out by successful bidder during overhauling will be rectified free of cost within defect liability period (Against bad workmanship). - Hydraulic Tube Bending Machine has to be arranged by vendor.	
3.0	- Gas tightness test and attending to all leakages in pent house, dog house bottom ash hopper arches, membrane walls, steam cooled walls and other areas by restoration of fins, recasting of damages refractory and repair of skin casing including bulging, deformations etc. as applicable, sealing of dog house and pent house, if any. Wherever welding of fins/ skin casing is not possible due to poor access, sealing will be done by putting castable refractory. Damaged expansion joints of the wind boxes with Boiler & Burner block will have to be replaced at no extra cost, if required. - Before carrying out gas tightness test, insulation and cladding of all expansion joints of wind box, PA ducts, secondary air ducts from Air Pre-heater to wind box, Air Pre-heater expansion joints in flue gas path, burner block top and bottom portion etc. will be removed to identify the leakages and attend to the same. - Thorough checking of roof skin casing of boiler first & second pass and its roof supports. The damaged / deformed skin casing, expansion joints supports etc. have to be removed and replaced with new M.S. plates, new expansion joints and supports after application of refractory. - Checking of Trough sealing system and deeper plates/ S.S nets and /replacement/rectification, if required. Cleaning of seal trough is also included in the scope. - Assistance during Hydro Test. - Removal of scaffolding after successful hydro test and air tightness test. - Box up of boiler including boxing up of all manholes and peep holes by providing new packing. - After removal of ash from pent house and drum dead chamber thorough checking inside pent house, its all manhole doors, enclosures, shall be carried out by successful bidder. If any damaged is noticed the necessary repair work will be carried out. Pourable	8.00%

	insulation/castable refractory as and where required shall be applied. 9. External cleaning of Boiler pressure parts tube surfaces exposed to furnace and flue gas path. Tubes will be cleaned by wire brushes and will be washed with high pressure water jet. Fire fighting hoses etc. will have to be arranged by successful bidder. During cleaning of 2nd pass of the Boiler proper care have to be taken to avoid choking of the air preheater baskets & the same should be covered with polythene sheet. 10. Replacement of Sealing Ropes and Gaskets of all the Boiler Peep Holes and the manholes indicated by BHEL Site Engineer in Charge. 11. Six (6) Modules of coils of LTSH (1 module=upper + middle + lower) and six (6) pairs of Eco Coil (1 pair=Upper +lower), two coils from each side (LHS & RHS) & two coils from middle or from any other position as directed by Engineer In charge, DPL to be lifted from its position for inspection/de-metering and replacement of eroded tubes and there after positioning of the same. Insitu inspection & thickness measurement of 3 tubes from top & 3 tubes from bottom to be carried out for all the coils in LTSH Upper, Middle, Lower Coils, Eco upper, Eco lower coils. The other coils will be lifted or lowered as per the instruction of DPL Engineer In Charge if required. After completion of inspection, cleaning of coils through compressed air, repositioning, its alignment, welding, 100% radiography, heat treatment (if required) etc. After cutting of coils, every cut bare mouth must be covered properly to avoid any ingress of any debris/foreign materials etc. 12. Radiographic examination of 200 nos. of old joints as directed by DPL Engineer In charge. 13. The aforesaid scope of work is based on 200 meters of Tangent/Fin welding.	
Note	a) The party's lumpsum offered price shall be based on 800 nos. physical high pressure weld joints along with its 100% Radiography & Het treatment (if required) and tangent/attachment welding length not exceeding 200 running meters. In boiler pressure parts, any no. of joints beyond 800 nos. physical joints and length of tangent/attachment welding beyond 200 running meters will be paid extra on physical joint basis and running meter basis. However, if no. of joints to be welded is less than 400 nos. and the length of tangent/attachment welding less than 100 running meters, there will be deduction from lumpsum price on physical joint basis /running meter basis. Average unit rates per additional / less physical joint including NDT, stress relieving (if required) all inclusive shall be paid / recovered as following rates: - HP welding : Carbon steel @ Rs. 400/- per physical joint Alloy steel @ Rs 450/- per physical Joint Attachment welding @ Rs 100/- per running meter b) Additional Price for Lowering and Lifting of LTSH coils beyond 8 nos. modules (one module consists of two nos. coils) & ECO coils beyond 6 pairs (Twelve nos. of coils from each lower and upper bank) from each lower and upper banks. LTSH Coils @ Rs 6500/- per module ECO Coils @ Rs 5300/- per pair c) Header stub replacement, if required, will have to be done by contractor @ Rs3500/- per Stub.	
4.0	1. Removal, fabrication & refitting of guard tube & Guard Plate for Screen tube, LTSH, Economizer & other area. Scope for this work is 50 nos. 2. Cleaning of eroded/dented portion of stub/tube/header surface by scrubbing/rubbing/oil & chemically as may be required case to case basis. Deposition of weld metal on eroded portion of tube/stub/headers as required & as per welding schedule. Scope for this work is 50 sq inch. 3. Skin casing welding upto 100 mtrs to be carried out in following areas: a. Dead Chamber, dog house, BAH arches visual inspection & rectification as required. b. Welding crack or bulge portion of dead chamber, dog house and BAH arches to be repaired. 4. Pressure parts area miscellaneous job: a) Checking of tube attachment like clamps, flexible connectors and spacers in SH/RH/LTSH and rectification to the extent possible as required. Bends to the extent possible to be fabricated [if required] by vendor at site in case of	4.00%

	emergency. Assistance to MO (Boiler side Drain & Drum floor vent Valves opening & closing as per requirement) during departmental & IBR Hydro test upto Machine Synchronization is to be provided by the Vendor. b) Box up of boiler including boxing up of all manholes and peepholes by providing new packing. c) Cleaning / flushing of water/steam Circuit through bottom ring header by cutting of drain pipes at ring header end and at drain valve end. Restoration of drain pipes after flushing. d) Replacement of defective thermo-wells as required. Pad welding for metal temperature thermo-couple as required. Laying out of metal temperature thermocouple wire etc. if required [DPL C&I expert will supervise the jobs and Vendor will assist with proper illumination & scaffolding in doing the above jobs by providing skilled and unskilled manpower]. e) Tit-bit cutting, welding & grinding job is included in the scope of work. Any other job, not specifically mentioned but directly related with the job is included in the Scope of work. f) The above scope for Pressure parts miscellaneous job are tentative but not exhaustive. If any work deemed fit for the interest of Boiler O/H but not included in Scope, are to be done as desired by EIC at no extra cost. 5. Stress relieving for pressure parts welding Joints for 2 days: a) Vendor arrange the stress relieving instrument (wrapping coil, Recorder, Electrical main switch etc.) as per requirement. b) Conducting stress relieving of welding joint as per schedule (Material & Thickness wise) upto the satisfaction of EIC. c) Removal of wastes & scraps from work site to designated dump / scrap yard. 6. Roof loose tube proper clamping: This job to be carried out for 10 no loose tubes. a) Resetting of mis-aligned roof tubes by lifting in proper position by lifting tackles. b) Clamping the tubes with tie-up channel at pent house. c) Clamping bolts, nuts tightness checking in presence of EIC. 7. Fabrication of different size bends. Scope for fabrication of bends is 50 nos.: a) Bend & U loops are to be fabricated from new tubes by tube and Pipe by Hydraulic Pipe Bending Machine. Vendor has to arrange 1 no Hydraulic Pipe Bending machine for bending pipe of Dia-½" to 3" and Die for Tube OD-46mm, 56mm, 65mm, 78mm respectively. The final completed job should be checked by Engineer in charge before fitting the same. Vendor has to arrange b) Preparation of weld ends as per schedule. 8. Economiser header stub joint replacement (05 Nos): a) Cleaning of eroded / dented portion of stub / headers surface by scrubbing / rubbing / oil & chemically as may be required case to case. b) Welding of tube with header or deposition of weld metal on eroded portion of stub / headers as required & as per welding schedule. 100% Radiography& heat treatment (if required). c) Cleaning by emery clothes / wire brush and D. P. Test of stub joints d) D.P. test of stub joint to be done in presence of DPL representative. e) Removal of wastes & scraps from work site to designated dump / scrap yard. 9. LTSH inlet header stub joint replacement (05 Nos): a) Cleaning of eroded / denting portion of stub / headers surface by scrubbing / rubbing / oil & chemically as may be required case to case. b) Welding of tube with header or deposition of weld metal on eroded portion of stub / headers as required & as per welding schedule. 100% Radiography& heat treatment (if required) of welded joints. c) Cleaning by emery clothes / wire brush and D. P. Test of stub joints. d) D.P. test of stub joint to be done in presence of DPL representative. e) Removal of wastes & scraps from work site to designated dump / scrap yard. 10. Cassete baffle fitting/replacement for 50 Nos.	
--	--	--

	11. replacement of 1 no drum EWLI vessel a) Erected EWLI to be cut & dismantled. b) Receipt of New EWLI from store, Erection, Welding, 100%RT, c) Assistance during commissioning of new EWLI.	
5.0	A. Hanger & Supports checking of critical pipings including air and flue gas duct area up to ID Fan (excluding ESP) & Boiler Buck stay checking: a) Checking of hanger & supports (Cold & Hot Setting) of Hangers &Support followed by necessary rectification job of Hanger supports with in Lump Sum scope. Critical Pipe Lines, i.e. MS Line, HRH Line, CRH Line (up to turbine), TAS & BAS Line, Down Comer, All Headers of Boiler, down comers start up vent line, silencer of ERV, exhaust pipes of safety valves, Feed Control Station, Attemperation Station, Boiler Feed water suction & discharge lines, Condensate line up to deaerator, Heater extraction lines, heater drip lines, HP & LP bypass system lines, air and flue gas ducts up to ID Fan excluding ESP and all CCP at furnace front of boiler area. b) Checking / rectification of corner buck stays, vertical buck stays, horizontal buck stays, of both first pass and second pass [supporting pins, gusset plates etc.], prepare the corner buck stays (approx. 1.5m on both side) by buffing, emery paper cleaning for DP test between welding of buck stays, identify the defects of buck stays, channel, stirrup plates, beams, angles, etc with Engineer-in-Charge, rectify the defects that include removing the scallop bar and reinstall the scallop bar by welding or any attachment welding by approved/tested welders, and their rectification as required. Checking of scalloped bars, stirrup plates of buck stays channels if found necessary during inspection of corner connections. Checking of buck stays of 2nd pass & furnace and correction if necessary. c)Checking of supports of Drums, all headers & pipes in pent house & dog house, eco inlet header, down comers and their rectification as required. d).Checking of buckstay links and corner connections (supporting pins, gusset plates etc.). Seismic guides of down comers, furnace guides, leveler guides and their rectification as required. Checking of scalloped bars, stirrup plates of buckstay channels, vertical and horizontal buckstay, if found necessary during inspection of corner connections. The inspection of wind box supports and its expansion joints, burner block connecting links, S-panel supports and their rectifications/ replacements of all above as required. Rectification/replacement of expansion joint (Wind Box) will be in the scope of successful bidder. e)During the checking of the seismic guides and furnace guides, buck-strays, the control dimensions has to be measured and recorded. Supports of wind box, S-panel, header suspension will have to be checked and necessary corrections has to be taken if required. B) CLEANING & RESETTING SPRING/SLING AT PENTHOUSE a) Checking of Top supporting spring / slings and all header supports. b) Repairing & resetting of spring / slings by hammer blow with diamond spring, correction if required. NOTE: A dedicated supervisor experienced in hanger support erection/servicing work to be deputed for the subject job.	3.00%
Item No.04	<u>OVERHAULING OF BOILER DRUM:</u>	(3.00%)
1.0	1. Open the manholes of boiler drum and provide exhaust fan for forced cooling. Successful bidder has to arrange the fan for the same. Down comer openings will be covered by covers and asbestos cloth. 2. Blocking of all six down comer pipes securely by plates to prevent entry of foreign materials. 3. While working inside the drum only 24 volts power supply connections shall be used. All necessary arrangement for the same has to be arranged by successful bidder. 4. Removal of cyclone separators for inspection & cleaning. 5. Cleaning of the welding joints of steam chest, cyclone separator with the help of Teflon brush so as not to damage the magnetite layer. 6. Inspection of the drum internals & vortex breaker after cleaning. 7. After cleaning carry out the DPT of the welding joints of the steam chest. The successful bidder has to arrange kit for DPT. DPT of the joints will be checked by DPL representative.	1.00%

2.0	1. Cutting and removal of the phosphate dosing header from the drum and cleaning of the same. 2. After cleaning and inspection of the phosphate dosing header, re-welding of the header in its position. 3. Removal of the CBD isolation v/v bonnet or cut the CBD line to check the CBD line of the boiler drum for any chocking. 4. Lapping and blue matching of drum manholes and its matching surface is to be done. If required, material build up and scrapping to be carried out to achieve matching surface. 5. Reassemble the drum internals and removal of all the left out material from the drum.	1.00%
3.0	1. After inspection and clearance from Engineer In charge the drum has to be boxed up after putting proper gasket for the drum manhole. 2. Carryout hot tightening of drum manholes after boiler light-up at pressures specified by the BHEL Site Engineer in charge. 3. Checking of down comer suspension and drum suspension.	1.00%
Item No.05	OVERHAULING OF COAL & OIL BURNER SYSTEM	(8.00%)
1.0	1. Cleaning of wind box and inspection for any damage and repairing of leakages, if any including expansion joints. 2. Checking and repair of supporting truss in Wind Box. 3. Inspection, repair of SADC damper and ensuring mechanical freeness and full open / close of the dampers. Servicing of SADC power cylinders and instrumentations are excluded. 4. Dismantling of 24 nos coal and Air nozzle assembly. 5. Dismantling of oil burners. 6. Inspection of coal and air nozzle and oil burner component and Replacement of the same if required. Repair of coal inlet isolating gates and replacement of their Gland/seals. 7. If required Hard facing of coal nozzle, divider plates, nozzle tips to be carried out. Hard facing electrodes to be arranged by vendor. SS electrodes and electrodes for dissimilar joints have to be arranged by successful bidder within quoted lumpsum price.	3.00%
2.0	1. Assembly of coal, oil and air nozzles system. 2. Replacement of the burner inner and outer casing bolts. 3. Cleaning/ servicing / replacement and assembly of oil gun guide pipe, igniter guide pipe and scanner guide pipe assemblies. 4. Cleaning / Replacement of atomizing steam and oil hoses.	3.00%
3.0	1. Inspection and replacement of igniter and scanner cooling air hoses. 2. Servicing of Burner tilting mechanism. 3. Servicing and Adjustment of SADC Dampers. 4. Adjustment of coal / air nozzle, oil burners and tilting mechanism. 5. Servicing and repair of coal gates at burner mouth for easy operation and covering of the gate spindle with pipe / plate to avoid accumulation of ash on the thread if possible.	2.00%
Item No-06	OVERHAULING OF AIR PRE HEATERS - 02 Nos.	(12.00%)
1.0	1. Opening of manholes. 2. Removal of hot and cold end baskets from position, thereafter cleaning/ water washing and inspection of the APH modules. Cleaning/ water washing (if required High Pressure Jet Pump shall be used to clean APH Basket) and inspection of hot intermediate basket in position and replacement as required. Re-fixing of new or removed hot end baskets and cold end baskets in position after necessary replacement/cleaning. Repair of the APH Modules and cold end gratings before insertion of the APH Basket. Cleaning of the re-useable baskets, as indicated after joint inspection has to be done by High pressure Water Jet. After cleaning they will once again be jointly inspected. Before the inspection of the baskets removed, they are to be properly arranged and shorted out in the place as indicated by BHEL Site Engineer in Charge. All the arrangement for inspection and cleaning has to be done by successful bidder. The cleaned baskets have to be reused and the damaged ones will have to be replaced. 3. Cleaning of Air pre heater chamber and inspection. 4. Cleaning of accumulated ash from the sector plate box after cutting the static seal of sector plates throughout the length & restoration of the same after final inspection by BHEL Site Engineer in Charge. 5. Repair of sector plate, if required, by replacing the damaged portion of the subject sector	2.50%

	plate.	
2.0	1. Inspection / resetting and replacement of all seals including axial, radial, by-pass seals, Rotor post seals (if required), static seals and packers. 2. Replacement of woofs of all the static seals. Repair of hot spool sealing system and air seal of trunion. 3. Rotor leveling and sector plate adjustment. 4. Repair/ surface finishing of sector plates and leveling. Inspection / cleaning / repairing / replacement of sector plate adjustment bolts, head links, shims and packers. Inspection, adjustment of axial seal plates and replacement of woofs of the same. 5. Repair / replacement of eroded house panel, pipe supports stiffeners, expansion joints etc. after air leak test. 6. Checking of nozzles of water washing, fire fighting and shoot blowing system for possible chokeage and cleaning / replacement as required.	3.50%
3.0	1. Dismantling, cleaning, inspection Adaptor sleeve by removing the guide bearing and its other components, checking of contact of adopter sleeve with trunion, re-assembly of the same for both Air pre-heater and replacement of bearings if required. Replacement of ropes of sealing tube. 2. Cleaning and inspection of the both support bearings & guide bearings and its other components by shifting the bearing assembly from its positions to lower elevation and replacement if required for both air pre-heaters. DP test for lower race has to be carried out. Servicing of shaft sealing systems and water shield arrangement. 3. Servicing of air motor and shoot blowing drives, Barco swivel joints and DA head valves. The bush bearing of S.B system have to be dismantled and after cleaning to be fitted & there after greasing and replacement of gland packing. 4. Inspection of Trunion Bolts and Module mounting Pins for both the APHs. 5. Servicing of lube oil system. 6. Cleaning of lube oil coolers and filters, servicing of relief valves including Hydro Test of lube oil coolers of the lube oil system of both guide and support bearings. Modification of oil and water lines if required. 7. Inspection of drive pinion and pin rack 8. Resetting / replacement of T –bar, rotor angle & by pass angle if required 9. Internal inspection of the speed reducers of the APHs and the replacement of the same if required.	3.50%
4.0	1. Repair/replacement of heating element Module frame and supporting pipes. Repair/replacement of eroded house panel, pipe supports, stiffeners, expansion joints etc after air leak test. The worn out supporting structural members have to be removed and a new structural members have to be fitted either after fabricating the same from MS plate or MS flats as per availability. The supporting pipes have to be shielded by SS Shields or MS angles. 2. Servicing of drive pinion air sealing system and trunion air sealing system. 3. Attending to all air leakages which are found from the APH body by running, ID & FD Fans. 4. Test run of the APH and necessary corrective action, if any abnormality is observed. 5. Inspection of refractory on centre section around hot spool seal & application as per requirement. 6. Steam washing/soda wash of old and new APH baskets if required has to be carried out and laying of steam pipe from nearest tapping points for the above purpose is in scope of successful bidder. However, material required for the above job to be arranged by vendor.	2.50%
Note	Four way gang jacks with high pressure oil pump and accessories for lifting of rotor and high pressure pump and jack for dismantling of guide & support bearing assy will be supplied by DPL. Other applicable T&P will be supplied by the vendor.	
Item No-07	OVERHAULING OF BOILER SAFETY VALVE	(6.00%)
1.0	Valve to be serviced: Drum safety valves --- 03 nos. Super heater safety valve --- 02 nos. Hot & Cold re-heater safety valves --- Any 02 nos as per EIC Activities involved: 1. Erection of scaffolding wherever required.	

	2. Checking of previous set points. 3. Dismantling and inspection of safety valve internals and cleaning. 4. Lapping of valve disc and valve seat. Valve seat cutting/re-setting, if required. Design value of seat height (upper value) has to be maintained as per the instruction of BHEL Site Engineer in Charge. 5. Checking of valve spindle run out and replacement, if required. 6. DPT of valve spindle, disc, seat, spring etc. and redressing / seat cutting, if required. 7. Re-assembly and pressure blow down setting. 8. Checking of supports/suspension of Safety valve exhaust pipe & silencer. 9. Successful bidder has to arrange safety valve floating party with treavy test kit within the lumpsum quoted price for pressure setting of safety valves. Actual floating of safety valve to be demonstrated as per requirement of DPL. 10. Successful bidder has to arrange seat cutting machine for seat cutting of 1 no safety valve. 11. Removal and relaying of insulation wherever required. 12. Removal of scaffolding.																
Item No-08	OVERHAULING OF HP VALVES AND OTHER VALVES	(5.00%)															
1.0	List of valves to be serviced:- <table border="1"> <thead> <tr> <th>Sl. No.</th><th>Valve Description with TAG No.</th><th>Total Nos.</th></tr> </thead> <tbody> <tr> <td>1</td><td>Overhauling of HP valve size above 25 mm & up to 50 mm (class 2500 & 3000)</td><td>02 Nos.</td></tr> <tr> <td>2</td><td>Overhauling of HP valve size above 50 mm & up to 100 mm (class 2500 & 3000)</td><td>04 Nos.</td></tr> <tr> <td>3</td><td>Overhauling of HP valve size above 100 mm & up to 200 mm (class 2500 & 3000)</td><td>02 Nos</td></tr> <tr> <td>4</td><td>Overhauling of HP valve size above 200 mm (class 2500 & 3000)</td><td>02 No.</td></tr> </tbody> </table> Activities:- 1. Erection and removal of scaffolding as required. 2. Removal of insulation as required. 3. Dismantling of valves after actuator removal.	Sl. No.	Valve Description with TAG No.	Total Nos.	1	Overhauling of HP valve size above 25 mm & up to 50 mm (class 2500 & 3000)	02 Nos.	2	Overhauling of HP valve size above 50 mm & up to 100 mm (class 2500 & 3000)	04 Nos.	3	Overhauling of HP valve size above 100 mm & up to 200 mm (class 2500 & 3000)	02 Nos	4	Overhauling of HP valve size above 200 mm (class 2500 & 3000)	02 No.	1.00%
Sl. No.	Valve Description with TAG No.	Total Nos.															
1	Overhauling of HP valve size above 25 mm & up to 50 mm (class 2500 & 3000)	02 Nos.															
2	Overhauling of HP valve size above 50 mm & up to 100 mm (class 2500 & 3000)	04 Nos.															
3	Overhauling of HP valve size above 100 mm & up to 200 mm (class 2500 & 3000)	02 Nos															
4	Overhauling of HP valve size above 200 mm (class 2500 & 3000)	02 No.															
2.0	1. Cleaning, inspection & DP test of valve components. 2. Replacement of damaged / worn out internals. 3. Lapping and blue matching of valve seat and valve disc/ wedge as required. 4. Checking of spindle straightness & correction. 5. Assembly of valve after servicing.	2.00%															
3.0	1. Mounting and coupling of actuators with valve spindle, setting of valve and actuators stroke. 2. Relaying of insulation.	1.00%															
4.0	HIGH PRESSURE VALVE REPLACEMENT 1. Replacement of HP valve , size up to 50mm, Qty 1 No 2. Replacement of HP valve , size above 50mm & up to 100 mm, Qty 1 No 3. Replacement of Thermo well, Qty 2 Nos Activities: a. Cutting & removal of valve with actuator. b. Fitting & welding of new valve, 100 % Radiography & Heat Treatment (if required). c. Mounting of actuator.	0.50%															

5.0	HP Valve Actuator Cleaning, Greasing & TIT-BIT Maintenance 1. Servicing of Valve Actuator, size up to 50mm, Qty 04 Nos 2. Servicing of Valve Actuator, size above 50 mm & upto 300 mm, qty 5 Nos 3. Servicing of Valve Actuator, size above 200 mm & up to 350 mm, Qty 5 Nos Activities: a. Cleaning, greasing & oil filling. b. Assistance during servicing of Actuator if required.	0.50%
Note	Additional valve replacement beyond above scope to be carried out by the contractor on additional price basis. Rates for replacement of valves inclusive of handling of valves, HP welding, radiography and stress relieving as applicable, shall be paid to the party as per following rate: - • On physical HP weld joint basis @Rs 400/- per joint for Carbon steel joint and Rs 450/- per joint for Alloy steel joint.	
Item No-9	<u>REFRACTORY</u>	(1.00%)
1.0	1. The Scope includes casting of 10 MT of Refractory. 2. The refractory material has to be transported from DPL store to work site(s) as per the instructions of the BHEL Site Engineer in charge 3. Checking of damaged refractory lining in Boiler 1st and 2nd pass and application of refractory as per required. Application of refractory in pent house and its roof as and where required. 4. Checking and repairing of castable refractory in peep hole doors, manhole doors, Wall/ Soot Blower openings, penthouse, rear wall, LTSH I/L header, Butterfly header, 2nd pass ring header and any other area as per direction of Engineer in charge with wire mesh for proper reinforcement.	0.50%
2.0	1. All the damaged refractory is to be properly removed without any damage to the surface on which it is applied. 2. Dry refractory is to be mixed with water, as per the instructions of the BHEL Site Engineer in charge 3. This is then to be applied in the required area with adequate precautions/protection to the personnel carrying out the job. 4. Proper curing time is to be given to the applied refractory so that it acquires the requisite strength. 5. Disposal of damaged refractory at designated yard.	0.50%
Note	a) The scope of work includes casting of 10 MT refractory. Casting of refractory beyond 10 MT shall be paid extra at the following rate: - • Casting of Refractory @Rs 2500/- (Rupees two thousand five hundred only) per MT b) Recovery at the same rate as above will be made from lumpsum price if the quantity of job is less than 10MT as specified above.	
Item No-10	OVERHAULING OF DUCTS, GATES AND DAMPERS OF AIR & FLUE GAS DUCTS	(5.00%)
	ANY 10 NOS OF GATE & DAMERS WILL BE SERVICED FROM FOLLOWING AREAS 1 ID Fan Suction Inlet Guide Vane 2 Hot Air Gate & Damper 3 Cold Air Gate & Damper 4 P.A. Fan outlet Gate 5 Seal air Fan Dampers 6 F.D. Fan Discharge Gate 7 APH bypass Damper 8 APH Inlet PA damper 9 APH Outlet PA damper 10 APH Inlet FG Damper 11 APH Outlet FG Damper 12 APH Outlet SA Damper 13 ID Fan Inlet Gates 14 ID Fan O/L Gate 15 Seal Air Fan Suction damper	

	16 ESP inlet FG Gate 17 ESP Outlet FG Gate Detail scope of work: a) The gap between Duct and Gates-Dampers including side walls are to be adjusted by using Shims. Necessary GD gate plate, guide beams (I-beam) worn out part fabrication work is included in the scope of the vendor (MS plate or I-beams will be supplied by DPL) and jobs are to be carried out as per the instruction of BHEL Site Engineer in charge. b) Drive shaft, driven shaft, gears and chains of GD are to be thoroughly cleaned after removal of guard plates and it will have to be checked by controlling officer. c) All Dampers and Gates freeness checking are to be checked in presence of controlling Officer. Graphite sheets for damper are to be used for lubrication as per the instruction of controlling officer. d) Necessary shim replacements for GD Gates & HAG of PA Fans (both top wall & side walls) are included in Gate Servicing Scope of work. For that necessary S.S. Shims are to be provided to the Vendor. e) Servicing of Pneumatic/motorized actuators are to be done with consultation of controlling officer. Servicing, cleaning, greasing and oil replacement of all motorized actuators are to be covered under this scope. f) Electrical disconnection and reconnection of actuator is excluded from this scope of work.	
Item No-11	Assistance during Cold Air Velocity Test.	(0.50%)
Item No-12	Assistance during Commissioning/synchronization of the unit	(8.50%)

General scope of work and terms:

01. Fabrication of site store near work site.
02. Contractor shall arrange all consumables, T&P's required for above job.
03. Welding of stainless steel / dissimilar metals, if required, is to be done. Electrode E-309/D1212 for dissimilar welding with one base metal stainless steel is to be provided by the Vendor.
04. Power sockets & welding machines etc. are to be arranged by vendor.
05. For H.P. joints of pressure parts following filler rods & electrodes are to be used and to be supplied by the vendor:

S.N.	Tube specification	Brand Name	Filler Rod	Electrode
1.	SA 210 Gr. C & A-1	TGSM	½ Mo (ER80S-D2)	E-7018-1
2.	SA 213 T 11	TGS1CM	1¼ Cr ½ Mo (ER80S-B2)	E-8018-B2
3.	SA 213 T 22	TGS2CM	2 ¼ Cr 1 Mo (ER90S-B3)	E-9018-B3
4.	SA213T91	-	ER-90S-B9	E-9015-91
5.	SA 213 TP 347 H	TGS-347	ER 347	-

06. Fabrication/repair/machining of components / spares.
07. Fabrication of fixtures and illumination of work zone.
08. Removal and relaying of insulation wherever applicable.
09. Minor modification job.
10. Transportation of spares from DPL store to site and return to store if not used.
11. Transportation of special T& Ps, lifting tackles etc. from DPL store to site and return to store after job completion.
12. Issuing and returning of materials from DPL store and returning back & material reconciliation.
13. General illumination is available but for carrying out overhauling job any illumination is required is to be arranged.
14. After completion of work, the area shall be cleared up to the satisfaction of BHEL Site Engineer in charge/EIC-DPL. Disposal of scrap/ waste/ insulation generated while overhauling work to be disposed off at predetermined place as indicated by DPL by the bidder including transportation of the waste.
15. The contractor shall have to bear for the loss of any damage to the items belonging to DPL due to Improper handling / storing or improper fitting etc. and necessary recoveries will be made from the Contractor.
16. The contractor shall erect approach platform as per requirement and dismantle the same. Scaffolding material shall be brought by the contractor.
17. The contractor shall be fully responsible for maintenance of records of his employees.

18. Contractor shall engage his personnel round the clock and shall submit detailed work plan, bar chart, manpower deployment plan (in nos. and skill level only) round the clock and work progress and these shall be discussed and agreed prior to award of contract.
19. Housekeeping: Maintaining proper cleanliness around the work area is the contractor's responsibility. The contractor has to depute separately identified persons exclusively for area cleaning.
20. Safety Requirements: All persons working shall strictly follow the DPL safety norms. Contractor shall be solely responsible for ensuring the safety of his all worker / employees.
21. Contractor shall provide and ensure the proper use of all safety gadgets to / by his all employees / workers engaged for this work. Contractor shall provide following safety gadgets conforming to the IS norms: safety helmets, safety goggles, safety shoes, hand gloves, & safety belts. Failing to the issue or use of the safety gadgets based on the requirement (abiding to the safety norms) a penalty shall be imposed.
22. The contractor shall ensure that safety related awareness training has been given to his all workers / employees at the time of start of contract and it is mandatory to obtain identity card for the same from DPL safety department.
23. Qualified safety supervisor(s) must be engaged by the contractor to take care of safety exclusively of his workers / employees engaged for the subject work. Contractor shall also ensure that there shall not be any safety hazard to the persons / machines in the vicinity due to his activities.
24. All lifting tools and tackles to be used shall be having the valid test certificate (with proper identification mark on the tools) from government approved agency and the same shall be produced to Engineer before start of work.
25. Other Requirements: Contractor shall ensure that environmental related awareness training has been given to his workers / employees at the time of start of contract.
26. **Agency has to arrange their own incoming / outgoing Road permit for the T&Ps, materials, consumables etc. required for the work.**
27. **Deployment of one Safety Officer (round the clock) having qualification of Diploma in Safety for entire duration of the job.**

For all the above cases arrangement of Mobile Crane, Trolley-Tractor, Hydra Crane & other Material handling equipment (if required) will be in vendor's scope

TAXES & DUTIES –GST REGIME

1.0	TAXES & DUTIES, ETC.
1.1	All taxes excluding GST with applicable cess & BOCW Cess (mentioned elsewhere in the Tender) but including, Charges, Royalties, , any State or Central Levy and other Taxes for materials if any obtained for the work and for the execution of the contract shall be borne by the bidder and shall not be payable extra by BHEL.
1.2	Any increase in the above at any stage during execution including extension of the contract, if any, shall have to be borne by the contractor. Quoted/ accepted rates/ price shall be inclusive of all such requirements.
1.3	GST with applicable Cess, legally leviable & payable by the successful bidder as per GST Law, shall be paid extra by BHEL. Hence, Bidder shall not include GST with applicable Cess in their quoted price.
1.4	The successful bidder shall furnish proof of GST registration with GSTN Portal covering the services under this contract. Registration should also bear endorsement for the premises from where the billing shall be done by the successful bidder on BHEL for this project/ work.
1.5	Since GST on output will be paid by BHEL separately as enumerated above, bidder's quoted rates/ price should be after considering the Input Credit under GST law at their end.
1.6	TDS under Income Tax shall be deducted at prevailing rates on gross invoice value from the running bills unless exemption certificate from the appropriate authority/ authorities is furnished.
1.7	TDS under GST (if/ as & when applicable later) shall be deducted at applicable rates on gross invoice value from the running bills. However as on date no TDS under GST is applicable.
1.8	Bidder shall note that the GST Tax Invoice complying with GST Invoice Rules (Section 31 of GST Act & Rules referred there under) wherein the 'Bill To' details shall be as per following. BHEL GSTN – 19AAACB4146P1ZC NAME: Bharat Heavy Electricals Limited

	ADDRESS: BHEL-PSER DJ-9/1, sector-II Salt Lake City, Kolkata-700 091 West Bengal, India
1.9	Bidder to intimate immediately on the day of removal of Goods(in case of any supply of goods) to BHEL along with all relevant details and a scanned copy of Tax Invoice through following communication mode for enabling BHEL to meet its GST related compliances Portal Address – Shall be intimated later. And Email Address – Shall be intimated later. In case of delay in submission of the abovementioned documents on the date of dispatch, BHEL may incur penalty /interest for not adhering to Invoicing Rules under GST Law. The same will be liable to be recovered from the successful bidder, if such delay is attributable to the bidder.
1.10	In case of raising any Supplementary Tax Invoice (Debit / Credit Note) Bidder shall issue the same containing all the details as referred to in Section 34 read with Section 31 of GST Act & Rules referred there under.
1.11	Bidder shall Comply with the Time limit prescribed under the GST Law and rules thereof for raising of the tax invoice. If any supply of goods is applicable, Bidder shall also ensure prompt delivery of Goods after dispatch.
1.12	Bidder shall note that in case GST credit is delayed/ denied to BHEL due to delayed / non receipt of goods and /or tax invoice or expiry of the timeline prescribed in GST Law for availing such ITC, or any other reasons attributable to the bidder, GST amount shall be recoverable from the bidder along with interest levied / leviable on BHEL, as the case may be.
1.13	Bidder shall upload the Invoices raised on BHEL in GSTR-1 within the prescribed time as given in the GST Act. Bidder shall note that in case of delay in declaring such invoice in your return and GST credit availed by BHEL is denied or reversed subsequently as per GST Law , GST amount paid by BHEL towards such ITC reversal as per GST law shall be recoverable from the bidder along with interest levied / leviable on BHEL.
1.14	Way Bill: Successful Bidder shall arrange way bill / e-waybill for any transfer of goods for the execution of the contract. The Bidder has to make their own arrangement at their cost for completing the formalities, if required, with Issuing Authorities, for bringing materials, plants & machinery at site for execution of the works under this contract, Road Permit/ Way Bill, if required, shall be arranged by the contractor and BHEL will not supply any Road Permit/ Way Bill for this purpose.
1.15	Any new taxes & duties, if imposed subsequent to the due date of offer submission as per NIT & TCN, by statutory authority during contract period (including extensions for which delay is not attributable to the bidder), shall be reimbursed by BHEL on production of relevant supporting document to the satisfaction of BHEL. However, bidder shall obtain prior approval from BHEL before depositing any such new taxes and duties. Benefits and/or abolition of all existing taxes must be passed on to BHEL against new taxes, if any, introduced at a later date.

-----X-----

Annexure –BOCW

Specific clause wrt BOCW Act & Cess Act

1. It shall be the sole responsibility of the contractor as employer to ensure compliance of all the statutory obligations under the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 and the Building and other Construction Workers' Welfare Cess Act, 1996 and the rules made thereunder.
2. It shall be sole responsibility of the contractor engaging Building Workers in connection with the building or other construction works in the capacity of employer to apply and obtain registration certificate specifying the scope of work under the relevant provisions of the Building and Other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 from the appropriate Authorities.
3. It shall be responsibility of the contractor to furnish a copy of such Registration Certificate within a period of one month from the date of commencement of Work.
4. It is responsibility of the contractor to register under the Building and other Construction Workers' Welfare Cess Act, 1996 and deposit the required Cess for the purposes of the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 at such rate as the Central Government may , by notification in the Official Gazette, from time to time specify. However, before registering and deposit of Cess under the Building and other Construction Workers' Welfare Cess Act, 1996, the contractor will seek written prior approval from the Construction Manager.
5. In case where the contractor has been accorded written approval by the Construction Manager and the contractor is required to furnish information in Form I and deposit the Cess under the Building and other Construction Workers' Welfare Cess Act, 1996, fails to do so, BHEL reserves right to impose penalty at the rate of 30% of Cess Amount.
6. It shall be sole responsibility of the contractor as employer to get registered every Building Worker, who is between the age of 18 to 60 years of age and who has been engaged in any building or other construction work for not less than ninety days during the preceding twelve months as Beneficiary under the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996.
7. It shall be sole responsibility of the contractor as employer to maintain all the registers, records, notices and submit returns under the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 and the Building and other Construction Workers' Welfare Cess Act, 1996 and the rules made thereunder.
8. It shall be sole responsibility of the contractor as employer to provide notice of poisoning or occupation notifiable diseases, to report of accident and dangerous occurrences to the concerned authorities under the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 and the rules made thereunder and to make payment of all statutory payments & compensation under the Employees' Compensation Act, 1923.

Specific clause wrt BOCW Act & Cess Act

9. It shall be responsibility of the Contractor to furnish BHEL on monthly basis, Receipts/ Challans towards Deposit of the Cess under the Building and other Construction Workers' Welfare Cess Act, 1996 and the rules made thereunder along with following statistics :
 - (i) Number of Building Workers employed during preceding one month.
 - (ii) Number of Building workers registered as Beneficiary during preceding one month.
 - (iii) Disbursement of Wages made to the Building Workers for preceding wage month.
 - (iv) Remittance of Contribution of Beneficiaries made during the preceding month
10. BHEL shall reimburse the contractor the Cess amount deposited for the purposes of the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 under the Building and other Construction Workers' Welfare Cess Act, 1996 and the rules made thereunder. However, BHEL shall not reimburse the Fee paid towards the registration of establishment, fees paid towards registration of Beneficiaries and Contribution of Beneficiaries remitted.
11. It shall be responsibility of the Building Worker engaged by the Contractor and registered as a beneficiary under the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 to contribute to the Fund at such rate per mensem as may be specified by the State government by notification in the Official Gazette. Where such beneficiary authorizes the contractor being his employer to deduct his contribution from his monthly wages and to remit the same, the contractor shall remit such contribution to the Building and other construction Workers' Welfare Board in such manner as may be directed by the Board , within the fifteen days from such deduction.
12. If any point of time during the contract period, non-compliance of the provisions of the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 and the Building and other Construction Workers' Welfare Cess Act, 1996 and the rules made thereunder is observed, BHEL reserves the right to withhold a reasonable amount from the payables to discharge any obligations on behalf of Contractors. The reasonable amount shall be decided by the Construction Manager in consultation with Resident Accounts Officer & Head HR and shall be final.
13. The contractor shall declare to undertake any liability or claim arising out of employment of building workers and shall indemnify BHEL from all consequences / liabilities / penalties in case of non compliance of the provisions of the Building and other Construction Workers' (Regulation of Employment and Conditions of Service) Act, 1996 and the Building and other Construction Workers' Welfare Cess Act, 1996 and the rules made thereunder.

ANNEXURE – SAS-I

ESSENTIAL CONDITIONS TO BE FULFILLED BY SUCCESSFUL BIDDER

01. Successful bidder has to arrange 6 copies of overhauling reports which will include various protocols with necessary data / MOMs / important correspondences / log sheets etc. and the books shall be spiral bound with thick acetate papers in front and back along with BHEL logo printed suitably on thick art paper at the front.
02. Bidder has to arrange to provide PC with internet connection, with colour printer and Xerox paper as required for taking print out compatible with WINDOW vista version or, latest version loaded with necessary software, during entire period of execution of job at site , for preparing /maintaining / up keeping of various correspondences/ protocols/log shts. etc. . PC shall be operated by PC operator conversant with AUTOCAD and other softwares to be arranged by the successful bidder within the scope. All data thus stored during the execution of job shall be transferred to hard disc, (8 GB capacity) and handed over to Resident Manager at site after the Overhauling for submission to Customer. In case vendor fails to provide the PC operator, Rs 8000/- per month shall be deducted from vendor's bill.
03. Successful bidder is to render services for proper up-keepment of BHEL site office as required. Full time office boy is required to be provided by the successful bidder at site for up keepment of site office.
04. After dismantling and during execution of the job, successful bidder has to suitably tag the components and sub-assemblies for trace ability and store properly before final assembly. This is as per Doc. Nos. PSER:PMX:002:94 & PSER:PMX:001:94.
05. Process control of Special Processes like Welding and Heat Treatment shall be carried by successful bidder as per Doc. Nos. PSER:QLY:001:99, PSER:QLY:001:94 (3 VOL) and PSER:QLY:003:99.
06. Proper segregation, identification, tagging and up-keep of all dismantled items at work site during job execution have to be done by successful bidder.
07. Successful bidder is to obtain necessary "No Dues" certificates before de- mobilisation from site.
08. Successful bidder is to comply with all the statutory and regulatory norms, rules and practices as applicable for the job/site.
09. Successful bidder shall provide valid calibration certificates for IMTEs, fitness certificates for T&Ps and Construction Equipment (e.g. wire ropes, hand operated chain pulley blocks, pulling and lifting machines, electric welding generators, arc welding transformers etc.). Calibration of IMTEs is to be arranged from the accredited agencies. Calibration certificates should have the traceability as per national/international standards. At work site the IMTEs, T&Ps and Construction Equipment shall be checked/tested/inspected by BHEL engineers. The procedure for fitness testing and storage preservation and maintenance of Construction Equipment and T&Ps shall be as per Doc. Nos. PSER:FEX:001:94, PSER:SAS(CAL):016:95 and PSER:FEX:002:94 available with BHEL site engineers.

10. Successful bidder should follow all safety norms at work site. The Doc. No.PSER:PMX:004:94 in this regard is available with BHEL engineer at site.
11. Any NDT within the scope shall be as per Non-Destructive Examination manual (Doc. No. PSER: QLY:002:99 available with BHEL site engineer.
12. Provision of hygienic filtered drinking water facility at BHEL site office.
13. The successful bidder is to arrange a full set of First Aid kit for attending to manpower deployed by him at site as per requirement.
14. The successful bidder is to arrange extra illumination at work site to augment the existing site illumination if required to enable round-the-clock safe working.
15. Within the quoted price, the bidder has to arrange new set of utensils (cooking & serving), stoves, gas cylinders / gas oven, electric heaters, chairs, tables etc. including cooks / helpers for preparation of food for 10 nos. BHEL persons. The successful bidder will also be responsible for taking over and vacate the BHEL mess quarter. Bidder has to provide foods for the cook and helper.
16. Still colour photography (Max. 36 nos on Matt paper, postcard size) of different machine parts and sub-assemblies as decided by BHEL site engineer is to be arranged by successful bidder at their cost.

TENTATIVE LIST OF T & P AND CONSUMABLES

The list of T & P is provided hereunder to be mobilized by the contractor as per mobilization time mentioned in Annexure-I. These will be physically verified by BHEL site Engineer. BHEL has the authority to penalize the contractor suitably including termination of contract if the required T&P's are not mobilized timely. However, it may be noted that the T&P list is only a guide for bidding and any other T&P as may be required for the job has to be mobilized by the successful bidder.

1.	Mobile Crane/Hydra (8/10/12 MT)	01 no.
2.	Truck/Trailer	As required.
3.	All tools and tackles, measuring instruments including Welding Generators (10 nos. minimum) and Transformers(10 nos. minimum), Bevel Protractor, 24 Volt electrical hand lamps, DPT kits as required are to be provided by the contractor. Contractor has to use only 24 Volt hand lamps with protective cage in the enclosed area of work to ensure safety of workmen.	
4.	Necessary consumables including welding electrodes, Argon gas, Oxygen & DA, valve lapping pastes, DPT consumables, Prussian blue etc. are to be arranged by the contractor.	
5.	Minimum 10 curie radiography source along with qualified personnel are to be arranged.	
6.	Cup-Lock scaffolding materials, clamps,safety nets, steel planks, handrail, including minimum 1” thick wooden planks for boiler 1 st pass & 2 nd pass are to be arranged by the party:	As required.
7.	High Pressure Jet Pump (to operate at pressure 150 kg/sq cm or higher)-	01 no
8.	Electric winches (5 MT) –2 no., (3MT) -2 No. and 02 nos. of electrical hoist is to be arranged by the party for lifting/lowering/handling of coal nozzle assembly and APH Baskets etc.	
9.	All Ring & D.E. Spanners upto 36mm	20 sets.
10.	Slogging spanners from 36mm to 100 mm	1 each
11.	Adjustable Spanners	5 Nos.
12.	Allen key set upto (17 mm)	3 sets.
13.	Hammer upto (05 Kg.)	5 Nos.
14.	Screw Driver all sizes	10 Nos.
15.	Hack – saw Frame	10 Nos.
16.	Files (smooth, rough) round, half round	8 Nos. of each Type
17.	Inside & Outside Circlip pliers	4 Nos. of each
18.	Wire rope (sling) 8mm, 12mm & 16mm (duly tested)	20 Nos. of each
	In appropriate length	
16.	D. Shackle 2T, 3T, 5T (duly tested)	8 Nos. of each
17.	Cutting torch along with regulator & hoses	12 sets
18.	Straight grinder	6 Nos.
19.	Chain Pulley block (2T, 3T) (duly tested)	12 Nos. each
20.	Chain Pulley block (5T) (duly tested)	4 Nos.
21.	Lifting & Pulling machines (3T, 5T) (duly tested)	4 Nos. each cap
22.	Angle Grinder	8 Nos.
23.	FF2 Grinder	6 Nos.
24.	Welding Generator and transformer (with welding cables)	6 Nos. each
25.	Chisel 5”, 12”	6 Nos. each
26.	Try Square	4 Nos.
27.	TIG set with Argon regulator	6 sets
28.	Heating torch along with regulator & hoses	2 Nos.
29.	Portable Electrode Heating oven	6 Nos.
30.	Vernier caliper	2 Nos.
31.	Measuring Tape (5 M)	6 Nos.
32.	Chop saw for tube cutting	2 Nos.
33.	Torch	10 Nos.
34.	24 V lamps and transformers	10 Nos.
35.	SRM/C if required	1 No.
36.	Lighting/ Extension Boards with proper plugs 5 point	16 Nos.
37.	D-meter	4 Nos.
38.	Hand hole cutting M/C, tools& fixtures if required	1 No.
39.	Multipoint Welding Transformer	1 No.
40.	All power cables upto the size 25 Sq mm	As required..

Note:

- 1) The above list of T&P's is not exhaustive but indicative only. Any shortage may be made up by the vendor as may be required for overall job completion.
- 2) Any other consumables, supplementary requirement has to be provided by the vendor for successful completion of the job.

Annexure-III

INPUTS TO BE ARRANGED BY THE CONTRACTOR

1. Contractor has to arrange for necessary labour licence, insurance etc. for their workmen and other necessary statutory requirements are to be fulfilled.
2. **Co-ordination with Boiler Inspector is the responsibility of the contractor.**
3. For Boiler Pressure parts job, contractor has to take necessary approval under Section 392 of IBR from the Boiler Directorate.
4. Contractor has to provide necessary skilled, semiskilled and unskilled manpower and supervision for the total job under the technical guidance of BHEL. ***Contractor has to provide sufficient HP WELDERS (minimum 05 nos.), and sufficient Attachment Welders (minimum 03 nos.) to execute the job on round the clock basis and complete the job in time.*** Contractor has to mobilise H. P. Welders well in advance for their site simulation test. ***Contractor has to provide sufficient experienced supervision staff (minimum 07 nos.) in respective areas in overhauling of boilers, 1 no Qualified Safety Supervisor & 1 no Qualified Quality Engr/Supervisor*** excluding site in-charge for close supervision of work as well as providing inputs for uninterrupted progress of the job. If vendor fails to provide above said above manpower (HP welders , Attachment welders and Supervision staff) for entire duration of work, then a deduction from vendor's bill will be made @ Rs 4000/- per day per person.
5. Cleaning, house keeping and security arrangement for the equipment, T&P and materials / spares is the responsibility of the contractor.
6. PERT network / BAR chart for the job is to be submitted prior to start of the job.
7. The contractor has to sign "INDEMNITY BOND" for obtaining Form –V (required for labour licence) from the Principal Employer **M/s DPL/DURGAPUR** on non-judicial stamp paper as per format provided by BHEL.

-----X-----

SPECIAL NOTE TO BIDDERS

01 LUMPSUM PRICE:

The bidders should quote lump sum price for the total scope of work mentioned in ANNEXURE – I. Compliance to Annexure SAS – I is mandatory. If successful bidder fails for compliance of Annexure SAS I, then total expenditure towards the said items shall be deducted from the successful bidder's bill.

02 Successful bidder has to submit the following documents on and during execution of the job:

- a) Labour license for the subject work.
- b) Insurance coverage of the total workers engaged for the job.
- c) Monthly wage certificate of the total work force.
- d) EPF for the workers engaged.
- e) Submit safety plan.
- f) Submit bar chart / job completion schedule as & when asked for.
- g) No due certificate / HR clearance from customer.

Successful bidder has to obtain "No Objection Certificates" from concerned depts. and P&A dept. of customer.

The scope under the specification (as per Annexure –I of scope of work) is not exhaustive but indicative only. However, any activity covered under the normal course of **overhauling works at DPL/DURGAPUR** shall be deemed to be within the scope.

Transportation of materials, T & Ps including Special T & Ps, lifting tackles etc. from **DPL/DURGAPUR** site stores to work spot as per requirement along with material reconciliation and also transportation of the T&P's / Instruments etc. from BHEL-KOL HQ / OTHER Eastern Region Sites to **DPL/DURGAPUR** site & back, is included in the scope of the vendor at their own cost. In case any part of the job is not carried out, a deduction will be effected as per percentage shown against those items.

03 Any related work not detailed under the above schedule of work but found essential for completion of the job has to be executed by vendor free of cost.

04 The vendor has to strictly comply with the SAFETY RULES & procedures of the **DPL/DURGAPUR. It is suggested that the prospective bidders may visit & contact **DPL/DURGAPUR** to know further details of their safety rules before quoting their price.**

05 Disposal of scrap/ waste/ insulation generated while overhauling work to be disposed off at predetermined place as indicated by **DPL/DURGAPUR by the bidder including transportation of the waste.**

06 Defect liability period against bad workmanship shall be 6 (six) months from the date of commissioning/synchronization of the unit. During this period if any re work are required to be carried out, then the same are to be done by the successful bidder. The successful bidder shall be responsible for timely execution and quality of overhauling job and stand guarantee against any defect due to bad workmanship. Once defect is registered within defect liability period, the successful bidder has to rectify the same free of cost during next available opportunity.

07 Security Deposit: Vendor shall furnish security deposit as per clause no.1.8 of GENERAL & SPECIAL CONDITIONS OF CONTRACT [FOR SERVICES JOB] and clause no (D) of SPECIFIC TERMS AND CONDITIONS FOR SERVICES JOBS. Security Deposit shall be released to vendor after successful completion of defect liability period of six (06) months and this shall be read in conjunction with clause no.1.8.9 of GENERAL & SPECIAL CONDITIONS OF CONTRACT [FOR SERVICES JOB].

08 Terms of Payment: Clause no (F), Sub clause 03(Terms of Payment), SPECIFIC TERMS AND CONDITIONS FOR SERVICES JOBS shall be read as bellow: -

- a) 80% of the contract value plus BOCW cess (as applicable) but excluding the amount of GST shall be payable against submission of three progressive running bills. Each of the billed amount shall correspond to the quantum of job actually completed and to that effect the claim can be preferred based on percentage allotments (to be given in the work order) made. This, however, has to be certified by the resident manager / engineer of the site.
- b) 10% of contract value value plus BOCW cess (as applicable) but excluding the amount of GST shall be payable on submission of statutory documents & 'no due certificate from customer's personnel department'.

- c) Balance 10% of contract value value plus BOCW cess (as applicable) but excluding the amount of GST shall be payable after synchronization of the unit and on receipt of final payment by BHEL from Customer **DPL/DURGAPUR** & after confirmation of full GST Credit to BHEL. Any Interest if levied thereon for reasons elaborated in Tax clause of the tender which is not attributable to BHEL will be recovered for the Final Payment / Retention.

BHEL at its discretion may further split up the percentage break up given in billing schedule and effect payment to suit site condition, cash flow requirement etc. according to progress of work.

- d) Applicable GST shall be released to the vendor upon compliance of following: -

- i. Vendor declaring such Invoice in his GSTR-1
- ii. Material Receipt Certificate (MRC)/ Engineering Protocol
- iii. Confirmation of payment of GST thereon by vendor on GSTN Portal
- iv. Above is subject to receipt of goods / service and tax invoice thereof along with vendor declaring invoice in his return and paying GST within timeline prescribed for availing ITC by BHEL.

- 9 **EXTRA WORK RATES CURRENTLY BEING ADMITTED BY BHEL, PS-ER [Page-10, SPECIFIC TERMS AND CONDITIONS FOR SERVICES JOBS, clause no. A (a) & A (b)] shall be read as below:-**
 - a) Average single man hour rate including overtime if any, supervision, T&P, other site expenses and incidentals including consumables as certified by site-in-charge of BHEL.
Rs 60/- per man hour (Rupees sixty per man hour only)
 - b) Same as above (a) but excluding supply of consumables by vendor.
Rs 40/- per man hour (Rupees forty per man hour only)

ANNEXURE-S

SAFETY PROVISION RELATING TO CONTRACTOR

Note: Annexure-S shall be read in conjunction with “HSE & OHSAS” clause of the tender. In case of any conflict or inconsistency between “Annexure-S” and “HSE & OHSAS” clause of the tender, the provisions in the “Annexure-S” shall prevail and shall be binding on the vendor.

SAFETY CLAUSES TO BE FOLLOWED BY VENDOR

01. Contractor shall be vigilant to ensure provisions of Factories Act, 1948 and other statutory provisions as applicable in respective area of work.
02. Contractor's responsibility is to collect copies of prevailing rules from Safety Department of the plant.
03. Contractors must ensure use of personal protective equipment by the workers. Personal Protective Equipment to be supplied by the contractor to their workers must be approved by Safety Department of the Plant before commencement of work.
04. The contractor shall clean the work premises after completion of work and inform controlling officer in writing to keep the place garbage free.
05. The contractor shall ensure periodic testing/ examination of equipment as well as safety tools and tackles, used by them as per provision of factories Act 1948 and Rules and maintain the up-to-date record for the same at site for inspection of departmental Engineer/ Safety Department on demand.
06. The contractor will ensure medical examination for the workers, who are working at hazardous areas before commencement of work and once in every year by qualified medical practitioners as per provision of the Factories Act, 1948 and W.B Factories Rules and maintain the Register for inspection by respective concerned Department/ Safety Department on demand.
07. The workers employed by the contractors should be suitably skilled for the respective job requirement otherwise head of concerned Department shall have the right to disallow unsuitable workers. The contractor shall engage suitable nos. of supervisors to ensure safety at all places of work during execution of the work.
08. In case of injury, contractor will send the injured person to Hospital/ Dispensary/ First Aid Centre with verbal intimation to the P&A Department, Utilizer Department as well as to Safety Department.
The contractor shall submit periodical progress report about the treatment till the injured worker is favored with fit certificate by the consulting Registered medical practitioner and the said Fit Certificate shall be submitted to Safety Department before resumption of duties by the injured worker.
09. The contractor shall report about Fatal / Serious injury of the concerned contract workers to local Police Station. District Magistrate Safety Department and concerned Department within 2 (two) hours but written report shall have to be submitted in prescribed form to Safety Department and concerned Department positively within 4 (four) hours.
10. In case of failure to fulfill Safety Requirements, concerned Head of Department shall have the right to claim 1% of Contract value or Rs. 1000/- per day , whichever is higher , till he fulfils the Safety requirement subject to maximum of 5% value of total works contract. Department is authorized to suggest such deduction to concerned Department.
11. If any accident occurs due to willful violation of conditions of contract/safety rules in spite of caution letter by Safety Department, the contracting agency will be imposed penal deduction of 5% of the work order value or Rs 10,000/- (Rupees Ten Thousand), whichever is higher. Penalty so imposed may only be waived on consideration of Head of Department with specific approval of next higher authority.
12. **In case of any Fatal or Serious accident occurred in connection with the contract job, the contractor will be solely responsible for payment of compensation (if any) to the nearest relative of the injured/ deceased. On the other hand, DPL shall have no liability to pay any type of compensation for that purpose.**

HSE & OHSAS

1.0	OCCUPATIONAL HEALTH, SAFETY & ENVIRONMENT MANAGEMENT/ QUALITY ASSURANCE PROGRAMME : BHEL, Power Sector Regions (PSNR/ER/WR/SR) are each certified for ISO 9001. Quality of work to customer's satisfaction and fulfillment of system requirements are the essence of ISO 9001 certification. BHEL, PS Region have HSE certification (ISO 14001 & OHSAS 18001) and therefore Contractor also shall organize / plan/ perform all their activities to meet with the applicable requirements of these standards.
1.1	HSE (Health, safety & Environment): Contractor will comply with HSE (Health, safety & Environment) requirements of BHEL. HSE requirements in brief, are given below :-
1.1.1	Contractor will nominate one of their qualified and experienced employees as Safety Officer, who will be responsible for all HSE related issues of contractors work area. Safety Officer will have authority to stop any activity, in case he observes that the activity is not being carried out in safe manner. He will conduct surprise inspection as well as periodic inspection/drill (at least once in a Week) and submit such reports to BHEL. He will conduct periodic meetings with working groups and explain HSE issues and use of PPEs to them. Reports of such meetings will be submitted to BHEL. Contractor will develop suitable work procedures based upon HSE guidelines and OCPs and implement it. Such work procedures will consist of Area of work, T&P Details, Work Procedure, PPE requirements etc. Contractor should highlight the requirement of safety to staff and labour through daily tool box meeting before start of the days job
1.1.2	The contractor shall ensure that proper job specific health check-up is done by medical professional for their employees during initial mobilization and thereafter if there is any change of job.
1.1.3	Following personnel protective equipments (PPEs), in adequate numbers, will be made available at site & their regular use by all concerned will be ensured :-
	- HELMET
	- SAFETY GOGGLES & WELDING FACE SHIELDS
	- SAFETY BELTS AND PROTECTIVE NET FOR WORKING AT HEIGHT
	- SAFETY SHOES
	- EAR PLUG - ANY OTHER SAFETY EQUIPMENT REQUIRED FOR SAFE COMPLETION OF THE WORK

HSE & OHSAS

1.1.4	Providing appropriate First Aid facilities for prompt treatment of injuries and illness at work place. Arranging training to contractor workmen/ employees for giving first aid.
1.1.5	Arranging ambulance in case of any emergency situation .
1.1.6	Identification of nearest hospital and health check-up of workmen/employees
1.1.7	Providing filtered drinking water at work place in cool container.
1.1.8	Providing appropriate fire fighting equipment at designated work place and nominate a fire officer/warden adequately trained for his job.
1.1.9	Identification of nearest fire station and display contact telephone nos. / person's name around work places for cases of emergencies .
1.1.10	Providing adequate no. of 24 V sources and ensure that no hand lamps are operating at voltage level above 24 Volts.
1.1.11	Fulfilling safety requirements at all power tapping points.
1.1.12	Red & White caution tape of proper width(1.5 to 2 inch) to be used for cordoning unsafe area such as open trench, excavation area etc.
1.1.13	Providing contractors company logo on cloths /uniform/ proper identity cards with photographs, for correct identification of people working at project site .
1.1.14	High/ Low pressure welders to be identified with separate colour clothings. No welders will be deployed without passing appropriate tests and holding valid welding certificates. Approved welding procedure should be displayed at work place.
1.1.15	Displaying safe handling procedures for all chemicals such as lube oil, acid, alkali, sealing compounds etc , at work place .
1.1.16	All scaffolding/ platforms should be made from materials of appropriate quality/grade so that these are safe for use. It should be certified/declared safe for use by an experienced contractor person, before any scaffolding/platform is used.
1.1.17	All T&Ps/ MMEs should be of reputed brand/appropriate quality & must have valid test/calibration certificates bearing endorsement from competent authority of BHEL.
1.1.18	Ensure that the regulatory requirement of excessive weight limit (to carry/lift/ move weights beyond prescribed limits) for male and female workers are complied with.
1.1.19	Safety slogan, Safety/ Caution boards , wherever required to be displayed in consultation with BHEL.

HSE & OHSAS

1.1.20	Take suitable measures for waste management and environment related laws/legislation as a part of normal construction activities. Compliance with the legal requirements on storage/ disposal of paint drums (including the empty ones), Lubricant containers, Chemical Containers, and transportation and storage of hazardous chemicals will be strictly maintained. Ensure proper cleanliness of work place, housekeeping and waste management (including proper waste disposal) on daily basis.																				
1.1.21	The Contractor is required to provide proper safety net systems where ever the hazard of fall from height is present as per instruction of BHEL Engineer. The safety nets shall be fire resistant, duly tested and shall be of ISI Mark and the nets shall be located as per site requirements to arrest or to reduce the consequences of a possible fall of persons working at different heights.																				
1.1.22	All applicable OCPs (Operational control procedures) will be followed by contractor as per BHEL instructions. This will be done as part of normal scope of work. List of such OCPs is given below . In case any other OCP is found to be applicable during the execution of work at site, then contractor will follow this as well, within quoted rate. These OCPs (applicable ones) will be made available to contractor during work execution at site. However for reference purpose, these are kept with Safety Officer of BHEL at the Power Sector Regional HQ, or available in downloadable format in the website, which may be refereed by contractor, if they so desire. <table border="1"> <tr><td>☐</td><td>OCP for safe handling of chemicals</td></tr> <tr><td>☐</td><td>OCP for Electrical safety</td></tr> <tr><td>☐</td><td>OCP for energy conservation</td></tr> <tr><td>☐</td><td>OCP for safe welding and gas cutting operation</td></tr> <tr><td>☐</td><td>OCP for fire safety</td></tr> <tr><td>☐</td><td>OCP for safety in use of hand tools</td></tr> <tr><td>☐</td><td>OCP for first aid</td></tr> <tr><td>☐</td><td>OCP for food safety at canteen</td></tr> <tr><td>☐</td><td>OCP for safety in use of cranes</td></tr> <tr><td>☐</td><td>OCP for storage and handing of gas cylinders</td></tr> </table>	☐	OCP for safe handling of chemicals	☐	OCP for Electrical safety	☐	OCP for energy conservation	☐	OCP for safe welding and gas cutting operation	☐	OCP for fire safety	☐	OCP for safety in use of hand tools	☐	OCP for first aid	☐	OCP for food safety at canteen	☐	OCP for safety in use of cranes	☐	OCP for storage and handing of gas cylinders

1.2	☐ OCP for Safe Loading of Unit SAFETY AND CLEANLINESS : The contractor shall take all necessary safety precautions and arrange for appropriate appliances as per discretion of BHEL or its authorised officials (Site Construction Manager) to prevent loss of human lives, injuries, to personnel engaged and damage to property. Before commencing the work, the contractor shall submit a "Safety Plan" to the above authorised BHEL official and obtain approval on the same. The safety plan shall indicate in detail the measures that would be taken by the contractor to ensure safety of men, equipment, materials and environment during execution of the work. This will also include an organization structure, role and responsibilities of the concerned key personnel, the safety practices that will be followed, PPEs deployed, plan for
1.3	handling critical activities and emergencies. If the contractor fails to take appropriate safety precautions or to provide necessary safety devices and equipment or to carry out instructions issued by the authorised BHEL official, BHEL shall have the right to take corrective steps at the risk and cost of the contractor.
1.4	During the course of construction, alternation or repairs, scrap with protruding nail, sharp edge etc and all other debris shall be kept clean from working areas, passage, ways and stairs in and around site.
1.5	Combustible scrap and debris shall be removed at regular intervals during the course of execution. Safe means shall be provided to facilitate such removal. The combustible scrap should be stored in safe place away from the plant materials to avoid fire accidents. The area shall be chosen in consultation with the Engineer and to be cordoned off.
1.6	Rigging equipment for materials handling shall be inspected prior to use in each shift and as necessary during its use to ensure that it is safe. Defective

HSE & OHSAS

	rigging equipment will be removed from service.
1.7	Rigging equipment shall not be loaded in excess of its recommended safe working load. Rigging equipment, when not in use, shall be removed from the original work area so as not to present a hazard to employees.
1.8	Contractor shall notify the engineer, of his intention to bring on to site any equipment or any container, with liquid or gaseous fuel or other substance which may create a hazard. The Engineer shall have the right to prescribe the condition under which such equipment or container may be handled and used during the performance of the works and the contractor shall strictly adhere to such instructions. The Engineer shall have the right to inspect any construction tool and to forbid its use, if in his opinion it is unsafe. No claim due to such prohibition will be entertained.
1.9	Where it is necessary to provide and/or store petroleum products or petroleum mixture & explosives, the contractor shall be responsible for carrying out such provision / storage in accordance with the rules & regulations laid down in the relevant petroleum act, explosive act and petroleum and carbide of calcium manual, published by the chief inspector of explosives of India. All such storage shall have prior approval if necessary from the chief inspector of explosives or any other statutory authority. The contractor shall be responsible for obtaining the same.
1.10	Cylinders shall be moved by tilting and rolling them on their bottom edges. They shall not be intentionally dragged, struck or permitted to strike each other violently.
1.11	When cylinders are transported by powered vehicle they shall be secured in a vertical position.
1.12	All workmen of the contractor working on construction area shall wear safety shoes, hand gloves, safety helmets and safety belt as applicable. The contractor shall provide to its workforce and ensure the use of following personnel protective equipment as found necessary and as directed by BHEL.
1.12.1	Safety Helmets conforming to IS-2965 : 1984
1.12.2	Safety Belts conforming to IS-3521:1983
1.12.3	Safety Shoes conforming to IS-1989 : 1978
1.12.4	Eye and face protection devices conforming to IS – 8620 : 1977 & IS – 8950 : 1978.

HSE & OHSAS

1.12.5	Hand and body protection devices conforming to IS – 2575 : 1975 and IS – 6994 : 1973, IS – 8907 : 1970 & 8619 : 1977
1.13	The contractor shall insure his workmen against all accidents and the policy shall be presented to BHEL Engineer on demand. Other wise, BHEL will arrange the same and the expenditure towards this will be debited to the contractor. In case of a fatal or disabling injury accident to any person at construction site due to lapses by the contractor, the victim and/or his/her dependants shall be compensated by the contractor as per statutory requirements. However, if considered necessary BHEL shall have the right to impose appropriate financial penalty on contractor and recover the same from payments due to the contractor for suitably compensating the victim and/or his/her dependence before imposing any such penalty. Appropriate enquiry shall be held by BHEL giving opportunity to the contractor for presenting his case. Above safety conditions are not exhaustive but gives an idea for the contractor and contractor shall adhere to all safety precaution given by the Engineer at site.
1.14	The contractor shall arrange at his cost adequate lighting facilities e.g. flood lighting, hand lamps, area lighting etc. at various levels for safe and proper working operations during night hours at the work spot as well as at the pre-assembly area.
1.15	The contractor shall be responsible for provision of all the safety notices and safety equipment as enjoined on him by the application of relevant statutory regulation / provisions and/or as called upon by BHEL from time to time. He shall be held responsible for any violation of statutory regulations (local, state or central) and BHEL instruction that may endanger safety of men, equipment and material.
1.16	The contractor shall provide temporary fencing wherever required as a safety measure against accident and damage to properties. Suitable caution notices shall be displayed where access to any part is found to be unsafe and hazardous.
1.17	Contractor shall ensure safety of all the workmen, material and equipment either belonging to him or to others working at site. He shall observe safety rules and codes applied by BHEL without exception.
1.18	It will be the responsibility of the contractor to ensure safe lifting of the equipment, taking due precaution to avoid any accident and damage to other equipment and personnel. All requisite tests and inspection of handling

HSE & OHSAS

	equipment, tools & tackle shall be periodically done by the contractor. Defective equipment shall be removed from service. Any equipment shall not be loaded in excess of its recommended safe working load.
1.19	The contractor shall provide necessary first aid facilities for all his employees, representatives and workmen at site and BHEL shall have no obligation in this regard. The first aid boxes should be placed at various elevations so as to make them available within the reach and at the quickest possible time. The contractor should conduct periodical first –aid classes to keep his supervisor and Engineers properly trained for attending to any emergency.
1.20	All the contractor's supervisory personnel and sufficient number of workers shall be trained for fire protection systems. Enough number of such trained personnel must be available during the tenure of contract. Contractor should nominate his supervisor to coordinate and implement the safety measures.
1.21	Contractor shall provide enough fire protecting equipment of the types and numbers at his office, stores, temporary structure in labour colony etc. Such fire protection equipment shall be easy and kept open at all times. The fire extinguishers shall be properly refilled and kept ready which should be certified at periodic intervals. The date of changing should be marked on the Cylinders. All other fire safety measures as laid down in the "codes for fire safety at construction site" issued by safety coordinator of BHEL shall be followed. Non-compliance of the above requirement under fire protection shall in no way relieve the contractor of any of his responsibility and liabilities to fire accident occurring either to his materials or equipment or those of others.
1.22	The contractor shall at his cost, remove from vicinity of work at least once each day all combustible waste, scrap, painting materials, rubbish, unused or other materials and deposit them in places specified by BHEL to keep the work site clear and tidy. Use of undercoated canvas paper, corrugated paper, fabricated carton, plastic or other flammable materials shall be restricted to the minimum and promptly removed.
1.23	The contractor shall not use any hand lamp energized by Electric power with supply voltage of more than 24 volts in confined spaces like inside water boxes, turbine casings, condensers etc.
1.24	All portable electric tools used by the contractor shall have safe plugging system to source of power and be appropriately earthed. Only electricians licensed by appropriate statutory authority shall be employed by the contractor to carry out all types of electrical works.

HSE & OHSAS

1.25	In case of any delay in completion of a job due to mishaps attributable to lapses by the contractor, BHEL shall have the right to recover cost of such delay from the payments due to the contractor, after notifying the contractor suitably.
1.26	Valve protection caps shall be kept in place and secured.
1.27	The contractor shall be responsible for the safe storage and handling of his radio-active sources as per BARC rules and regulations.
1.28	Tarpaulin being inflammable should not be used (instead, only non infusible covering materials shall be used) as protective cover while preheating, welding, stress relieving etc. at site.
1.29	If the contractor fails to improve the standards of safety in its operation to the satisfaction of BHEL after being given reasonable opportunity to do so and/or if the contractor fails to take appropriate safety precautions or to provide necessary safety devices and equipment or to carry out instruction regarding safety issued by BHEL, BHEL shall have the right to take corrective steps at the risk and cost of the contractor after giving a notice of not less than 7 days indicating the steps that would be taken by BHEL.
1.30	If the contractor succeeds in carrying out its job in time with out any fatal or disabling injury accident and without any damage to property BHEL may, at its sole discretion, favorably consider to reward the contractor suitably for the performance.
1.31	The contractor shall carefully follow the safety requirement of BHEL/ the purchaser with the regard to voltages used in critical areas.
1.32	The contractor shall use only properly insulated and armored cables which conform to the requirement of Indian Electricity Act and Rules for all wiring, electrical applications at site. BHEL reserves the right to replace any unsafe electrical installations, wiring, cabling etc. at the cost of the contractor. All electrical appliances used in the work shall be in good working condition and shall be properly earthed. No maintenance work shall be carried out on live equipment. The contractor shall maintain adequate number of qualified electricians to maintain his temporary electrical installations.
1.33	The contractor shall arrange adequate number of persons specifically for clearing any debris and for house keeping of the erection area including restacking of components in the erection areas.

HSE & OHSAS

1.34	In case of any damage to property due to lapses by the contractor, BHEL shall have the right to recover the cost of such damages from the contractor after holding an appropriate enquiry.
1.35	The contractor shall submit report of all accidents, fires and property damage etc to the Engineer immediately after such occurrence, but in any case not later than 24 hours of the occurrence. Such reports shall be furnished in the manner prescribed by BHEL. In addition periodic reports on safety shall also be submitted by the contractor to BHEL from time to time as prescribed by the Engineer.
1.36	Before commencing the work, the contractor shall appoint/nominate a responsible person to supervise implementation of all safety measures and liaison with his counterpart of BHEL.
1.37	Suitable scaffolds shall be provided for workman for all works that cannot safely be done from the ground, or from solid construction except in the case of short duration of work which can be done safely from ladders. When a ladder is used, it shall be of rigid construction made of steel. The steps shall have a minimum width of 45 cm and a maximum rise of 30 cm. Suitable handholds of good quality wood or steel shall be provided and the ladder shall be given an inclination not steeper than $\frac{1}{4}$ horizontal and 1 vertical.
1.38	Scaffolding or staging more than 3.6 m above the ground floor, swung or suspended from an overhead support or erected with stationery support shall have a guard rail properly bolted, braced or otherwise secured, at least 90 cm above the floor or platform of such scaffolding or staging and extending along the entire length of the out side and ends thereof with only such openings as may be necessary for the delivery of materials. Such scaffolding or staging shall be so fastened as to prevent it from savor, from swaying, from the building or structure.
1.39	Working platforms, gangways and stairways shall be so constructed that they do not sag unduly or unequally and if the height of the platform gangways provided is more than 3.6 m above ground level or floor level, they shall be closely boarded and shall have adequate width which shall not be less than 750 mm and be suitably fenced as described above.
1.40	Every opening in the floor or a building or in a working platform shall be provided with suitable means to prevent the fall of persons or materials by providing suitable fencing or railing whose minimum height shall be 90 cm.

HSE & OHSAS

1.41	Wherever there are open excavation in ground, they shall be fenced off by suitable railing and danger signals installed at night so as to prevent persons slipping into the excavations.
1.42	Safe means of access shall be provided to all working places. Every ladder shall be securely fixed. No portable single ladder shall be over 9 m in the length while the width between side rails in rung ladder shall in no case be less than app. 29.2 cm for ladder upto and including 3 m in length. For longer ladders this width shall be increased at least ¼" for each additional foot of length.
1.43	A sketch of the ladders and scaffolds proposed to be used shall be prepared and approval of the Engineer obtained prior to Construction.
1.44	All personnel of the Contactor working within the plant site shall be provided with safety helmets. All welders shall wear welding goggles while doing welding work and all metal worker shall be provided with safety gloves. Persons employed on metal cutting and grinding shall wear safety glasses.
1.45	Adequate precautions shall be taken to prevent danger for electrical equipment. No materials on any of the sites of work shall be so stacked or placed as to cause danger or inconvenience to any person or the public.
1.46	All trenches, four feet or more in depth, shall at all times be supplied with at least one ladder for each 30 m in length or fraction thereof. The ladder shall be extended from bottom of the trench to at least 90 cm above the surface of the ground. Sides of the trenches which are 1.50 m or more in depth shall be stepped back to give suitable slope or securely held by timer bracing, so as to avoid the danger of sides collapsing. The excavated materials shall not be placed within 1.5 m of the edges of the trench or half of the depth of the trench whichever is more. Cutting shall be done from top to bottom. Under no circumstances undermining or undercutting shall be done.
1.47	The Contactor shall take all measures at the sites of the work to protect all persons from accidents and shall be bound to bear the expenses of defense of every suit, action or other proceeding at law that may be brought by any persons for injury sustained or death owing to neglect of the above precautions and to pay any such persons such compensation or which may with the consent of the Contractor be paid to compromise any claim by any such person should such claim proceeding be filed against BHEL, the Contractor hereby agrees to indemnify BHEL against the same.
1.48	Before any demolition work is commenced and also during the process of the

HSE & OHSAS

	work the following shall be ensured:
1.48.1	All roads and open areas adjacent to the work site shall either be closed or suitably protected.
1.48.2	No electric cable or apparatus which is liable to be a source of danger nor a cable or an apparatus used by the operator shall remain electrically charged.
1.48.3	All practical steps shall be taken to prevent danger to persons employed from the risks of fire or explosion or flooding. No floor, roof or other part of the building shall be so overloaded with debris or materials as to render them unsafe.
1.49	All necessary personnel safety equipment as considered adequate by the Engineer should be kept available for the use of the persons employed in the Site and maintained in a condition suitable for immediate use and the Contactor should take adequate steps to ensure proper use of equipment by those concerned.
1.49.1	Workers employed on mixing asphalted materials, cement and lime mortars shall be provided with protective foot wear and protective goggles.
1.49.2	Those engaged in white washing and mixing or stacking of cement bags or any materials which is injurious to the eyes shall be provided with protective goggles.
1.49.3	Those engaged in welding works shall be provided with welder's protective eyesight lids.
1.49.4	Stone breakers shall be provided with protective goggles and protective clothing and seated sufficient to safe intervals.
1.49.5	Where workers are employed in sewers and manholes, which are in use, the Contractor shall ensure that the manhole covers are opened and ventilated at least for an hour before the workers are allowed to get into manhole, and the manholes so opened shall be cordoned off with suitable railing and provided with warning signals or boards to prevent accident to the public.
1.49.6	The Contractor shall not employ men below the age of 18 years and women on the work of painting with products containing lead in any form. Wherever men above the age of 18 are employed on the work of lead painting, the following precautions should be taken.
1.49.6.1	No paint containing lead or lead products shall be used except in the form of paste or ready made paint.

HSE & OHSAS

1.49.6.2	Suitably face masks should be supplied for use by the workers where paints are applied in the form of spray or a surface having lead paint dry rubbed and scrapped.
1.49.6.3	Overalls shall be supplied by the Contractor to the workmen and adequate facilities shall be provided to enable the working painters to wash during the cessation of work.
1.50	When the work is being done near any place where there is risk of drowning all necessary equipment should be provided and kept ready for use and all necessary steps taken for prompt rescue of any person in danger and adequate provision should be made for prompt first aid treatment of all injuries likely to be sustained during the course of the work.
1.51	Motors, gearing, transmission, electric wiring and other dangerous parts of hoisting appliances should be provided with efficient safe guards. Hoisting appliance should be provided with such means as will reduce to the minimum the risk of any part of a suspended load becoming accidentally displaced. When workers employed on electrical installations which are already energized, insulting mats, wearing apparel, such as gloves, sleeves and boots as may be necessary should be provided. The worker should not wear any rings, watches and carry keys or other materials which are good conductor of electricity.
1.52	All scaffolds, ladders and other safety devices mentioned or described herein shall be maintained in safe condition and no scaffold, ladder or equipment shall be altered or removed while it is in use. Adequate washing facilities should be provided at or near the places of work.
1.53	The contractor shall maintain and ensure necessary safety measures as required for inspection and tests HV test, Pneumatic test, Hydraulic test, Spring test, Bend test etc as applicable, to enable. inspection Agency for performing Inspection. If any test equipment is found not complying with proper safety requirements then the Inspection Agency may withhold inspection, till such time the desired safety requirements are met.
1.54	The Contractor shall notify BHEL of his intention to bring to site any equipment or material which may create hazard. BHEL shall have the right to prescribe the conditions under which such equipment or materials may be handled and the contractor shall adhere to such instructions. BHEL may prohibit the use of any construction machinery, which according to him is unsafe. No claim for compensation due to such prohibition will be entertained by BHEL.

HSE & OHSAS

1.55	All safety precautions shall be taken for welding and cutting operations as per IS-818. All safety precautions shall be taken for foundation and other excavation marks as per IS-3764.																						
1.56	These safety provisions should be brought to the notice of all concerned by display on a notice board at a prominent place at work spot. The persons responsible for compliance of the safety code shall be named therein by the Contractor.																						
1.57	To ensure effective enforcement of the rules and regulations relating to safety precautions the arrangement made by the contract shall be open to inspection by the Engineer of the Engineer's Representative.																						
1.58	Keeping the work area clean/ free from debris, removed scaffoldings, scraps insulation/sheeting wastage /cut pieces, temporary structures, packing woods etc. will be in the scope of the contractor. Such cleanings has to be done by contractor within quoted rate, on daily basis by an identified group. If such activity is not carried out by contractor / BHEL is not satisfied, then BHEL may get it done by other agency and actual cost alongwith BHEL overheads will be deducted from contractor's bill. Such decisions of BHEL shall be binding on the contractor.																						
1.59	Notwithstanding the above clauses there is nothing to exit the Contractor from the operations of any other Act or Rule in force in area of work in this respect. Provided always that all safety measures apart from those specifically provided in this agreement which are brought to the notice of the Contractor from time to time by the Engineer shall be complied by the Contractor. Provided further that all consequences, damages, or losses arising by reason of any safety code shall be met with by the Contractor.																						
1.60	<u>NON COMPLIANCE:-</u> NONCONFORMITY OF SAFETY RULES AND SAFETY APPLIANCES WILL BE VIEWED SERIOUSLY AND BHEL HAS RIGHT TO IMPOSE FINES ON THE CONTRACTOR AS UNDER <u>for every instance of violation noticed:</u> <table border="1"> <thead> <tr> <th>SN</th><th>Violation of Safety Norms</th><th>Fine (in Rs)</th><th></th></tr> </thead> <tbody> <tr> <td>01</td><td>Not Wearing Safety Helmet</td><td>50/-</td><td></td></tr> <tr> <td>02.</td><td>Not wearing Safety Belt</td><td>100/-</td><td></td></tr> <tr> <td>03.</td><td>Grinding Without Goggles</td><td>50/-</td><td></td></tr> <tr> <td>04.</td><td>Not using 24 V Supply For Internal Work</td><td>500/-</td><td></td></tr> </tbody> </table>			SN	Violation of Safety Norms	Fine (in Rs)		01	Not Wearing Safety Helmet	50/-		02. ANNEXURE-A

1.0	<u>Suspension of Business dealings with Suppliers/ Contractors</u>
1.1	BHEL reserves the right to take action against Suppliers/ Contractors who fail to perform or indulge in malpractices, by suspending business dealings with them.
1.2	Suspension of business dealings with Suppliers/ Contractors could be in the form of following: -- a) Hold within the unit for specific item(s)/ material category(ies)/ type of work(s) for one year. b) Hold within the unit for all item(s)/ material category(ies)/ type of work(s) for two years c) Banning across BHEL for all items/ material category(ies)/ type of work(s) for three years. The Supplier may be either put on hold or banned, as detailed hereinafter on the basis of one or more of the category wise reasons as enumerated hereunder.
1.3	Hold within the unit for a specific item(s)/ material category(ies)/ type of work(s) shall be imposed in the following cases, if i) In the last three consecutive supplies of a specific material category, average quality rating, as provided in the supplier performance rating (SPR) as per SEARP, falls below 80% of the quality weightage. This is irrespective of supplies against PO(s) having single/ multiple delivery schedules. Note: Not applicable in cases for erection works of Power Sector Regions, where separate guidelines for evaluation of capacity of bidders is being followed. ii) Two consecutive delays, for reasons of delay attributed to the Supplier, in execution of the contracts where delay occurred is such that a) prescribed maximum LD time limits of the contracts is exceeded or b) delay period has equaled/ exceeded half the original delivery period specified in the contracts whichever among the above is earlier. iii) a) Overall SPR (Supplier Performance Rating) in that particular Unit in line with SEARP falls below 60% of the specific material category. b) Bids of contractors (in PS-MSX portal) shall not be considered (if average score of last six months falls 60% or below as per guidelines for evaluation of capacity of bidders formula). Note: – for (b), No specific period of hold shall be applicable. iv) Supplier works are under strike/ lockout for a period of more than three months.

1.3	Hold within the unit for all item(s)/material category(ies)/ type of work(s) shall be put in the following cases, if i) Supplier tampers with tendering procedure affecting ordering process. ii) Supplier has misused BHEL documents/ drawings/ technical information or has breached the confidentiality agreement with BHEL. iii) after placement of order, Supplier fails to execute the contract. iv) within warranty period as per contract, Supplier continues to supply low/ less/ non-performing equipment/ services, repetitive failures, remains non-responsive. v) Wherever risk purchase clause (amounting to more than 5% of contract value) has been invoked.
1.4	Banning across BHEL shall be imposed in following cases, if
1.4.1	i) After price bid opening but before placement of order, Supplier withdraws his offer or varies it in any manner within the validity period. ii) Supplier is found to be responsible for submitting fake/ false/ forged documents, certificates, or information or misrepresentation/ wilful suppression of facts, or has resorted to unethical, illegal means. iii) In spite of warnings, the Supplier persistently violates or circumvents the provisions of labour laws/ regulations/ rules or other statutory requirements. iv) Supplier is found to be involved in cartel formation or in any other act so as to influence the bidding process or influence the price. v) The Supplier has indulged in malpractices or misconduct such as bribery, corruption and fraud, pilferage, coercion etc. vi) The Supplier is found guilty by any court of law for criminal activity/ offences involving moral turpitude in relation to business dealings. vii) Supplier is found to have obtained any internal information/ documentation of BHEL by unauthorized means. viii) The foreign Principals along with the representing Agent shall be banned together if information submitted by them about their precise relationship, commission/ remuneration etc. payable/ receivable and other particulars as asked by BHEL, as per the extant guidelines regarding dealing with Agents of Foreign Suppliers is found false/ incorrect, at any stage. ix) Supplier has substituted, damaged, failed to return, or unauthorizedly disposed off free issue materials/ tools etc. of BHEL.
1.4.2	A Supplier can also be banned with the approval of Director (E, R&D) provided a direction to this effect has been received from the administrative ministry of the Government.

Note: Above shall be applicable along with **Guidelines for “Suspension of Business dealings with Suppliers/ Contractors”** available in BHEL website <http://www.bhel.com>. These shall form part of tender documents.

ANNEXURE-B

Certificate by Chartered Accountant on letter head

This is to Certify that M/S
.....,
(hereinafter referred to as 'company') having its registered office at
..... is registered under MSMED Act 2006, (Entrepreneur
Memorandum No (Part-II)
dtd:..... ,
Category: (Micro /Small)). (Copy enclosed).

Further verified from the Books of Accounts that the investment of the company as per the latest audited financial year as per MSMED Act 2006 is as follows:

1. For Manufacturing Enterprises: Investment in plant and machinery (i.e. original cost excluding land and building and the items specified by the Ministry of Small Scale Industries vide its notification No.S.O.1722(E) dated October 5, 2006 :

Rs..... Lacs

2. For Service Enterprises: Investment in equipment (original cost excluding land and building and furniture, fittings and other items not directly related to the service rendered or as may be notified under the MSMED Act, 2006:

Rs..... Lacs

(Strike off whichever is not applicable)

PROFORMA OF BANK GUARANTEE (in lieu of SECURITY DEPOSIT)

In consideration of the Bharat Heavy Electricals Limited (hereinafter referred to as the 'Employer' which expression shall unless repugnant to the context or meaning thereof, include its successors and permitted assigns) incorporated under the Companies Act, 1956 and having its registered office at BHEL House, Siri Fort, Asiad, New Delhi – 110049 through its Unit at Bharat Heavy Electricals Limited, Power Sector Eastern Region, BHEL Bhawan, Plot No 9/1, DJ Block, Sector-II, Salt lake City, Kolkata – 700091 having agreed to exempt (Name of the Vendor / Contractor / Supplier) having its registered office at _____¹ (hereinafter called the said Contractor which term includes supplier), from demand under the terms and conditions of the Contract reference No. _____² dated _____² valued at Rs.² (Rupees -----)² for <Nature of the Work>³ (hereinafter called the said Contract) of Security Deposit for the due fulfilment by the said contractor of the terms and conditions contained in the said Contract, on production of a Bank Guarantee for Rs. _____⁴ (Rupees _____ only), we _____ (indicate the name and address of the Bank) having its Head Office at _____ (address of the head Office) (hereinafter referred to as the Bank) at the request of _____ [Name of Contractor(s)] do hereby undertake to pay to the Employer an amount not exceeding Rs. _____ in the event of any breach by the said Contractor(s) of any of the terms and conditions contained in the said Contract.

We, _____ (indicate the name of the Bank), do hereby undertake to pay the amounts due and payable under this guarantee without any demur, merely on a demand from the Employer. Any such demand made on the bank, shall be conclusive as regards the amount due and payable by the Bank under this guarantee. However, our liability under this guarantee shall be restricted to an amount not exceeding Rs. _____.

We undertake to pay to the Employer any money so demanded notwithstanding any dispute or disputes raised by the Contractor(s) in any suit or proceeding pending before any Court or Tribunal relating thereto our liability under this present being absolute and unequivocal.

The payment so made by us under this guarantee shall be a valid discharge of our liability for payment hereunder and the Contractor(s) shall have no claim against us for making such payment.

We, further agree that the guarantee herein contained shall remain in full force and effect during the period that would be taken for the performance of the said Contract and that it shall continue to be enforceable till all the dues of the Employer under or by virtue of the said Contract have been fully paid and its claim satisfied or discharged or till _____⁵ or till the office/Department/Division of Bharat Heavy Electricals Limited certifies that the terms and conditions of the said Contract have been fully and properly carried out by the said contractor(s) and also including the satisfactory performance of the equipment during guarantee period and accordingly discharges this guarantee. Unless a demand or claim under this guarantee is made on us in writing on or before the _____⁶, (3 months more than the present date of validity of Bank Guarantee) we shall be discharged from all the liability under this guarantee thereafter.

We, _____ (indicate the name of the Bank) _____ further agree with the Employer that the Employer shall have the fullest liberty without our consent and without affecting in any manner our obligations hereunder to vary any of the terms and conditions of the said Contract or to extend time of performance by the said contractor(s) from time to time or to postpone for any time or from time to time any of the powers exercisable by the Employer against the said contractor(s) and to forbear or enforce any of the terms and conditions relating to the said Contract and we shall not be relieved from our liability by any reason of any such variation or extension being granted to the said contractor(s) or for any forbearance, act or omission on the part of the Employer or any indulgence by the Employer to the said contractor(s) or by any such matter or thing whatsoever which under the law relating to sureties would but for this provision have effect of so relieving us.

This guarantee will not be discharged due to the change in the constitution of the Bank or the Contractor(s).

We,..... BANK lastly undertake not to revoke this guarantee during its currency except with the previous consent of the Employer in writing.

Notwithstanding anything to the contrary contained hereinabove:

- a) The liability of the Bank under this Guarantee shall not exceed.....⁷
- b) This Guarantee shall be valid up to⁸
- c) Unless the Bank is served a written claim or demand on or before _____⁹ (3 months more than the present date of validity of Bank Guarantee) all rights under this guarantee shall be forfeited and the Bank shall be relieved and discharged from all liabilities under this guarantee irrespective of whether or not the original bank guarantee is returned to the Bank.

We, _____ (indicate the name of the Bank) _____ lastly undertake not to revoke this guarantee during its currency except with the previous consent of the Employer in writing.

Any claim or dispute arising under the terms of this document shall only be enforced or settled in the courts of at Kolkata only.

Date _____ Day of _____
for _____ (indicate the name of the Bank) _____

NAME

& ADDRESSES OF THE BENEFICIARY

Dear Sirs,

In consideration of the Bharat Heavy Electricals Limited (hereinafter referred to as the 'Employer' which expression shall unless repugnant to the context or meaning thereof, include its successors and permitted assigns) incorporated under the Companies Act, 1956 and having its registered office at BHEL House, Siri Fort, Asiad, New Delhi – 110049 through its Unit at Bharat Heavy Electricals Limited, Power Sector Eastern Region, BHEL Bhawan, Plot No 9/1, DJ Block, Sector-II, Salt lake City, Kolkata – 700091 having awarded to (Name of the Vendor / Contractor / Supplier) having its registered office at _____¹ hereinafter referred to as the 'Contractor/Supplier', which expression shall unless repugnant to the context or meaning thereof, include its successors and permitted assigns), a contract Ref No.....dated² valued at Rs.....² (Rupees -----)for <Nature of Work>³ (hereinafter called the 'Contract') and the Contractor having agreed to provide a Contract Performance Guarantee, equivalent to% (.... Percent) of the said value of the Contract to the Employer for the faithful performance of the Contract,

we,, (hereinafter referred to as the Bank), having registered/Head office at and inter alia a branch at being the Guarantor under this Guarantee, hereby, irrevocably and unconditionally undertake to forthwith and immediately pay to the Employer a maximum amount Rs ----- (Rupees -----)⁴ without any demur, immediately on a demand from the Employer, .

Any such demand made on the Bank shall be conclusive as regards the amount due and payable by the Bank under this guarantee. However, our liability under this guarantee shall be restricted to an amount not exceeding Rs. _____.

We undertake to pay to the Employer any money so demanded notwithstanding any dispute or disputes raised by the Contractor/ Supplier in any suit or proceeding pending before any Court or Tribunal relating thereto our liability under this present being absolute and unequivocal.

The payment so made by us under this Guarantee shall be a valid discharge of our liability for payment thereunder and the contractors/supplier shall have no claim against us for making such payment.

We thebank further agree that the guarantee herein contained shall remain in full force and effect during the period that would be taken for the performance of the said Contract and that it shall continue to be enforceable till all the dues of the Employer under or by virtue of the said Contract have been fully paid and its claims satisfied or discharged.

We BANK further agree with the Employer that the Employer shall have the fullest liberty without our consent and without affecting in any manner our obligations hereunder to vary any of the terms and conditions of the said Contract or to extend time of performance by the said Contractor/Supplier from time to time or to postpone for any time or from time to time any of the powers exercisable by the Employer against the said Contractor/Supplier and to forbear or enforce any of the terms and conditions relating to the said Agreement and we shall not be relieved from our liability by reason of any such variation, or extension being granted to the said Contractor/Supplier or for any forbearance, act or omission on the part of the Employer or any indulgence by the Employer to the said Contractor/Supplier or by any such matter or thing whatsoever which under the law relating to sureties would but for this provision have effect of so relieving us.

The Bank also agrees that the Employer at its option shall be entitled to enforce this Guarantee against the Bank as a principal debtor, in the first instance without proceeding against the Contractor and notwithstanding any security or other guarantee that the Employer may have in relation to the Contractor's liabilities.

This Guarantee shall remain in force upto and including.....⁵ and shall be extended from time to time for such period as may be desired by Employer.

This Guarantee shall not be determined or affected by liquidation or winding up, dissolution or change of constitution or insolvency of the Contractor/Supplier but shall in all respects and for all purposes be binding and operative until payment of all money payable to the Employer in terms thereof.

Unless a demand or claim under this guarantee is made on us in writing on or before the⁶ (3 months more than the present date of validity of Bank Guarantee) we shall be discharged from all liabilities under this guarantee thereafter.

We, BANK lastly undertake not to revoke this guarantee during its currency except with the previous consent of the Employer in writing.

Notwithstanding anything to the contrary contained hereinabove:

- a) The liability of the Bank under this Guarantee shall not exceed.....⁷
- b) This Guarantee shall be valid up to⁸
- c) Unless the Bank is served a written claim or demand on or before _____⁹ (3 months more than the present date of validity of Bank Guarantee) all rights under this guarantee shall be forfeited and the Bank shall be relieved and discharged from all liabilities under this guarantee irrespective of whether or not the original bank guarantee is returned to the Bank.

We, _____ Bank, have power to issue this Guarantee under law and the undersigned as a duly authorized person has full powers to sign this Guarantee on behalf of the Bank.

Any claim or dispute arising under the terms of this document shall only be enforced or settled in the courts of at Kolkata only.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

**SECTION – I
Instructions to Tenderers
GENERAL INSTRUCTION TO TENDERERS**

1.1 Submission of Tender in “Three Parts”.

- (1) Technical Tender: All particulars asked for from the Vendor except the Price Bid & E.M.D in an envelope.
- (2) EMD in a sealed envelope clearly superscribing on the envelope “E.M.D”, the Tender Number, Name of Work, addresses of Vendor and addressee. One time EMD holders needn't enclose this provided that proof of EMD remittance is enclosed in the technical tender.
- (3) Price Bid in the price schedule enclosed in the tender, in sealed envelope, clearly superscribing “Price Bid”, Tender Number, Name of Work, Name of the Vendor and addressee.

All the above “Parts” can be placed in an sufficiently large outer envelope for submission.

1.1.1a This Tender specification as a whole, duly furnishing the following details shall be duly signed and sent in a sealed cover superscribing :

TENDER		FOR
TENDER	SPECIFICATION	NO.
DUE ON _____		

1.1.1b DURATION OF JOB

1.1.1.1 Earnest Money Deposit.

1.1.1.2 Income Tax & Sales Tax Clearance Certificate.

1.1.1.3 Detailed organisation chart for manpower resources available with the tenderer and to be employed for the present jobs.

1.1.1.4 Time to be taken for commencement and completion of Work.

1.1.1.5 A list of experience as mentioned in the tender document.

1.1.1.6 The details of the present jobs being handled.

1.1.1.7 Certificate from the BHEL's scheduled Banks to establish financial capability of the tenderer as per format enclosed at Annexure-I.

1.1.1.8 Attested copies of partnership deed, power of attorney and tender specifications duly signed as mentioned in the tender documents.

1.1.1.9 Price schedule and other relevant information.

NOTE: All Xerox copies enclosed by the Vendor should be attested and sealed for authenticity.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

1.1.2 The tender shall be addressed to:

**HEAD, PURCHASE DEPARTMENT
BHARAT HEAVY ELECTRICALS LIMITED,
POWER SECTOR, EASTERN REGION, (2ND FLOOR),
PLOT-9/1, BLOCK-DJ, SECTOR-II, SALT LAKE,
KOLKATA – 700091.**

1.1.3 Tenders submitted by post shall be sent “REGISTERED POST ACKNOWLEDGEMENT DUE” and shall be posted with the due allowance for any postal delay. The tenders received after the due date and time of opening are liable to be rejected. Telegraphic offers and offers received by telex may not be considered unless confirmed in writing by a detailed offer.

1.1.4 Tenders shall be opened by the authorised officer of BHEL at his office at the time and date as specified in the tender notice in the presence of such of those tenderers or their authorised representatives who may be present.

1.1.5 The Tenderer shall closely peruse all the clauses, specifications and drawings indicated in the Tender Documents before quoting. Should the tenderer have any doubt about the meaning of any portion of the Tender Specifications or find discrepancies or omission in the drawings or the tender documents issued are incomplete or shall require clarification on any of the technical aspect, scope of work etc., he shall at once contact the authority inviting the tender for clarification before the submission of the offer.

1.1.6 Before tendering, the tenderer is advised to inspect the site of work and the environments and be well acquainted with the actual working and other prevalent conditions, facilities available, position of material and labour. No claim will be entertained later on the ground of lack of knowledge.

1.1.7 Tenderers must fill up all the schedules and furnish all the required information as per the instructions given in various sections of the tender specification. Each and every page of the Tender Specification & deceleration must be signed bearing seal and submitted along with the offers by the Tender in token of complete acceptance thereof. The information furnished shall be complete by itself. The booklet of G.S.C.C may be retained by the bidder if deceleration is enclosed along with the bid duly filled in and signed and sealed.

1.1.8 The tender shall quote the rates in English language and international numerals. The rates shall be in whole rupees. These rates shall be entered in figures as well as in words. For the purpose of the tender, the metric system of units shall be used.

1.1.9 All entries in the tender shall either be typed or be in ink. Erasures and overwriting are not permitted and may render such tenders liable to summary rejection. All cancellations and insertions shall be duly attested by the tenderer.

1.2 Qualifications of Tenderers:

Only tenderers who have previous experience in work of this nature and description detailed in this tender specification and/or registered with BHEL, PS-ER-SAS for such works are expected to quote for this work duly detailing their experience along with the offer. Offers from tenderers who do not have established experience in the field are not likely to be considered.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

1.3 Data to be enclosed:

Full information shall be given by the tender in respect of following. Non-submission of this information may lead to rejection of the offer/tender.

1.3.1 Financial Status:

- a) A certificate from BHEL's scheduled Bank to prove his financial capacity/capability to undertake the work of solvency certificate from the concerned Government Authority.
- b) Contractors other than those who are registered in ER, should submit their audited annual accounts for three years preceding the financial year in which tenders are called for.

1.3.2 Income Tax / Sales Tax Certificate :

A certificate of Income Tax / Sales Tax verification from the appropriate authority in the forms prescribed therefor duly indicating annual turnover. The certificates shall be valid for one year from the date of issue or for the period prescribed therein for all tenders submitted during the period.

1.3.3 Previous Experience:

A statement giving particulars duly supported by documentary evidence of the various services rendered for each similar work by the tenderer indicating the particulars and value of each work, the site location and the duration and date of completion and also a list of site locations and particulars and value of various services that are under progress.

1.3.4 Organisation Chart:

The organisation pattern that is totally available with the tenderer and that will be employed by the tenderer for this work duly indicating the number of Engineers and Supervisors, their qualification and experience in the line, the number of skilled and unskilled workmen etc.

- 1.3.5** An attested copy of the Power of Attorney, in case the tender is signed by an individual other than the sole proprietor, shall also be attached.

1.3.6 In case of an individual:

His full name, address and place and nature of business.

1.3.7 In case of Partnership firms:

The name of all the partners and their addresses. A copy of the Partnership Deed (Instrument of partnership) duly certified by the Notary Public shall be enclosed.

1.3.8 In case of Companies:

**PSER
KOLKATA**

- 1.3.9 Nature of business carried on by the Company and the provision of the Memorandum relating thereof.
- 1.3.10 Names and particulars including addresses of all the Directors and their previous experience.
- 1.3.11 A list of tools and tackles that the tenderer is having and those that will be earmarked for this job.
- 1.3.12 In addition to the above, the particulars required in various annexures.

1.4 EARNEST MONEY DEPOSIT (EMD):

- 1.4.1 Every tender Must be accompanied by the prescribed amount of Earnest Money Deposit in any one of the following forms:
- 1.4.1.1 **Cash deposit as permissible under the extant Income Tax Act** (Before tender opening) - The amount should be remitted by the party to the Cashier of Bharat Heavy Electricals Limited, PS-ER, Kolkata between 14.00 hours and 16.00 hours on working days and cash receipt issued by him shall be enclosed along with the tender.
- 1.4.1.2 **Electronic Fund Transfer** credited in Bharat Heavy Electricals Limited, PS-ER' account (before tender opening). RTGS details of BHEL-PSER is available in tender.
- 1.4.1.3 **Banker's Cheque/Pay Order/Demand Draft** payable at Kolkata duly pledged in Favour of Bharat Heavy Electricals Limited, Kolkata (along with offer).
- 1.4.1.3(a) **Any other mode as per latest guidelines issued by Govt. of India.**
- 1.4.1.4 Parties/bidders who have submitted/submits **One Time EMD (OEMD) in this Power Sector Region (i.e. BHEL-PSER) for Service After Sales (SAS) a sum of amount Rs. 5,00,000/- (Rupees Five Lakh only)** are exempted from payment of E.M.D. on each such tender in that unit on case to case basis.
- 1.4.2 Tenders received without Earnest Money in full in the manner prescribed above are liable to be rejected. EMD shall not carry any interest.
- 1.4.3 The Earnest Money Deposit of the successful tenderer will be retained as part of Security Deposit.
- 1.4.4 EMD given by all unsuccessful tenderers shall be refunded normally within 15 days of award of work.
- 1.4.5 BHEL reserves the right of forfeiture of Earnest Money Deposit submitted by the tenderer if :-
- After opening the tender and within the offer validity period, the tenderer revokes his tender or makes any modification in his tender which is not acceptable to BHEL.
 - The Contractor fails to deposit the required Security Deposit or commence the work within the period as per LOI/Contract.

EMD by the tenderer shall be withheld in case any action on the tenderer is envisaged under the provisions of extant "Guidelines on Suspension of business dealings with suppliers/contractors" and forfeited/released based on the action as determined under these guidelines"

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

1.5 Authorisation and Attestation:

1.5.1 Tenders shall be signed by persons duly authorised/empowered to do so. Certified copies of such authority and relevant documents shall be submitted along with the tenders.

1.6 Validity of Offer:

The rates in the tender shall be kept open for acceptance for a minimum period of six months from the due date of opening of tenders. If a tenderer withdraws or revokes his tender or increases the tender rates and/or conditions for any item within the aforesaid period, his Earnest Money Deposit is liable to be forfeited. In case the Bharat Heavy Electricals Limited calls for negotiations, such negotiation shall not amount to cancellation or withdrawal of the original offer which shall be binding on the tenderers.

1.7 Execution of Contract:

The successful tender's responsibility under this contract commences from the date of issue of the Letter of Intent by Bharat Heavy Electricals Limited. The successful tenderer may be required to execute an agreement in the prescribed form with the BHEL within a reasonable time after the acceptance of his tender and in any case before submitting first RA bill for payment. The expenses for completing and stamping the agreement shall be borne by the tenderer.

1.8 Security Deposit (SD):

1.8.1 Security Deposit means the security provided by the contractor towards fulfilment of any obligations in terms of the provisions of the contract. Upon acceptance of tender, the successful tenderer within the time specified in the Letter of Intent must deposit the required amount towards Security Deposit before start of the work. The Security Deposit shall not carry any interest.

1.8.2 The total amount of **Security Deposit will be 5% (Five percent) of the contract value.** EMD of the successful tenderer shall be converted and adjusted towards the required amount of Security Deposit.

1.8.3 If the value of the work done at any time exceeds the accepted agreement value, the Security Deposit shall be correspondingly enhanced and the additional Security Deposit shall immediately be deposited by the contractor or recovered from payments due to the contractor.

1.8.4 Regarding adjustment of Earnest Money Deposit towards part of Security Deposit, refer clause 1.8.2 above, the successful tenderer shall not commence any work under the contract before remitting the Security Deposit except as directed by BHEL.

1.8.5 Failure to deposit the Security within the stipulated time may lead to forfeiture of Earnest Money and cancellation of the award of work.

1.8.6 The balance amount to make up the required Security Deposit of 5% of the contract value may be furnished in any one of the following forms:

- i) Cash (as permissible under the Income Tax Act)
- ii) Local cheques of scheduled banks (subject to realization)/Pay Order/Demand Draft/Electronic Fund Transfer credited in Bharat Heavy Electricals Limited, PS-ER' account.

iii) Bank Guarantee from Scheduled Banks / Public Financial Institutions as defined in the Companies Act. The Bank Guarantee format should have the approval of BHEL. Bank Guarantee for S.D. must be posted by the Bank by registered post directly to us, and it should not be submitted by the bidder directly to us.

iv) Fixed Deposit Receipt issued by Scheduled Banks / Public Financial Institutions as defined in the Companies Act (FDR should be in the name of the contractor, A/C BHEL).

v) Securities available from Indian Post Offices such as National Savings Certificates, Kisan Vikas Patras etc. (held in the name of Contractor furnishing the security and duly endorsed/hypothecated/ pledged, as applicable, in favour of BHEL).

vi) Any other mode as per latest guidelines issued by Govt. of India.

Note: BHEL will not be liable or responsible in any manner for the collection of interest or renewal of the documents or in any other matter connected therewith.

1.8.7 Collection of Security Deposit:

1.8.7.1 At least 50% of the required Security Deposit, including EMD, should be collected before start of work. Balance of the Security Deposit can be collected by deducting 10% of the gross amount progressively from each of the running bills of the contractor till the amount of the required Security Deposit is collected.

1.8.7.2 If the value of the work done at any time exceeds the accepted agreement value, the Security Deposit shall be correspondingly enhanced and the additional Security Deposit shall immediately be deposited by the contractor or recovered from payments due to the contractor.

1.8.7.3 The recoveries made from running bills (cash deduction towards balance SD amount) can be released against submission of equivalent Bank Guarantee in acceptable form, but only once, before completion of work, subject to approval of BHEL.

1.8.7.4 Security Deposit should cover up to the period of guarantee also.

(Note: In case of SAS jobs, work can be started before the required Security Deposit is collected. However, payment can be released only after collection/recovery of initial 50% Security Deposit).

1.8.8 BHEL reserves the right of forfeiture of Security Deposit in addition to other claim and penalties in the event of the contractor's failure to fulfil any of the contractual obligations including statutory or in the event of termination of contract as per terms and conditions of contract.

1.8.9 Return of Security Deposit:

If the contractor duly performs and completes the contract in all respects to the entire satisfaction of BHEL, and presents an absolute "No Demand Certificate" in the prescribed form and return properties belonging to BHEL handed over, lent or hired by him for carrying out the said works the security deposit will be released to the contractor after deducting all costs or expenses or other contracts entered into with the contractor, only after the satisfactory completion or guarantee period as per clause 2.13.

1.8.10 No interest shall be payable by BHEL on Earnest Money / Security Deposit or any money due to the contractor from BHEL.

1.8.11 In no case Security Deposit can be released before settling all claims under this contract.

1.9 Rejection of Tender and other conditions:

1.9.1 The acceptance of tender will rest with BHEL which does not bind itself to accept the lowest tender or any tender and reserves to itself full rights for the following without assigning any reasons whatsoever:

- a) to reject any or all of the tenders.
- b) To split up the work amongst two or more tenderers.
- c) To award the work in part.
- d) Either of the contingencies stated in (b) and (c) to modify the time for completion suitably.
- e) To modify the scope of work after mutual agreement.

1.9.2 Conditional and unwitnessed tenders:

Tenders containing absurd or unworkable rates and amounts and tenders which are incomplete and otherwise considered defective and tenders not in accordance with the tender conditions, specifications etc. are liable to be rejected.

1.9.3 If a tenderer expires after his submission of the tender or after the acceptance of his tender, BHEL may at their discretion, cancel such tender. If a partner of a firm expires after the submission of the tender or after the acceptance of the tender, BHEL may cancel such tender at their discretion unless the firm retains its character.

1.9.4 BHEL will not be bound by any Power of Attorney granted by the tenderer or by changes in the compositions of the firm made subsequent to the execution of the contract. They may, however, recognise such power of Attorney and changes after obtaining proper legal advice, the cost of which will be chargeable to the contractor concerned.

1.9.5 If the tenderer deliberately gives wrong information in his tender, BHEL reserves the right to reject such tender at any stage or to cancel the contract, if awarded and forfeit the Earnest Money/Security Deposit.

1.9.6 Canvassing in any form in connection with the tenders is strictly prohibited and the tenders submitted by the contractor who resort to canvassing are liable to rejection.

1.9.7 Should a tenderer or contractor or in the case of a firm or Company of Contractors one or more of its Partners/shareholders/Directors have a relation or relations employed in the capacity of an officer of BHEL, the authority inviting tender shall be informed of the fact along with the offer, failing this, BHEL may at its sole discretion, reject the tender or cancel the contract and forfeit the Earnest Money/Security Deposit.

1.9.8 The successful tenderer should not sub-contract the part or complete work detailed in this tender specification undertaken by him without permission of BHEL. The tenderer is solely responsible to BHEL for the work awarded to him. Any deviation in this regard will entail termination of such contract by BHEL at the risk and responsibility of contractor.

1.9.9 The successful tenderer shall inform/keep BHEL informed if he has already undertaken any work/is likely to be awarded any job with the same customer with whom BHEL is entering into contract.

- 2.1.4 "SITE" shall mean the place or places at which the plants/equipment are to be overhauled and services are to be performed as per the specification of this contract.
- 2.1.5 "CLIENTS OF BHEL" or "CUSTOMER" shall mean the Project authorities to whom BHEL is supplying the equipment/services.
- 2.1.6 "CONTRACTOR" shall mean the individual, firm or company who enters into this contract with BHEL and shall include their executors, administrators, successors and permitted assigns.
- 2.1.7 "CONTRACT" or "CONTRACT DOCUMENT" shall mean and include the agreement or work order, the accepted appendices of rates, schedule of quantities, if any and general condition of contract, the special conditioning of contract instructions of the tenderers, the drawings, the specifications, the special specification, if any, the tender specifications, the special specification, if any, the tender documents and the Letter of Intent/Accepting Letter issued by BHEL. Any conditions or terms stipulated by the contractor in the tender documents or supporting letters shall not form part of the contract unless specifically accepted in writing by BHEL and incorporated in the agreement.
- 2.1.8 "GENERAL CONDITIONS OF CONTRACT" shall mean the instructions to tenderers and general conditions of contract pertaining to the work detailed.
- 2.1.9 "TENDER SPECIFICATION" shall mean the "Specific Conditions, technical specifications, appendices, site information and drawings, "pertaining to the work for which the tenderers are required to submit their offer. Also this will include the specifications detailed in NIT of client of BHEL for overhauling, erection, testing and commissioning of plant. Individual specification no. will be assigned to each tender specification.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

- 2.1.10 "TENDER DOCUMENTS" shall mean the General conditions of contract (2.1.8) and tender specification (2.1.9)
- 2.1.11 "LETTER OF INTENT" shall mean the intimation by a letter to the tenderer that the tender has been accepted in accordance with provisions contained in that letters. The responsibility of the contractor commences from the date of issue of this letter and all the terms and conditions of contract are applicable from this date.
- 2.1.12 "COMPLETION TIME" shall mean the period by date specified in the acceptance of tender for handing over the overhauled equipment/plant which are found acceptable by the engineer being of required standard and conforming to the specification of the contract or recommissioning of the machine successfully whichever is later. Completion time will be reckoned from the date of LOI with the period for mobilisation as prided with LOI, added to the same.
- 2.1.13 "PLANT" shall mean and cannot the entire assembly of the plant and equipments covered by the contract.
- 2.1.14 "EQUIPMENT" shall mean all equipments, machineries, materials, structurals, electricals and other components of the plant covered by the contract.
- 2.1.15 "TESTS" shall mean and include such test or tests to be carried out on the part of the contractor as are prescribed in the contract or considered necessary by BHEL, in order to ascertain the quality workmanship, performance and efficiency of the contract work or part thereof.
- 2.1.16 "APPROVED" "DIRECTED" or "INSTRUCTED" shall mean approved, directed or instructed by BHEL.
- 2.1.17 "WORK OR CONTRACT WORK" shall mean and include supply of all categories of labour, specified consumables, tools and tackles required for complete and satisfactory site transportation, handling, stacking, storing, overhauling erection, testing and commissioning of the equipment to the entire satisfaction of BHEL.
- 2.1.18 "SINGULAR AND PLURAL ETC" words carrying singular number shall also include plural and vice versa, where the context so requires, words importing the masculine gender shall be taken to include any company or Association or body of individuals, whether incorporated or not.
- 2.1.19 "HEADINGS" The Leadings in these general conditions are solely for the purpose of facilitating reference and shall not be deemed to be part thereof or be taken into consideration in interpretation or construction thereof or of the contract.
- 2.1.20 "MONTH" shall mean calendar month.
- 2.1.21 "WRITING" shall include any manuscript, type written or printed statement under the signature or seal as the case may be.

2.2 Law governing the contract and Court Jurisdiction:

The contract shall be governing by the Law for the time being in force in the Republic of India. The Civil Court having ordinary original civil jurisdiction, Kolkata shall alone have exclusive Jurisdiction in regard to all claims in respective of this contract.

**GENERAL & SPECIAL CONDITIONS

2.3 Issue of Notice:

The contractor shall furnish to the BHEL Engineer the name, designation and address of his authorised agent and all complaints, notices, communications and reference shall be deemed to have been duly given to the contractor if delivered to the contractor or his authorised agent or left at or posted to the address either of the contractor or of his representative and shall be deemed to have been so given in the case of posting on the day on which they would have reached such address in the ordinary course of past or on which they were so delivered or/ or left.

2.4 Use of Land:

No land belonging to BHEL or their customer, under temporary possession of BHEL shall be occupied by the contractor without the written permission of BHEL.

2.5 Commencement of Work:

2.5.1 The contractor shall commence the work within the time indicated in the Letter of Intent from BHEL and shall proceed with the same with due expedition without delay. For computing the scheduled completion date, commencement, of work will be reckoned from the date of complete mobilisation as per LOI, unless specifically amended by Head (Services), BHEL, Kolkata.

2.5.2 If the successful tenderer fails to start the work within the stipulated time, BHEL as its discretion will have the right to cancel the contract. His Earnest Money and / or Security Deposit with BHEL will stand forfeited without any further reference to him, without prejudice to any and all of BHEL's other rights and remedies in this regard.

2.5.3 All the works shall be carried out under the direction and to the satisfaction of BHEL.

2.5.4 The erected overhauled plant or work performed under the contract shall be taken over when it has been completed in all respects and or satisfactorily put into operation at site.

2.6 Mode of payment and measurement of the work completed.

2.6.1 "All payment due to the contractor shall be paid only by Account payee Cheques"

2.6.2 The contractor shall present his bill on the format prescribed by BHEL for every payment. After verification of such bills by BHEL, all items having financial value shall be entered and certified in BHEL Measurement Book by BHEL Engineer and the bills prepared based on the same and connected technical documents which form part of this tender specification.

2.6.3 Lump sum omission will be entered for deduction. Measurement shall be restricted to that for which it is required to ascertain the financial liability of BHEL under this Contract.

2.6.4 Work which is to be measured in details shall be measured as per standard procedure without reference to any local procedures without reference to any local procedures excepting where it is otherwise stated in the tender documents. The measurement shall be taken jointly by person duly authorised on the part of BHEL and by the contractor.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

- 2.6.5 If, at any time due to reason whatsoever, it becomes necessary to remeasure the work done in full or in part, the expenses towards such remeasurement shall be borne by the contractor.
- 2.6.6.1 The contractor shall bear the expenditure involved, if any, in making the measurement. The Contractor shall, without extra charges, provide all the assistance with appliances with appliance and other things necessary for measurement.
- 2.6.7 The measurement entered in the Measurement Books and the bills prepared shall be signed and dated by both the contracting parties.
- 2.6.8 The Contractor will be intimated in writing by the site Engineer, the proposed date of measurement. If the contractor, representative fails to participate in the joint measurement, the BHEL engineer shall have the power to proceed by himself to take measurement in which case the measurement shall be accepted by the contractor as final.
- 2.6.9 Passing of measurement as per bills does not amount to acceptance of the completion of work mentioned. Any left out work has to be completed if pointed out at a later date by BHEL.
- 2.7 Rights of BHEL:**
- 2.7.1 To withdraw any portion of work and/or to restrict / alter the quantum of work as indicated in the contract during the progress of work and get it done through other agency and/or by departmental labour to suit BHEL's commitment to its customer or in case BHEL decides to advance the date of completion due to other emergency reasons / BHEL's obligation to its customer.
- 2.7.2 To terminate the contract or withdraw portion of work and get it done through other agency, at the risk and cost of the contractor after due notice of a period of 14 days' by BHEL in any of the following cases:
- i) Contractor's poor progress of the work vis-à-vis execution timeline as stipulated in the Contract, backlog attributable to contractor including unexecuted portion of work does not appear to be executable within balance available (#) period considering its performance of execution.
 - ii) Withdrawal from or abandonment of the work by contractor before completion of the work as per contract.
 - iii) Non-completion of work by the Contractor within scheduled completion period as per Contract or as extended from time to time, for the reasons attributable to the contractor.
 - iv) Termination of Contract on account of any other reason (s) attributable to Contractor.
 - v) Assignment, transfer, subletting of Contract without BHEL's written permission.
 - vi) Non-compliance to any contractual condition or any other default attributable to Contractor.
- (#) In-case inputs from BHEL/Customer are likely to be delayed or are actually delayed, this delay may also be taken into account while considering balance period available for execution of Contract.

Risk & Cost Amount against Balance Work:

Risk & Cost amount against balance work shall be calculated as follows:

$$\text{Risk \& Cost Amount} = [(A-B) + (A \times H/100)]$$

Where,

A= Value of Balance scope of Work (*) as per rates of new contract

B= Value of Balance scope of Work (*) as per rates of old contract being paid to the contractor at the time of termination of contract i.e. inclusive of PVC & ORC, if any.

H = Overhead Factor to be taken as 5

In case (A-B) is less than 0 (zero), value of (A-B) shall be taken as 0 (zero).

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

(*) Balance scope of work (in case of termination of contract):

Difference of Contract Quantities and Executed Quantities as on the date of issue of Letter for 'Termination of Contract', shall be taken as balance scope of Work for calculating risk & cost amount. Contract quantities are the quantities as per original contract. If, Contract has been amended, quantities as per amended Contract shall be considered as Contract Quantities.

Items for which total quantities to be executed have exceeded the Contract Quantities based on drawings issued to contractor from time to time till issue of Termination letter, then for these items total Quantities as per issued drawings would be deemed to be contract quantities.

Substitute/ extra items whose rates have already been approved would form part of contract quantities for this purpose. Substitute/ extra items which have been executed but rates have not been approved, would also form part of contract quantities for this purpose and rates of such items shall be determined in line with contractual provisions.

However, increase in quantities on account of additional scope in new tender shall not be considered for this purpose.

NOTE: In-case portion of work is being withdrawn at risk & cost of contractor instead of termination of contract, contract quantities pertaining to portion of work withdrawn shall be considered as 'Balance scope of work' for calculating Risk & Cost amount.

LD against delay in executed work in case of Termination of Contract:

LD against delay in executed work shall be calculated in line with LD clause as per GCC/SCC/TCC/Special note/any other annexure of tender document (in compliance with order of precedence), for the delay attributable to contractor. For limiting the maximum value of LD, contract value shall be taken as Executed Value of work till termination of contract.

Method for calculation of "LD against delay in executed work in case of termination of contract" is given below.

- i) Let the time period from scheduled date of start of work till termination of contract excluding the period of Hold (if any) not attributable to contractor = T1
- ii) Let the value of executed work till the time of termination of contract = X
- iii) Let the Total Executable Value of work for which inputs/fronts were made available to contractor and were planned for execution till termination of contract = Y
- iv) Delay in executed work attributable to contractor i.e. $T2 = [1 - (X/Y)] \times T1$
- v) LD shall be calculated in line with LD clause [as per GCC/SCC/TCC/Special note/any other annexure of tender document (in compliance with order of precedence)] of the Contract for the delay attributable to contractor taking "X" as Contract Value and "T2" as period of delay attributable to contractor.

2.7.3 Recoveries arising out of Risk & Cost and LD or any other recoveries due from Contractor

Following sequence shall be applicable for recoveries from contractor:

- a) Dues available in the form of Bills payable to contractor, SD, BGs against the same contract.
- b) Demand notice for deposit of balance recovery amount shall be sent to contractor, if funds are insufficient to effect complete recovery against dues indicated in (a) above.
- c) If contractor fails to deposit the balance amount to be recovered within the period as prescribed in demand notice, following action shall be taken for balance recovery:
 - i) Dues payable to contractor against other contracts in the same Region shall be considered for recovery.
 - ii) If recovery cannot be made out of dues payable to the contractor as above, balance amount to be recovered, shall be informed to other Regions/Units for making recovery from the Unpaid Bills/Running Bills/SD/BGs/Final Bills of contractor.
 - iii) In-case recoveries are not possible with any of the above available options, Legal action shall be initiated for recovery against contractor.

2.7.4 To terminate the contract or to restrict the quantum of work and pay for the portion of work executed in case BHEL's contract with their customers are terminated for any reason.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

- 2.7.5 While every endeavour will be made by BHEL they cannot guarantee uninterrupted work due to conditions beyond their control. Contractor will not be entitled to any compensation / extra payment on this account.
- 2.8 Responsibilities of the Contractor:
- The following are the responsibilities of the contractor in respect of observation of local laws, employment of personnel, payment of taxes and execution of job etc.
- 2.8.1 As far as possible, unskilled workers shall be engaged from the local areas in which the work is being executed.
- 2.8.2 The Contractor at all times during the continuance of this contract, shall in all his dealing with local labour for the time being employed on or in connection with the work, have due regard to all local festivals and religious and other customs.
- 2.8.3 The contractor shall comply with all state and central Laws, Statutory Rules, Regulations etc., such as:
- The payment of wages Act, Minimum Wage Act, Workmen compensation Act, Employers Liability Act, Industrial Disputes Act, Employees Provident Fund Scheme, Employees Insurance Scheme, Contract Labour (Regulation & Abolition) Act 1970 and other Acts, Rules & Regulations for labour as may be enacted by the Government during the tenure of the Contract and having force or jurisdiction at site. The Contractor shall give to the local Governing Body, Police and other relevant authorities all such notices as may be required by law.
- 2.8.4 The Contractor shall pay all taxes, fees, licence charges, deposits duties, tools, royalty, commission or other charges which may be leviable on account of any of his operations in executing the contract. In case, BHEL is forced to pay any of such taxes, BHEL shall have the right to recover the same from the contractor either from his bills or otherwise as deemed fit.
- 2.8.5 The Contractor shall be responsible for provision of health and sanitary arrangements, more particularly described in contract Labour (Regulation & Abolition Act) safety precautions etc., as may be required of same and satisfactory execution of the contract.
- 2.8.6 The contractor shall fulfil all his obligation in respect of accommodation including proper medical facilities for the personnel employed by him.
- 2.8.7 The contractor shall be responsible for the proper behaviour at site and observance of all regulations by the staff employed by him.
- 2.8.8 The Contractor shall ensure that no damage is caused to any person / property of other parties working at site. If any such damages is caused, it is the responsibility of the contractor to make the losses or compensate for the same.
- 2.8.9 All the properties / equipments / components of BHEL / their client loaned with or without deposit to the contractor in connection with the contract shall remain the properties of BHEL / their client. The Contractor shall use such properties for the purpose of execution of this contract. All such properties / equipment / components shall be deemed to be in good condition when received by the contractor unless he notified within 48 hours to the contrary. The Contractor shall return them in good conditions as and when required by BHEL / their client. In case of non-return, loss damage, repairs, etc. the cost thereof, as may be fixed by the site Engineer, will be recovered from the contractor.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

- 2.8.10 It is not obligatory on the part of BHEL to supply any tools and tackles or other materials other than those specifically agreed to do so by BHEL. However, depending upon the availability / possibility BHEL's customers' handling equipment and other plants may be made available to the contractor on payment of the hire charges / free of charges as fixed, subject to the condition laid down by BHEL. Customer form time to time, Unless paid in advance, such hire charges if applicable shall be recovered from contractor's bill / security Deposit in one instalment.
- 2.8.11 The contractor shall not claim any compensation of the scope of the work, due to changes in design which curtails quantum.
- 2.8.12 The Contractor shall fully indemnify BHEL against all claims of whatsoever nature arising during the course of erection / overhauling / performing work under the contract.
- 2.8.13 In case the contractor is required to undertake any major work outside the scope of this contract the rates payable shall be decided by BHEL Resident Engineer.
- 2.8.14 The contractor shall keep the area of work clean and shall remove debris etc., while executing day to day work. Upon completion of work, the contractor shall remove from the vicinity of work, all scrap, packing materials, rubbish, unused and other materials and deposit them in places to be specified by the BHEL Engineer. The contractor will also demolish all hutments, sheds, partitions, offices, constructed and used by him and shall clean the debris. In the event of his failure to do so, the same will be arranged to be removed by the BHEL. The expenses thereof will be recovered from contractor.
- 2.8.15 The contractor shall arrange and co-ordinate his work in such a manner as to cause no inconvenience to other agencies working in the area.
- 2.8.16 All safety rules and codes applied by the client / BHEL at site shall be observed by the contractor without exception. The contractor shall be responsible for the safety of the equipment / material and work to be performed by him and shall maintain all light, fencing guards, signs etc. or other protection necessary for the purpose. Contractor shall also take such additional precautions as may be indicated from time to time by the Engineer with a view to prevent pilferage, accidents, fire hazards and atmospheric conditions. Suitable number of electrical staff, watch and ward, store keepers to take care of the equipment, materials and construction tools and tackles, shall be posted at site by the contractor till completion of the work under this contract. The contractor shall arrange for such safety devices as are necessary for such type of work and carry out the requisite tests of handling equipment, lifting tools, tackles etc, as per prescribed standards and practices.
- 2.8.17 The contractor will be directly responsible for payment of wages to his women. A pay roll sheet giving all the payments given to workers and duly signed by the contractor's representative should be furnished to BHEL site office for record purpose. BHEL site In-charge may be intimated the date of disbursement of wages to the workmen engaged for the work, so that his representative can witness the same.
- 2.8.18 The intent of specification, is to provide services according to most modern and proven techniques and codes. The omission of specific reference to any method, requirement or material necessary for the proper and efficient performance of work shall not relieve the contractor of the responsibility of providing such facilities to complete the work.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

- 2.8.19 In case of any clause of the work for which there is no such specification as laid down in the contract, such work shall be carried out in accordance with the instructions and requirements of the BHEL Engineer.
- 2.8.20 No levy or payment or charge made or imposed shall be impeached by reason of any clerical error or by reason of any mistake in the amount levied or demanded or charged.
- 2.8.21 The details drawings, specifications, instructions manual, if any available with the BHEL Engineer will form part of tender specification. These documents will be made available for reference only to the contractor during execution of work.
- 2.8.22 Should any error or ambiguity be discovered in the specification or information, the contractor shall forthwith bring the same to the notice of BHEL before commencement of work. BHEL's interpretation in such cases shall be final and binding on the contractor.
- 2.8.23 No idle labour charges will be admissible in the event of any stoppage caused in the work resulting in contractor's labour being rendered idle due to any cause of any type.
- 2.8.24 **No over run charges shall be paid in the event of the completion period being extended for any reason whatsoever.**
- 2.8.25 It is possible that some repair/rectification, modification may be needed on the equipments to be overhauled / work to be performed under this specification, for reasons not attributions to the contractor. All such repair / rectification / modification work which can be done, with the available facilities at site shall be carried out by the contractor free of cost and no extra charges shall be paid to contractor.
- 2.8.26 The quality and progress of work will be regularly reviewed. The schedule and progress of work will be given to the contractor in advance and it will be the obligation / responsibility of the contractor to achieve the desired quality and progress of work by suitably reinforcing their labour force and/or by working extra hours or in more than one shift without any extra cost. Workmen found unsuitable for the work will be replaced immediately by the contractor on being informed by BHEL.
- 2.8.27 During the overhauling work under the contract it is very essential that proper and adequate inspection should be made constantly to maintain the quality or workmanship so that any deviation from design dimension does not exceed permissible limits. The proper functioning of the unit, while in operation, depends to a great extent on the above factors. The fact that effective supervision and inspection at the execution stage is less costly than any down time of running unit even for a short period need not be over emphasized. For the details regarding alignment and permissible dimensional deviations in the sub-assemblies BHEL Engineer may be consulted.
- 2.8.28 The contractor shall be furnish fortnightly labour report showing by classification of number of employees engaged in various categories or work date wise and submit a progress report of work as required by BHEL Engineer.
- 2.8.29 The contractor shall execute the work in the most substantial and workmen-like manner in stipulated time. Accuracy of work and timely execution are the essence of this contract. The contractor shall be responsible to ensure that the assembly and workmanship conform to the dimensions and clearances given in the drawings and/or as per instructions of BHEL Engineers.
- 2.8.30 The contractor shall take all responsible care to protect the materials and work till such time the plant/equipment has been taken over by BHEL / their client. Where necessary, suitable temporary fencing and lighting shall have to be provided by the contractor as a safety measure against accident and damage of property of BHEL. Suitable caution notice shall be displayed where access to any part may be deemed to be unsafe and hazardous.
- 2.8.31 It will be the responsibility of the contractor to ensure safe lifting of the equipments taking due precautions to avoid any accidents and damage to other equipments and personnel.
- 2.9 **Void**

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

2.10 Insurance:

2.10.1 BHEL / their customer shall arrange for insuring the materials / properties of BHEL/customer covering risks during transit, storage, overhauling, erection and commissioning.

2.10.2 It is the sole responsibility of the contractor to Insure his workman against accident and injury while at work as required by relevant rules and to pay compensation, if any, to workmen as per workmen's compensation Act. Contractor shall insure his staff against accidents. The work will be carried out in a protected area and all the rules and regulations of the client / BHEL in the area of project which are in force from time to time, will have to be followed by the contractor.

2.10.3 If due to negligence and /or non-observations of safety and other precautions, any accident / injury occurs to any other person/public, the Contractor shall have to pay necessary compensation and other expenses, if so decided by the appropriate authorities. Third party insurance coverage is to be made by the contractor.

2.10.4 If due to contractor's carelessness, negligence or non-observance of safety precautions damage to BHEL's /Customer's property and personnel should occur, and if BHEL is unable to recover, in full, cost from the Insurance Company, the balance will be recovered from the Contractor.

2.11 Strikes & Lockouts :

The contractor will be fully responsible for all the disputes and other issues connected with his labour. In the event of the contractor's labour resorting to strike or the lockout declared is not settled within a period of one week BHEL shall have the right to get the work executed employing the own labour or through any other agencies or both and the cost so incurred by BHEL, shall be deducted from the contractor's bills as per clause 2.7. For all purposes whatsoever, the employees of the contractor shall not be deemed to be in the employment of BHEL.

2.12. Force Majeure :

2.12.1 The following shall amount to Force Majeure :

Acts of God, Acts of any Government, war, sabotage, riots, civil commotion, police action, revolution, flood, fire, cyclones, earthquake and epidemic and other similar causes over which the contractor has no control.

2.12.2 If the contractor suffers delay in the due execution of the contractual obligation due to delays caused by Force Majeure as defined above, the agreed time of completion of the job covered by this contract or the obligations of the Contractor shall be extended by a period of time equal to the period of delay provided that on the occurrence of any such contingency the Contractor immediately reports to BHEL in writing the causes of delay and the contractor shall not be eligible for any compensation.

2.13 Performance Guarantee :

Even though the work will be carried out under supervision of BHEL Engineers. The contractor shall guarantee against defects attributable to faulty workmanship or procedure adopted in the overhaul for items covered in the contract for a period of six

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER

months from the date of re-commissioning of the set after the capital overhaul. The guarantee should cover all defects notified during this period and shall have to be attended to free of cost immediately or at the time our clients are able to give shut down of the set for the required period. when necessary. In case of failure of contractor to attend to such defects as and when required in time, BHEL shall arrange to attend the defects and the charges shall be levied to contractor's account and shall be recoverable from the security deposit / progressive payments.

2.14. Arbitration :

All disputes between the parties to the contract arising out of or in relation to the contract, other than those for which the decisions of the Engineer or of any other person is by the contract expressed to be final and conclusive, shall, after written notice by either party to the contract to other party be referred to sole arbitration of General Manager or his nominee. The arbitration shall be conducted in accordance with the provision of the Indian Arbitration Act, 1996.

The parties to the contract understand and agree that if will be no objection that the General Manager or the person nominated as arbitrator, had earlier in his official capacity to deal directly or indirectly with the matters of which the contract relates or that in the course of his official duties had expressed views on all or any of the matters in dispute of difference. The award of the arbitrator shall be final and binding on the parties to this contract.

In the event of the arbitrator dying, neglecting or refusing to act or resigning or being unable to act for any reason or his award being set aside by the court for any reason, it shall be lawful for the GM or his successor, as the case may be, either to act himself as the Arbitrator or to appoint another arbitrator in place of the outgoing arbitrator in the matter aforesaid.

The arbitrator may from time to time with the consent of both the parties to the contract enlarge the time for making the award.

Work under the contract shall be continued during the arbitration proceedings. The venue of the arbitration shall be the place from which the contract is issued or such other place as the arbitrator at his discretion may determine.

OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

SECTION – III
SPECIAL CONDITIONS OR CONTRACT

3.1 Quantum of Work:

3.1.1 The scope of work given in the tender specification is only approximate and is liable to variation and alternation at the discretion of BHEL Resident Engineer. No compensation on this account shall be payable to the contractor unless specifically recommended by BHEL Resident Engineer as the variation forming major additions to the original scope of work. All repair / rectification work arising out of normal wear and tear, seizure of parts etc. have to be done by the contractor and the same will be covered by the scope of work of the contract.

3.1.2 The scope of work details out the major activities only. However, as per the general maintenance requirement and site condition, certain related activities may have to be carried out without any extra cost.

3.2 Commencement and completion of work :

3.2.1 The starting time and completion time is the essence of the of the tender. As the time bound programme is firmly committed to customer, the starting time and completion time should be strictly adhered to. It will be not be possible to grant extension in completion time except in extraordinary circumstance, which will be decided entirely at the discretion of BHEL Resident Engineer. Work should normally be carried out in two shifts and sometimes also in three shifts in consultation with BHEL Resident Engineer.

A detailed programme of the various activities covered under this contract with specific time period to fall in the overall frame work of the above dates should be prepared and got approved by BHEL Resident Engineer. The progress against this programme shall be reviewed with BHEL Resident Engineer at the end of each day and critical areas identified and suitable steps taken in time.

If during the review, at any stage of overhauling, BHEL Resident Engineer feels that the delays are not likely to be made up, BHEL reserves the right to take corrective steps as considered necessary by BHEL Resident Engineer to complete work in scheduled time and debit the cost incurred thereon to the contractor. This does not however absolve the contractor of his own efforts in consultation with BHEL Resident Engineer. Every endeavour will be made to see that work proceeds uninterruptedly.

3.2.2 The tenderers should indicate the time required for starting the work once the letter of intent is issued and the time required for completion. The work may have to commence immediately after opening of the tenders. Hence, preference may be given to those tenderers who can commence the work earlier, and also ensure early completion.

3.2.3 The Contractor shall ensure completion of the job in all respects within the day from the date of commencement of work as given in contract.

3.3 Penalty for delay:

3.3.1 In the event of failure to complete the work in given time, an amount equal to ½% [half percent] of the contract value per day subject to a maximum of 10% [ten percent] of the contract value will be levied as penalty, in case the balance work is allowed to be completed by the contractor beyond the scheduled time of completion, which is at the discretion of BHEL. In case of delays on contractor's part, at any stage during the scheduled period or after, BHEL shall have the option of ensuring completion of the job by any other means at its disposal and the charges on this account shall be levied on the contractor. These shall be adjusted against contractor's bills or Security Deposit.

In case of LD recovery, the applicable GST shall also be recovered from vendor.

3.4 Terms of Payment:

A minimum time of 15 days will be required for processing the bills and release of payment after the bills are presented to BHEL.

3.4.1 As per STC

All payments are subjects to income tax deductions @1% of the bill amount at source or as per Central Government Laws. No request for advance payment will be entertained by BHEL.

3.5 Inspection and Completion:

The work being carried out by the contractor will be supervised and inspected by our Site Engineers under the overall supervision of BHEL Resident Engineer.

3.6 The work will be deemed as complete when it is finally accepted by BHEL Resident Engineer and job completion certificate is issued. No extra payment will be made for any rework carried out by the contractor to rectify any defective work.

3.6 The contractor shall not be entitled for labour idling charges under any circumstances.

3.6 Tools, Tackles, Test Equipments & Consumables:

3.6.1 All tools and tackles and consumables required for day-to-day work like gas and gas cutting sets with accessories, AC/DC welding sets, TIG welding kits, welding cables, electrodes, all necessary power connection at his own cost. However, in case of emergency, BHEL may supply certain items if available, to contractor at actual cost plus handling charges, these will be deducted from contractors' running bills, testing equipment for conducting various tests, during the progress of overhauling / re-commissioning shall have to be provided by the contractor. Spare parts going into permanent installation shall only be provided by BHEL.

3.7 Accommodation for site staff and store space:

3.7.1 Contractor has to arrange for the stores and office at site; space for the same shall be made available as per the availability at site. The contractor shall be responsible to provide all necessary facilities like residential accommodation with sanitary facilities, transport, electricity, water, medical bonus etc. as required under various labour laws and statutory rules and regulations framed thereunder to the personnel employed by him.

3.8 Responsibilities of the contractor:

3.9 Supervisory staff and labour:

The contractor shall employ, specially skilled labour, supervisor and engineers thoroughly conversant with particular type of work to ensure quality work. BHEL reserves the right to decide on the suitability of the workers and other staff employed by the contractor. BHEL reserves the right to insist on removal of any employees of the contractor at any time if they find him unsuitable and the contractor should forthwith remove him.

3.9 Planning and Execution:

Contractor shall submit a job planning in form of Bar Chart or PERT Chart. A List of manpower category wise, indicating individuals responsibility job activity wise, shall have to be submitted. Daily programme of job shall be displayed on board near work site on day in advance. A daily progress report along with Manpower utilities has to be submitted and backlog of the work, if any, shall be covered up in consultation with BHEL Resident Engineer.

**GENERAL & SPECIAL CONDITIONS

- 3.8.3.1 Before commencing the work, contractor shall submit a 'SAFETY PLAN" to the authorised BHEL official. The 'Safety Plan' shall indicate in detail the measures that would be taken by the contractor to ensure safety of men, equipment, material and environment during execution of the work. The plan shall take care to satisfy all requirements specified here under. The contractor shall submit safety plan along with his offer. During negotiations before placing or work order and during execution of the contract, BHEL shall have right to review and suggest modifications in the safety Plan. Contractor shall abide by BHEL decision in this respect.
- 3.8.3.2 The contractor shall take all necessary safety precautions and arrange for appropriate appliances as per direction of BHEL or it's authorised officials to prevent loss of human lives, injuries to personnel engaged, and damage to property and environment.
- 3.8.3.3 The contractor shall provide to it's work force and ensure the use of the following personal protective equipment as found necessary and as directed by the authorised BHEL officials:
- a. Safety Helmets conforming to IS-2925 : 1984
 - b. Safety Belts confirming to IS – 3521 : 1983
 - c. Safety shoes conforming to IS-1989 : 1978
 - d. Eye & Face Protection devices conforming to IS-8520 : 1987 and IS-8940 : 1978
 - e. Hand & body protection devices conforming to :
 - IS – 2573 : 1975
 - IS – 6994 : 1973
 - IS – 8807 : 1973
 - IS – 8513 : 1977
- 3.8.3.4 All tools tackles, lifting appliances, material handling equipment scaffolds, cradles, safety nets, ladders, equipment etc. used by the contractor shall be of safe design and construction. These shall be tested and certificate of fitness obtained before putting them to use and from time to time as instructed by authorised BHEL official who shall have the right to ban the use of any item.
- 3.8.3.5 All electrical equipment, connections and wiring for construction power, its distribution and use shall conform to the requirements of Indian Electricity Act & Rules. Only electricians licensed by the appropriate statutory authority shall be employed by the contractor to carry out all types of electrical works. All electrical appliance including portable electrical tools used by the contractor shall have safe plugging system to source of power and be appropriately earthed.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

- 3.8.3.6 The contractor shall not use any hand – lamp energised by electric power with supply voltage of more than 24 volts. For work in confined spaces, lighting shall be arranged with power source not more than 24 volts.
- 3.8.3.7 The contractor shall adopt all fire safety measures as laid down in the “Code for Fire Safety at Construction Sites” issued by the safety Department of the Construction Management (HQ) of BHEL and as per directions of the authorised BHEL official. A copy of the above referred “Code for Fire Safety at Construction Sites” shall be made available by BHEL to the contractor for reference, on demand by the contractor, during tendering stage itself.
- 3.8.3.8 Where it become necessary to provide and / or store petroleum products, explosives, chemicals, and liquid or gaseous fuel or any other substance that may cause fire or explosion, the contractor shall be responsible for carrying out such provisions and / or storage in accordance with the rules and regulations laid down in the relevant government acts, such as Petroleum Act, Explosives Act, Petroleum & Carbides of Calcium Manual of the Chief Controller of Explosives, Govt. of India, etc. Prior approval of the authorised BHEL official at the site shall also be taken by the contractor in all such matters.
- 3.8.3.9 The contractor shall arrange at his cost (wherever not specified) appropriate illumination at all work spots for safe working, when natural daylight may not be adequate for clear visibility.
- 3.8.3.10 The contractor shall be held responsible for any violation of statutory regulations (local, state or central) and BHEL instructions, that may endanger safety of men, equipment, material and environment in his scope of work or another contractor's or agency's Cost of damage if any, to life and property arising out of such violation of statutory regulations and BHEL instructions shall be borne by the contractor.
- 3.8.3.11 In case of a fatal or disabling injury, accident to any person at construction site due to lapses by the contractor, the victim and / or his / her dependents shall be compensated by the contractor as per statutory requirements. However, if considered necessary, BHEL shall have the right to impose appropriate financial penalty on the contractor and recover the same from payments due to the contractor for suitably compensating the victim and / or his/her dependents. Before imposing any such penalty, appropriate enquiry shall be held by BHEL giving opportunity to the contractor to present his case.
- 3.8.3.12 In case of any damage to property due to lapses by the contractor, BHEL shall have the right to recover cost of such damages from payments due to the contractor after holding an appropriate enquiry.
- 3.8.3.13 In case of any delay in the completion of a job due to mishaps attributable to lapses by the contractor, BHEL shall have right to recover cost of such delay from payments due to the contractor, after notifying the contractor suitably and giving him opportunity to present his case.
- 3.8.3.14 If the contractor fails to improve the standards of safety in its operation to the satisfaction of BHEL after being given a reasonable opportunity to do so, and/or if the contractor fails to take appropriate safety precautions or to provide necessary safety devices and equipment or to carry out instructions regarding safety issued by the authorised BHEL official, BHEL shall have the right to take corrective steps at the risk and cost of the contractor after giving a notice of not less than seven days indicating the steps that would be taken by BHEL.

**GENERAL & SPECIAL CONDITIONS
OF CONTRACT [FOR SERVICES JOB]**

**PSER
KOLKATA**

3.8.3.15 The contractor shall submit report of the accidents, fires and property damage, dangerous occurrences, to the authorised BHEL official immediately after such occurrence, but in any case not later than twelve hours of the occurrence. Such reports shall be furnished in the manner prescribed by BHEL. In addition, periodic reports on safety shall also be submitted by the contractor to the authorised BHEL official from time to time as prescribed.

3.8.3.16 Before commencing the work, the contractor shall appoint / nominate a responsible officer to supervise implementation of all safety measures and liaison with his counterpart of BHEL.

3.8.3.17 If safety record of the contractor in execution of the awarded job is to the satisfaction of safety Department of BHEL, issue of an appropriate certificate to recognise the safety performance of the contractor may be considered by BHEL after completion of the jobs.

03. TERMS OF PAYMENT:

- i) No advance shall be payable to the contractor unless specifically spelt out in the tender enquiry.
- ii) A minimum time of fifteen days will be required for the processing of bills presented and for their payment.
- iii)
 - a) **80% of the contract value shall be payable against submission of three progressive running bills. Each of the billed amount shall correspond to the quantum of job actually completed and to that effect the claim can be preferred based on percentage allotments (to be given in the work order) made. This, however, has to be certified by the resident manager / engineer of the site.**
 - b) **10% of contract value shall be payable after submission of statutory documents & 'no due certificate from customer's personal department'.**
 - c) **Balance 10% of contract value shall be paid after successful synchronization / commissioning and on receipt of final payment by BHEL from Customer.**

BHEL at its discretion may further split up the percentage break up given in billing schedule and effect payment to suit site condition, cash flow requirement etc. according to progress of work.
- iv) The bidder should be financially sound to maintain the site establishment with regard to timely payment of wages to his workmen, arrangements of other inputs viz. T&P consumables etc.
Non-receipt of progressive payment from BHEL due to any reasons should not be a constraint for the smooth execution of the job at site.
- v) The bidder should make all out efforts to provide all inputs in consultation with BHEL engineers at site for completing the job in the specified time frame.
- vi) No over run/escalation / idle charges are payable against any services job under any circumstances. (in exceptional cases such claims may be considered provided BHEL's customer admits of such payment).
- vii) Extra work rate being admitted off by BHEL for other similar contracts have been stated on the page no.10 of this annexure.

For any additional work not envisaged in the scope of work or quantities exceeding the stated quantities, these rates shall be applicable.
- viii) All claims for extra works should be settled before claiming the final (10%) bill. The contractor should prefer the final claim with the certificate that 'no other claim is due from BHEL against this contract', without which final bill cannot be processed for payment.
- ix) For reduction / deletion / withdrawal in the scope of work proportionate deduction in contract value will be made.

4. PERFORMANCE:

- i) As soon as job is awarded, the contractor has to submit a barchart to the resident engineer nominated showing the detailed schedule for all activities.

This schedule will be reviewed by the resident engineer from time to time to enable the contractor to recast the barchart matching the planned completion of the job.

- ii) It shall be the responsibility of the contractor's supervisor to distribute the work among his workmen deployed at site and get day to day activities executed as per BHEL's requirement.

BHEL's engineers / supervisors will check the correctness of the job done and will also give the daily programme of work to the contractors supervisor. The contractor has to ensure completion of daily programme and if there is any spill over, the same has to be completed by putting in same additional resources. (Technical guidance wherever required will be provided by BHEL).

- iii) The scope of work mentioned in this tender enquiry gives the broad outline of the actual work involved and it not is possible to mention all minute details of the work. For proper evaluation, the bidders may seek clarifications from this office. Or else, they may visit site and study the job content before submitting offers and be well informed and acquainted with the actual working and other prevalent conditions of the site, facilities available etc.

No claim will be entertained later on the ground of lack of knowledge. iv)

The bidders have to furnish the bio-data and experience details of the site-in-charge, other key workmen, supervisors, senior technicians etc. to be deployed. In case of award of contract, the key members of the contractor's team may be interviewed at site by BHEL's resident engineer to ascertain their suitability. Replacement of non-acceptable personnel will have to be arranged by the contractor immediately at his own cost.

- v) Penalty for the delay in job completion will be 0.5% per day of delay, limiting to maximum 10% of the contract value, to be imposed on the contractor in case the delay in work completion is attributable to the lapses on the part of the contractor.

In case of LD recovery, the applicable GST shall also be recovered from vendor.

- vi) Performance Guarantee: Even though the work will be carried out under supervision of BHEL Engineers, the contractor shall guarantee against defects attributable to faulty workmanship or procedure

adopted in the overhaul for items covered in the contract for a period of Six months from the date of re-commissioning of the set after the overhaul. The guarantee should cover all defects notified during this period and shall have to be attended free of cost immediately or at the time our clients are able to give shutdown of the set for the required period, when necessary. In case of failure of contractor to attend to the defect as and when required in time, BHEL shall arrange to attend the defects and the charges shall be levied to the contractor's account and shall be recoverable from the security deposit / progressive payments.

5. MISCELLANEOUS:

- i) The bidders shall submit a list of jobs being carried out by them or expected to be taken up by them during the period as called for in the participation of the tender.

Enclosure – 6.

- ii) The contractor has to engage a cleaning gang at site to ensure continuous cleaning of the floor at work site to protect the parts and to give safe access at the work site.
- iii) Obtaining licenses / permits / road permits in connection with the fulfillment of the contractual obligations is entirely the contractors responsibility. However, wherever applicable BHEL can only offer support to the extent possible.
- iv) For all matters bearing on the execution of the job at site, the decisions of the resident engineer are final and binding upon the contractor.
- v) The contractor has to retain suitable minimum work force at site for a period of one month from the date of completion or work / commissioning, to attend any small / miscellaneous problems, as leakage etc.
- vi) The contractor has to mobilize on a short notice (within 4 days) to attend any troubles encountered in the equipment worked on, during warranty period of six months.
- vii) After dismantling and during execution of the job, successful bidder has to suitably tag the components and sub-assemblies for traceability and store properly before final assembly. This is as per Doc. Nos. PSER:PMX:002:94 & PSER:PMX:001:94.
- viii) Process control of Special Processes like Welding and Heat Treatment shall be carried by successful bidder as per Doc. Nos. PSER:QLY:001:99, PSER:QLY:001:94 (3 VOL) and PSER:QLY: 003:99.
- ix) Proper segregation, identification, tagging and up-keep of all dismantled items at work site during job execution have to be done by successful bidder.
